

MANAGEMENT'S DISCUSSION AND ANALYSIS
JUNE 30, 2017

DUNDEE CORPORATION

Management's Discussion and Analysis

Dundee Corporation (the “Corporation” or “Dundee Corporation”) is a public Canadian independent holding company, listed on the Toronto Stock Exchange (“TSX”) under the symbol “DC.A”. Through its operating subsidiaries, the Corporation is engaged in diverse business activities in the areas of energy, resources, agriculture, real estate and infrastructure, and corporate finance. The Corporation also holds, directly and indirectly, a portfolio of investments mostly in these key areas, as well as other select investments in both publicly listed and private enterprises.

This Management's Discussion and Analysis (“MD&A”) has been prepared with an effective date of August 10, 2017 and provides an update on matters discussed in, and should be read in conjunction with the Corporation's audited consolidated financial statements, including the notes thereto, as at and for the year ended December 31, 2016 (the “2016 Audited Consolidated Financial Statements”), together with the accompanying MD&A for the year then ended, and with the unaudited condensed interim consolidated financial statements of the Corporation as at and for the three and six months ended June 30, 2017 (the “June 2017 Interim Consolidated Financial Statements”) which have been prepared using International Financial Reporting Standards (“IFRS”). All amounts in this MD&A are in Canadian dollars unless otherwise specified. Tabular dollar amounts, unless otherwise specified, are in thousands of dollars, except for per share or per unit amounts. This MD&A contains forward looking statements that are based on certain estimates and assumptions and involve risks and uncertainties. Actual results may vary materially from management's expectations. See the “*Cautionary Note Regarding Forward Looking Statements*” section later in this MD&A for further information.

DUNDEE CORPORATION'S CAPITAL ALLOCATED BY INDUSTRY SECTOR

CAUTIONARY NOTE ON DETERMINATION OF MARKET VALUE OF INVESTMENTS

Certain of the Corporation's investments trade in public markets, while other investments are in debt or equity securities of private companies. While the Corporation has applied valuation methodologies to estimate the market value of its portfolio of non-publicly traded investments, these valuation methodologies have not been applied to:

- (i) operating subsidiaries; and
- (ii) equity accounted investments that are not publicly traded.

For purposes of the above chart, the “market value” of the Corporation's capital allocated to non-public operating subsidiaries and non-public equity accounted investments is equal to their underlying carrying value (see “*Understanding the Allocation of Dundee Corporation's Capital*”).

UNDERSTANDING THE ALLOCATION OF DUNDEE CORPORATION'S CAPITAL

	June 30, 2017		December 31, 2016	
	Carrying Value	Market Value*	Carrying Value	Market Value*
1	Operating Subsidiaries			
	Operating subsidiaries are not recorded as individual investments in the Corporation's consolidated financial statements. Instead, the accounts of the operating subsidiary are consolidated with those of the Corporation on a line-by-line basis. For example, the revenue generated by an operating subsidiary is reported as revenue of the Corporation in the consolidated statement of operations.			
	\$ 371,941	\$ 357,672	\$ 388,647	\$ 376,068
2	Equity Accounted Investments			
	Investments that are accounted for using the equity method are separately disclosed in the Corporation's consolidated statement of financial position as "Equity accounted investments". These investments are initially recorded at the Corporation's cost of acquisition. Subsequently, the original cost is increased or decreased in proportion to the Corporation's share of earnings or losses generated by the investee.			
	158,262	158,756	151,183	151,207
3	Investments			
	All other investments are designated as "Investments" in the Corporation's consolidated statement of financial position. These investments may include investments in equity or debt securities of public or private companies in a variety of sectors. These investments are reported in the Corporation's consolidated financial statements at their estimated fair value.			
	348,871	348,871	433,574	433,574
4	Corporate Account Balances			
	Corporate account balances represent balances of the Corporation's capital that are not directly attributable to a particular investment. These balances include cash held by the Corporation directly, offset by the Corporation's direct obligations, including obligations in respect of its credit facilities.			
	(13,988)	(15,927)	(108,981)	(111,500)
	\$ 865,086	\$ 849,372	\$ 864,423	\$ 849,349
	Less: Shareholders' equity attributable to holders of:			
	Preference Shares, series 2	(84,053)	(86,985)	(86,985)
	Preference Shares, series 3	(43,015)	(43,015)	(43,015)
	SHAREHOLDERS' EQUITY ATTRIBUTABLE TO CLASS A SUBORDINATE SHARES AND CLASS B SHARES OF THE CORPORATION	\$ 738,018	\$ 719,372	\$ 737,355
			\$ 719,349	
	Number of Class A Subordinate Shares and Class B Shares of the Corporation outstanding			
	Class A Subordinate Shares	55,675,994	55,621,546	
	Class B Shares	3,114,873	3,114,936	
		58,790,867	58,736,482	
	SHAREHOLDERS' EQUITY ON A PER SHARE BASIS**	\$ 12.55	\$ 12.24	\$ 12.55
			\$ 12.25	

* See "Dundee Corporation's Capital Allocated by Industry Sector – Cautionary Note on Determination of Market Value of Investments".

** Before accounting for deferred income tax assets and liabilities in respect of the Corporation's investments in operating subsidiaries, which are not recognized in the Corporation's consolidated financial statements as per IAS 12.

PERFORMANCE MEASURES

The Corporation believes that important measures of its operating performance, as well as that of its subsidiaries, include certain metrics that are not defined under IFRS and as such, may not be comparable to similar performance measures used by other companies. Throughout this MD&A, there will be references to certain performance measures which management believes are relevant in assessing the economics of its business. While these performance measures are not formally recognized by IFRS, the Corporation believes that they are informative and provide further qualitative insight into net earnings and cash flows.

- **“AUA” or “Assets under Administration”** represent the approximate period-end value of client assets administered by the Corporation’s brokerage subsidiaries and in respect of which these subsidiaries earn commission revenue and other similar fees from clients. AUA are not included in the Corporation’s consolidated statements of financial position.
- **“AUM” or “Assets under Management”** represent the period-end value of client assets managed by the Corporation’s wealth management and asset management subsidiaries on a discretionary basis and in respect of which these subsidiaries earn management fee revenue and, in certain cases, performance fee revenue. AUM are not included in the Corporation’s consolidated statements of financial position.
- **“Barrel of Oil Equivalent”** or “boe” is calculated at a barrel of oil conversion ratio of six thousand cubic feet (“Mcf”) of natural gas to one barrel (“bbl”) of oil (6 Mcf to 1 bbl), based on an energy equivalency conversion method which is primarily applicable at the burner tip and does not always represent a value equivalency at the wellhead.
- **“Contingent Resources”** are those quantities of oil estimated, as of a given date, to be potentially recoverable from known accumulations using established technology or technology under development, but which are not currently considered to be commercially recoverable due to one or more contingencies. Contingencies may include factors such as economic, legal, environmental, political and regulatory matters, or a lack of markets. It is also appropriate to classify as contingent resources the estimated discovered recoverable quantities associated with a project in the early evaluation stage. Contingent resources are further classified in accordance with the level of certainty associated with the estimates and may be sub-classified based on project maturity and/or characterized by their economic status.
- **“Contingent Resources - 2C”** are considered to be the best estimate of the quantity that will actually be recovered from the Contingent Resources. It is equally likely that the actual remaining quantities recovered will be greater or less than the best estimate. If probabilistic methods are used, there should be at least a 50 percent probability that the quantities actually recovered will equal or exceed the best estimate.
- **“Contingent Resources - 3C”** are considered to be the optimistic estimate of the quantity that will actually be recovered from the Contingent Resources. It is unlikely that the actual remaining quantities recovered will exceed the high estimate. If probabilistic methods are used, there should be at least a 10 percent probability that the quantities actually recovered will equal or exceed the high estimate.
- **“Contingent Resources - 3C net of 2C”** are considered to be the additional quantity of 3C that will actually be recovered above the 2C.
- **“Contribution Margin” or “Margin”** is an important measure of earnings in certain business segments and generally represents core revenues less cost of sales. Margin generally excludes general and administrative expenses, interest expense, and income taxes and may also exclude depreciation and depletion of assets not directly associated with the activities of producing or extracting product for sale.
- **“Earnings Before Interest, Taxes, Depreciation and Amortization” or “EBITDA”** is a measure of a company’s operating performance and can be used to analyze and compare profitability between companies and industries because it eliminates the effects of financing and accounting decisions.

- **“FVTPL”** means fair value through profit or loss. Certain of the Corporation’s investments in equity and debt securities have been designated as investments at FVTPL. Changes in the fair value of investments designated as investments at FVTPL are reported in net earnings or loss.
- **“Fair Value” or “Market Value”** of an investment is generally determined using quoted market prices on prescribed stock exchanges for investments that are publicly traded. Market value or fair value of an investment that is privately held is determined by reference to valuation methodologies appropriate for the investment.
- **“Field Level Cash Flows”** are calculated as revenue from oil and natural gas sales, less royalties and cost of sales. Field level cash flows contribute to working capital, including debt management, as well as to the funding of capital expenditure requirements for the Corporation’s resource-based business activities.
- **“Field Netbacks”** refer to field level cash flows expressed on a measurement unit or barrel of oil equivalent basis.
- **“Per Day Amount” or (“/d”)** is used throughout this MD&A to reflect oil and gas production volumes on an average per day basis.
- **“Probable Reserves”** are those additional reserves that are less certain to be recovered than proved reserves. It is equally likely that the actual remaining reserves quantities recovered will be greater or less than the sum of the estimated proved plus probable reserves.
- **“Prospective Resources”** are defined as those quantities of oil estimated, as of a given date, to be potentially recoverable from undiscovered accumulations by application of future development projects. Prospective resources have both an associated chance of discovery and a chance of development. Prospective resources are further subdivided in accordance with the level of certainty associated with recoverable estimates assuming their discovery and development and may be sub-classified based on project maturity.
- **“Prospective Resources – Best Estimate”** are considered to be the best estimate of the quantity of prospective resources that will actually be recovered. It is equally likely that the actual remaining quantities recovered will be greater or less than the best estimate. If probabilistic methods are used, there should be at least a 50 percent probability that the quantities actually recovered will equal or exceed the best estimate.
- **“Proved Reserves”** are those reserves that can be estimated with a high degree of certainty to be recoverable. It is likely that the actual remaining reserves quantities recovered will exceed the estimated proved reserves.
- **“Shareholders’ Equity on a Per Share Basis”** is calculated by dividing the carrying value of the Corporation’s shareholders’ equity in accordance with IFRS (or the “Market Value” or “Fair Value” of such shareholders’ equity determined using valuation methodologies as described under the definition of “Market Value” or “Fair Value” above), by the aggregate number of Subordinate Shares and Class B Shares of the Corporation issued and outstanding.

RESULTS OF OPERATIONS

Six months ended June 30, 2017 compared with six months ended June 30, 2016

Consolidated Net Earnings

During the six months ended June 30, 2017, the Corporation generated net earnings attributable to owners of Dundee Corporation of \$3.9 million, or earnings of \$0.01 per share. In comparison, the Corporation incurred a loss attributable to owners of Dundee Corporation of \$18.7 million, or \$0.38 per share during the same period of the prior year. The following table summarizes the Corporation's net operating earnings or loss on a per segment basis.

<i>For the six months ended June 30,</i>	2017	2016
Net earnings (loss) before income taxes from:		
Goodman & Company, Investment Counsel Inc.	\$ (2,455)	\$ (6,263)
Dundee Securities Ltd.	(430)	(2,365)
Dundee Energy Limited	(805)	(14,218)
United Hydrocarbon International Corp.	(6,690)	(7,511)
Dundee Sustainable Technologies Inc.	(1,767)	(2,637)
Eurogas International Inc.	(337)	(340)
Blue Goose Capital Corp.	1,762	(11,212)
AgriMarine Holdings Inc.	(2,698)	(4,135)
Dundee 360 Real Estate Corporation	186	(34,023)
	(13,234)	(82,704)
Adjusted for the corporate and other portfolio holdings segment:		
Changes in the market value of investments:		
Dundee Precious Metals Inc.	4,002	63,896
DREAM Unlimited Corp.	2,175	14,929
Other portfolio investments	26,403	24,503
Share of (loss) earnings from equity accounted investments	(1,907)	1,140
Other items in the corporate and other portfolio holdings segment	(8,181)	(23,705)
Income tax expense	(7,599)	(11,956)
Net earnings (loss) for the period	\$ 1,659	\$ (13,897)
Net earnings (loss) attributable to:		
Owners of the parent	\$ 3,860	\$ (18,730)
Non-controlling interest	(2,201)	4,833
	\$ 1,659	\$ (13,897)

Operating results during the first half of 2017 include market appreciation from certain of the Corporation's investments that are carried in the consolidated financial statements at FVTPL. Included as part of the "Corporate and other portfolio holdings" segment, these investments resulted in the recognition of a gain from investments of \$32.6 million during the six months ended June 30, 2017, compared with a gain of \$103.3 million recognized during the same period of the prior year. Changes in the fair value of investments carried at FVTPL, which are determined by trends and information in equity and capital markets, are recorded in the Corporation's net earnings or loss and can cause substantial volatility in operating results. The Corporation cautions that the equity and credit markets do not always necessarily reflect the underlying value of certain assets.

A number of the Corporation's investments are accounted for using the equity method of accounting, which requires that the Corporation increase or decrease the carrying value of its investment by its proportionate share of the net earnings or loss of the underlying investee. This method of accounting further subjects the Corporation to significant volatility in its operating performance as the underlying net earnings or loss of the equity accounted investee may be subject to market forces or other events over which the Corporation does not exert control. During the first half of 2017, the Corporation recognized a loss from its equity accounted investments of \$1.9 million, compared with earnings of \$1.1 million in the same period of the prior year.

Highlights of other period-over-period comparable results are described below and are further discussed under "Segmented Results of Operations".

- Goodman & Company, Investment Counsel Inc. grew its AUM to \$199.6 million at June 30, 2017, compared with \$173.8 million at December 31, 2016. Early in 2017, it successfully launched *CMP 2017 Resource Limited Partnership*, a tax-sheltered limited partnership that raised capital of \$31.3 million, and it further grew its private client assets by \$7.3 million. Pre-tax operating losses in this division decreased to \$2.5 million during the first half of 2017, compared with pre-tax operating losses of \$6.3 million in the first six months of 2016, reflecting, in part, cost rationalization as the business strategy of this entity is further streamlined.
- Following the sale of its retail division in April 2016, and the subsequent transfer of ownership of its capital markets division in December 2016, Dundee Securities Ltd., and its sister company, Dundee Securities Europe Limited, continue to operate and provide services for a limited number of retail clients, and they continue to invest in proprietary trading inventory. During the first six months of 2017, Dundee Securities Ltd. incurred a pre-tax loss of \$0.4 million, compared with a pre-tax operating loss of \$2.4 million incurred during the first half of the prior year.
- Higher realized prices for the sale of oil and natural gas improved results for Dundee Energy Limited, which saw pre-tax operating losses decrease to \$0.8 million in the first half of 2017, compared with pre-tax operating losses of \$14.2 million incurred during the same period of the prior year. Pre-tax losses during the first half of the prior year included an impairment loss of \$5.0 million associated with certain natural gas properties.
- In May 2017, United Hydrocarbon International Corp. (“UHIC”) announced that it had entered into an agreement with Delonex Energy Ltd. (“Delonex”), a Sub-Saharan oil and gas company focused on exploration, development and production, for the sale of United Hydrocarbon (Chad) Ltd., its wholly-owned subsidiary and the holder of UHIC’s production sharing contract (the “PSC”) in the Republic of Chad. (See “*Segmented Results of Operations – United Hydrocarbon International Corp.*”). UHIC will receive an upfront payment, subject to certain adjustments and escrow requirements, of US\$35.0 million in respect of the transaction, and it will receive further bonus payments of up to US\$50.0 million in the event of attaining first oil production. In addition, and subject to certain oil price thresholds, UHIC retains a royalty interest on all future production under the PSC. Subsequent to June 30, 2017, the Republic of Chad granted a three-year renewal under the PSC and it approved the transaction with Delonex. The transaction with Delonex has also been approved by the shareholders of UHIC. Delonex and UHIC are currently working to satisfy the balance of the conditions precedent for the transaction, and the transaction with Delonex is expected to close in the third quarter of 2017. UHIC incurred pre-tax operating losses of \$6.7 million in the first half of 2017, compared with pre-tax operating losses of \$7.5 million in the first two quarters of the prior year.
- Dundee Sustainable Technologies Inc. incurred a pre-tax operating loss of \$1.8 million during the six months ended June 30, 2017, compared with a pre-tax operating loss of \$2.6 million incurred in the first half of 2016. Dundee Sustainable Technologies Inc. continues to expand the provision of technical services in the mining industry to evaluate processing alternatives using its state of the art metallurgy plant and skilled technical team.
- Blue Goose Capital Corp. is reporting a pre-tax gain of \$1.8 million in the first half of 2017, compared with a pre-tax loss of \$11.2 million incurred during the first six months of the prior year. Included in operating results are revenues of \$46.9 million and a contribution margin of \$5.8 million generated from operations at Tender Choice Foods Inc., which was acquired by Blue Goose Capital Corp. in the fourth quarter of 2016. Pre-tax operating results in the current period include a marked-to-market gain of \$4.2 million on the revaluation of the earnout liability associated with the acquisition of Tender Choice Foods Inc.
- AgriMarine Holdings Inc. continues to rationalize its cost structure with the goal of achieving profitability for its West Coast Fishculture farming operation and sourcing third-party revenue for its technology division, while it continues to validate the scientific and commercial viability of its closed-containment tank technology. During the six months ended June 30, 2017, AgriMarine Holdings Inc. reported pre-tax operating losses of \$2.7 million, compared with pre-tax operating losses of \$4.1 million incurred in the same period of the prior year.
- During the first half of 2017, Dundee 360 Real Estate Corporation generated pre-tax earnings of \$0.2 million, compared with pre-tax losses of \$34.0 million incurred during the same period of 2016. Included in pre-tax earnings during the first half of 2017 is \$1.2 million of equity earnings generated from its 45% interest in the Edenarc 1800 project in Savoie, France, which saw the completion and delivery of a further phase of the project. Pre-tax losses incurred during the first half of the prior year included significant restructuring costs.

OPERATING SUBSIDIARIES AS AT JUNE 30, 2017

1. See note 34 “Segmented Information” to the June 2017 Interim Consolidated Financial Statements for a more detailed analysis of the carrying value of individual assets and liabilities attributed to each operating subsidiary.
2. See note 22 “Non-Controlling Interest” to the June 2017 Interim Consolidated Financial Statements for information regarding the carrying value of non-controlling interest in each subsidiary.
3. Includes “Dundee Securities Europe Limited”, a sister company to Dundee Securities Ltd.
4. From time to time, the Corporation will advance monies to an operating subsidiary to fund working capital requirements. Amounts advanced between the Corporation and its operating subsidiaries are eliminated in the June 2017 Interim Consolidated Financial Statements of the Corporation. Accordingly, for purposes of determining the estimated market value of operating subsidiaries that are publicly traded, the Corporation has included its proportionate interest in advances to each operating subsidiary that is due to the Corporation from non-controlling shareholders of each operating subsidiary. Amounts due under these arrangements to operating subsidiaries that are not publicly traded are already included in the determination of the net carrying value of these operating subsidiaries.
5. See “Dundee Corporation’s Capital Allocated by Industry Sector – Cautionary Note on Determination of Market Value of Investments”.

Segmented Results of Operations

The following discussion provides a more comprehensive analysis of the performance results of each of the Corporation’s operating subsidiaries, and their impact to the consolidated operating results of the Corporation. The following information is presented in a manner that corresponds to the Corporation’s reportable business segments as presented in note 34 to the June 2017 Interim Consolidated Financial Statements.

GOODMAN & COMPANY, INVESTMENT COUNSEL INC.

Goodman & Company, Investment Counsel Inc. (“GCIC”) is a registered portfolio manager and exempt market dealer across Canada, and an investment fund manager in the provinces of Ontario, Quebec and Newfoundland. GCIC is a wholly-owned subsidiary of Dundee Global Investment Management Inc. (“DGIM”) which, in turn, is a wholly-owned subsidiary of Dundee Corporation. Information about GCIC may be accessed at www.goodmanandcompany.com.

During 2016, the Corporation restated its segmented information, resulting in the reclassification of costs incurred directly by DGIM to the segment designated as “Goodman & Company, Investment Counsel Inc.”. Previously, these costs were considered part of the “Corporate and other portfolio holdings” segment. The impact of this restatement includes general and administrative costs of \$4.8 million incurred by DGIM during the first six months of 2016.

GCIC and DGIM are the entities through which the Corporation intends to build out its Investment Counsel/Portfolio Management (“ICPM”) platform. The Corporation believes that targeting and servicing the unique needs of the high-net worth and ultra-high-net worth markets presents a significant opportunity. These markets consist of successful business owners, entrepreneurs, corporate executives and other individuals with sophisticated wealth management and financial product and service needs. It is estimated that over the next decade, high-net worth and ultra-high-net worth individuals will be involved in the creation and transfer of a significant amount of wealth in Canada, which some third parties estimate could total as much as

four trillion dollars. By providing a seamless, integrated suite of client-centric wealth services, the Corporation believes that it can successfully differentiate itself from other competitors. The Corporation's current objective is to build an ICPM platform that is national in scope, with a network of offices servicing major urban centres in Canada, both through acquisition of established businesses and through organic client acquisition. This is a strategically important platform for the Corporation as the insights gathered from high-net worth and ultra-high-net worth clients will enable the creation of highly customized and unique alternative products.

The Corporation intends to provide a full suite of complementary wealth and lifestyle services to its clients through a network of preferred suppliers. These complementary services include business succession planning, group pension and health benefits programs, property and casualty insurance products, real estate services, estate and tax planning and other services designed to meet the sophisticated and wide ranging needs of its clients. To ensure quality and consistency in the delivery of these services, the Corporation will actively manage the standards and service delivery of its network of business partners.

Over time, the Corporation believes that the successful execution of its wealth management strategy will generate more regular and predictable cash flows. It is anticipated that future cash flows in the wealth management business will come from a combination of both asset management and performance based fees.

Assets Under Management at June 30, 2017

<i>For the period ended June 30, 2017</i>	Three Months	Six Months
AUM at beginning of the period	\$ 200,903	\$ 173,756
Transactions during the period ended June 30, 2017		
Additions	5,088	38,861
Redemptions	(5,381)	(19,491)
Change in market values	(5,266)	(784)
Change in private client assets	4,271	7,273
Net change in managed assets	(1,288)	25,859
AUM at end of the period	\$ 199,615	\$ 199,615
AUM Breakdown		
Private clients	\$	99,579
Tax sheltered investment products		45,660
Mutual funds		20,761
Alternative investment products		33,615
	\$	199,615

AUM designated as "Private clients" AUM include \$22.4 million of assets invested in the Corporation's alternative investment products. In the above table, these same assets are also designated as "Alternative investment products".

During the six months ended June 30, 2017, GCIC's AUM under managed account arrangements for private clients grew by approximately \$7.3 million, adding to the \$31.3 million raised during the first quarter of 2017 following the successful launch of its most recent tax-sheltered limited partnership, *CMP 2017 Resource Limited Partnership*. In addition, GCIC's own series of investment products geared towards its high-net worth base, *Goodman & Co. Partners Strategy* and *Goodman & Co. Core Equity Strategy*, collectively raised a further \$7.5 million.

Redemptions during the first half of 2017 were \$19.5 million, the majority of which relate to redemptions in *Dundee Global Resource Class* following the rollover of the Corporation's 2015 tax-sheltered investment vehicle, *CMP 2015 Resource Limited Partnership* to *Dundee Global Resource Class*, a mutual fund. At the sole discretion of investors, certain redemptions from *Dundee Global Resource Class* were undertaken in order to generate proceeds for reinvestment into *CMP 2017 Resource Limited Partnership*.

Offset by market depreciation of \$0.8 million since January 1, 2017, AUM increased by a net amount of \$25.9 million to \$199.6 million at June 30, 2017, compared with AUM of \$173.8 million at December 31, 2016. Strong appreciation in value witnessed in the first quarter of 2017 reversed in the second quarter, owing to the relative underperformance of mining stocks. Further

contributing to the decline were the premiums paid to acquire flow-through shares of resource stocks held by *CMP 2017 Resource Limited Partnership*.

RESULTS OF OPERATIONS

As illustrated in the following table, GCIC incurred a net loss before income taxes attributable to owners of Dundee Corporation of \$2.5 million in the first six months of 2017, compared with a pre-tax loss of \$6.3 million incurred in the same period of the prior year.

<i>For the six months ended June 30,</i>	2017	2016
Revenues		
Management and performance fees	\$ 1,127	\$ 1,263
Financial services	2	1
Interest, dividends and other	178	165
	1,307	1,429
Other items in net loss before tax		
General and administrative	(3,808)	(7,690)
Depreciation	(4)	(2)
Net gain from investments	54	-
Interest expense	(4)	-
Net loss before taxes, Goodman & Company, Investment Counsel Inc.	\$ (2,455)	\$ (6,263)
Net loss before taxes, Goodman & Company, Investment Counsel Inc., attributable to:		
Owners of Dundee Corporation	\$ (2,455)	\$ (6,263)
Non-controlling interest	-	-
Net loss before taxes, Goodman & Company, Investment Counsel Inc.	\$ (2,455)	\$ (6,263)

Management fee revenues were \$1.1 million in the first six months of 2017, a decline from management fee revenues of \$1.3 million earned in the same period of the prior year, which included \$55,000 of performance fee revenue.

GCIC's management fee revenue is calculated and paid monthly, based on the fair value of AUM as determined on the last business day of each month. The average AUM for the six months ended June 30, 2017 was \$198.5 million, compared with average AUM of \$158.1 million during the same period of the prior year. Despite higher average AUM, management fee revenues were impacted by the management fee rate charged on AUM. During the first six months of 2017, the average management fee rate on AUM was 1.14%, compared with an average management fee rate of 1.53% earned in the same period of the prior year. The decrease in the average management fee rate reflects the mix of assets managed, with private client assets generally earning a lower management fee rate than tax sheltered investment products, mutual funds and closed-end investment products.

General and administrative expenses were \$3.8 million in the first six months of 2017, compared with \$7.7 million in the same period of the prior year and reflect, in part, cost rationalization as GCIC further streamlines its business strategy.

DUNDEE SECURITIES LTD.

Dundee Securities Ltd., a wholly-owned subsidiary of Dundee Corporation, is registered as an investment dealer in each of the jurisdictions of Canada and as a derivatives dealer in Quebec and as such, it is subject to the oversight of the provincial securities commissions and the Investment Industry Regulatory Organization of Canada ("IIROC"). Business activities are carried out directly, and through Dundee Securities Europe Limited, a company authorized by the Financial Conduct Authority in the United Kingdom for the purposes of security brokering and asset management (collectively "Dundee Securities"). Additional information about the operations of Dundee Securities and its various business divisions may be accessed at either www.dundeegoodman.com or www.dundeesecurities.com.

Divestitures

Dundee Securities' business activities had historically been conducted through two operating divisions; (i) the capital markets division, which had been branded under the name "Dundee Capital Markets", and (ii) the retail division, which had been branded under the name "Dundee Goodman Private Wealth".

In April 2016, Dundee Securities completed the sale of substantially all of the assets of Dundee Goodman Private Wealth to Echelon Wealth Partners Inc. (“Echelon”). The transaction with Echelon resulted in the transfer of approximately \$3.5 billion of investible client assets. In addition, and in order to accommodate the integration process with Echelon, Dundee Goodman Private Wealth also transferred a significant part of its underlying operating infrastructure and staff resources associated with this division. Dundee Securities continues to operate a business for a limited number of retail clients with a retail advisor team, and continues to invest in a proprietary trading inventory. In connection with the completion of the Echelon transaction, and in order to facilitate the transition of client accounts, Dundee Securities has agreed to provide Echelon with certain back-office activities on a cost-recovery basis. The provision of these services has been further extended into the third quarter of 2017.

In December 2016, Dundee Securities completed a transaction that resulted in the sale of the assets and liabilities related to its capital markets division to Eight Capital, a partnership formed by a consortium of individuals that were previously key employees of Dundee Securities’ capital markets division. The Corporation provided \$17.5 million of capital, in the form of a subordinated loan, to match the level of capital provided by key employees as equity holders. The subordinated loan bears an annual interest rate of 10%. During the six months ended June 30, 2017, \$2.5 million of the subordinated loan was repaid.

In connection with the sale of the capital markets division, during the second quarter of 2017, Dundee Securities received the necessary regulatory approvals for the further sale of its wholly-owned subsidiary, Dundee Securities Inc., to Eight Capital. Dundee Securities Inc. is a registered broker-dealer with the United States Securities and Exchange Commission in select states and is also a member of the Financial Industry Regulatory Authority. The sale transaction was completed on May 26, 2017. Dundee Securities received cash of approximately \$1.3 million on the transaction.

Notwithstanding the divestitures described above, Dundee Securities continues to be a member of IIROC and as such, it is subject to minimum regulatory capital requirements to operate its residual business which currently includes a small residual retail business consisting of two key advisors and their incidental staff, a portfolio of marketable securities, and its business conducted through Dundee Securities Europe Limited.

RESULTS OF OPERATIONS

<i>For the six months ended June 30,</i>	2017	2016
Revenues		
Management fees	\$ -	\$ 3,464
Financial services		
Investment banking	6,287	11,239
Commissions	1,748	16,232

Foreign exchange gain (loss)	124	(195)
Net loss attributable to Dundee Securities	\$ (430)	\$ (2,365)
Net loss before taxes, Dundee Securities attributable to:		
Owners of Dundee Corporation	\$ (430)	\$ (2,365)
Non-controlling interest	-	-
Net loss before taxes, Dundee Securities	\$ (430)	\$ (2,365)

Revenues

Consistent with the sale of essentially all of its retail and capital market businesses, during the first six months of 2017, Dundee Securities’ revenues decreased to \$7.2 million, compared with revenues of \$33.5 million generated in the same period of the prior year. Revenues in the first six months of 2017 include residual new issue and advisory mandates of \$6.3 million that had been

initiated prior to the sale of Dundee Securities' capital markets division. These revenues are not subject to any variable compensation amounts.

As previously indicated, Dundee Securities continues to operate a small business for a limited number of retail clients with a retail advisor team, and it continues to invest in a proprietary trading inventory. During the first six months of 2017, Dundee Securities generated commission revenues of \$1.7 million, and it incurred principal trading losses of \$2.0 million related to continued capital markets positions, which Dundee Securities expects to monetize in the short term.

Variable Compensation Expense

Variable compensation expense incurred during the first six months of 2017 was \$1.3 million, and represented approximately 79% of related financial services revenue, resulting in contribution margins of 21%. Lower contribution margins in the current period reflect the timing of compensation amounts paid in advance of associated revenues that have not yet been recognized in income. The Corporation anticipates that, over time, its contribution margins will average approximately 55%.

General and Administrative Expenses

Dundee Securities incurred general and administrative expenses of \$5.7 million in the first six months of 2017, compared with \$20.5 million in the same period of the prior year, reflecting the reduction in business activities, offset by certain termination costs including severance and other compensation related expenses, as well as write-downs related to redundant leaseholds.

As part of its sale to Echelon, Dundee Securities was subject to contingent proceeds that were dependent on the retention of AUA by Echelon over a 12-month period from completion of the sale. In April 2017, Dundee Securities received a payment of \$3.0 million in settlement of the contingent proceeds. As required by accounting standards, the amount of the contingent proceeds prior to receipt were revalued to their fair value. Accordingly, included in general and administrative expenses is a recovery of \$0.3 million, representing the change in value of the contingent proceeds since December 31, 2016.

Assets and Liabilities at June 30, 2017

The following table illustrates the residual net assets of Dundee Securities at June 30, 2017 and following its divestiture of each of the retail division, the capital markets division and Dundee Securities Inc.

<i>As at</i>	June 30, 2017		December 31, 2016	
Cash	\$	16,344	\$	55,387
Accounts receivable		10,200		12,541
Client accounts receivable		20,579		5,162
Brokerage securities owned		10,845		11,843
Income taxes receivable		281		484
Capital and other assets		3,479		4,134
Accounts payable and accrued liabilities		(5,782)		(16,530)
Client deposits and related liabilities		(21,434)		(26,673)
Brokerage securities sold short		(77)		(1)
	\$	34,435	\$	46,347

The net assets of Dundee Securities are after the distribution of \$72.5 million of cash to the Corporation, including \$12.0 million of cash distributed during the current year. As a regulated entity and member of IIROC, the ability of Dundee Securities to transfer cash resources may be limited by its requirement to comply with regulatory capital requirements. During the fourth quarter of 2016, Dundee Securities changed its introducing/carrying agreement with Fidelity Clearing Canada from a Type 4 to a Type 2 Agreement. Dundee Securities will continue to evaluate its required capital levels, with the intention of realizing on some of its existing assets to enable the further release of capital to the Corporation.

Call Loan Facilities

At June 30, 2017, Dundee Securities had established an uncommitted call loan facility for up to \$5.0 million (December 31, 2016 – \$50.0 million). There were no amounts drawn pursuant to this facility at June 30, 2017.

DUNDEE ENERGY LIMITED

Dundee Energy Limited (“Dundee Energy”) is a small-cap Canadian-based company focused on creating long-term value through the development and acquisition of high-impact energy projects. Its principal operating assets are located in and around Lake Erie in southern Ontario, Canada and consist of an approximate 93% working interest in 35,000 gross acres of onshore oil and gas properties and an approximate 98% working interest in 268,000 gross acres of offshore gas properties. These assets currently produce 2,171 boe/d, of which approximately 80% is natural gas production. At June 30, 2017, the Corporation held a 58% interest in Dundee Energy. Common shares of Dundee Energy are traded on the TSX under the symbol “DEN”. Additional information about Dundee Energy may be accessed at www.dundee-energy.com.

Recent Developments Concerning Demand Revolving Credit Facility

Dundee Energy’s southern Ontario operations are conducted through a wholly-owned subsidiary, Dundee Energy Limited Partnership (“DELP”). The credit facility is subject to certain covenants, including maintenance of minimum levels of working capital. At June 30, 2017, DELP was in compliance with all such covenants. As discussed in further detail under “*Results of Operations*”, DELP continues to generate positive cash flows from its assets in southern Ontario, and it continues to remain in compliance with the financial covenant requirements of the credit agreement. However, low commodity prices have, in the view of DELP’s lender, eroded the value of DELP’s assets in southern Ontario, and therefore eroded the lender’s underlying secured interest in such assets.

As a consequence, on January 31, 2017, DELP and Dundee Energy entered into a forbearance agreement with the lender to DELP pursuant to which, and provided that certain conditions were met, DELP’s lender had agreed to forbear from exercising its enforcement rights and remedies under the terms of the credit facility until the earlier of May 15, 2017; the occurrence of an event of default under the terms of the credit facility; or the occurrence of a default or breach of representation under the forbearance agreement.

The forbearance agreement provided a definitive timeline within which Dundee Energy was required to complete this process. Dundee Energy engaged independent financial advisors to advise them in connection with this comprehensive review and analysis. Under the terms of the forbearance agreement, DELP had committed to enter into a binding agreement under an arrangement, which binding agreement was to be satisfactory to its lender, by April 7, 2017. In any case, the lender at all times retained its right to demand repayment in full, including during the forbearance period.

The lender did not provide its consent to any of the proposals made by Dundee Energy and the forbearance agreement expired on May 15 2017, without resolution. On July 21, 2017, DELP and Dundee Energy received notice from their lender, demanding repayment of amounts borrowed pursuant to the credit facility by July 31, 2017. While Dundee Energy was unable to meet the demand made by the lender, the lender has not immediately moved to enforce its rights and remedies under the terms of the credit facility, and it remains in cooperative discussion with Dundee Energy as to options. It is anticipated that management of Dundee Energy will continue to have responsibility for day-to-day operations of the business and that the business will continue to operate as a going concern, while a further process is conducted, under the direction of the lender, to maximize the value of the business.

Dundee Energy has assigned a limited recourse guarantee of its units in DELP as security pursuant to the credit facility. The lending arrangements provided to DELP are otherwise non-recourse to the Corporation.

The Corporation’s June 2017 Interim Consolidated Financial Statements have consolidated the operations of Dundee Energy using accounting principles applicable to a going concern. The going concern basis assumes that Dundee Energy will continue its operations for the foreseeable future, and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business. The material uncertainty caused by the events described above casts significant doubt upon Dundee Energy’s ability to continue as a going concern and the ultimate appropriateness of using accounting principles applicable to a going concern. The June 2017 Interim Consolidated Financial Statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should Dundee Energy be unable to continue as a going concern. If Dundee Energy is not able to continue as a going concern, the Corporation may be required to reassess the carrying value of its investment in Dundee Energy, including the appropriateness of recognizing the benefit of income tax loss carry forwards in that

entity, in light of circumstances that could result in the realization of Dundee Energy's assets and the discharge of its liabilities in other than the normal course of business and at amounts different from those reflected in these unaudited condensed interim consolidated financial statements. These differences could be material and could result in a material loss to the Corporation.

RESULTS OF OPERATIONS

During the first half of 2017, Dundee Energy incurred a net loss of \$0.5 million attributable to the owners of Dundee Corporation. This compares to a net loss attributable to owners of Dundee Corporation of \$9.6 million incurred during the same period of the prior year, which included an impairment loss of \$5.0 million against certain natural gas properties, and a loss of \$1.5 million realized on the disposal of certain equipment.

<i>For the six months ended June 30,</i>	2017	2016
Revenues		
Oil and gas sales	\$ 11,805	\$ 8,928
Interest and dividends	114	(1,095)
	11,919	7,833
Cost of sales		
Production expenditures	(5,345)	(6,654)
Other items in net loss before taxes		
Depreciation and depletion	(4,147)	(9,539)
General and administrative	(1,663)	(2,692)
Gain (loss) on derivative financial instruments	1,140	(874)
Interest expense	(2,552)	(2,184)
Foreign exchange loss	(157)	(108)
Net loss before taxes, Dundee Energy Limited	\$ (805)	\$ (14,218)
Net loss before taxes, Dundee Energy Limited attributable to:		
Owners of Dundee Corporation	\$ (538)	\$ (9,579)
Non-controlling interest	(267)	(4,639)
Net loss before taxes, Dundee Energy Limited	\$ (805)	\$ (14,218)

Sales and Production Volumes

During the first half of 2017, sales of oil and natural gas, net of royalty interests, were \$11.8 million, an increase of \$2.9 million when compared with net sales of \$8.9 million earned during the same period of the prior year. Higher realized prices for underlying commodities increased aggregate net sales by \$3.4 million, partially offset by lower production volumes, the effect of which was to reduce net sales by \$0.5 million.

In the first half of 2017, Dundee Energy realized an average price on sales of natural gas of \$4.56/Mcf, approximately 47% higher than the realized average sales price of \$3.11/Mcf earned in the same period of the prior year. While the increase corresponds to increases in commodity markets, Dundee Energy's realized prices for natural gas continue to benefit from its proximity to the Dawn Hub, as it is a provider of natural gas supply to the greater Toronto market area.

Dundee Energy realized an average price on sales of crude oil of \$65.01/bbl, a 33% increase from the average price of \$48.70/bbl realized during the same period of the prior year and modestly higher than a 26% increase in the US dollar-denominated West Texas Intermediate price for this commodity and a 29% increase in the Canadian dollar-denominated price of Canadian light sweet crude oil.

<i>Average daily volume during the six months ended June 30,</i>	2017	2016
Natural gas (Mcf/d)	10,274	10,835
Oil (bbls/d)	458	488
Liquids (bbls/d)	1	4
Total (boe/d)	2,171	2,298

Average daily natural gas production volumes decreased to an average of 2,171 boe/d, compared with an average of 2,298 boe/d produced in the same period of 2016. Reductions in production volume reflect the expected natural depletion of Dundee Energy's resources. Due primarily to financial constraints, Dundee Energy has limited its capital works and development initiatives, which has temporarily curtailed the potential for further exploitation of its producing properties.

Field Level Cash Flows and Field Netbacks

For the six months ended June 30,			2017	2016		
	Natural Gas	Oil and Liquids	Total	Natural Gas	Oil and Liquids	Total
Total sales	\$ 8,481	\$ 5,394	\$ 13,875	\$ 6,138	\$ 4,336	\$ 10,474
Royalties	(1,262)	(808)	(2,070)	(905)	(641)	(1,546)
Production expenditures	(3,366)	(1,979)	(5,345)	(4,213)	(2,441)	(6,654)
	3,853	2,607	6,460	1,020	1,254	2,274
Realized (loss) gain on derivative financial instruments	(663)	-	(663)	548	-	548
Field level cash flows	\$ 3,190	\$ 2,607	\$ 5,797	\$ 1,568	\$ 1,254	\$ 2,822

For the six months ended June 30,			2017	2016		
	Natural Gas	Oil and Liquids	Total	Natural Gas	Oil and Liquids	Total
	\$/Mcf	\$/bbl	\$/boe	\$/Mcf	\$/bbl	\$/boe
Total sales	\$ 4.56	\$ 64.91	\$ 35.30	\$ 3.11	\$ 48.47	\$ 25.05
Royalties	(0.68)	(9.72)	(5.27)	(0.46)	(7.16)	(3.70)
Production expenditures	(1.81)	(23.82)	(13.60)	(2.14)	(27.29)	(15.91)
	2.07	31.37	16.43	0.51	14.02	5.44
Realized (loss) gain on derivative financial instruments	(0.36)	-	(1.69)	0.28	-	1.31
Field netbacks	\$ 1.71	\$ 31.37	\$ 14.74	\$ 0.79	\$ 14.02	\$ 6.75

At June 30, 2017, Dundee Energy had a single derivative financial instrument for 5,000 million British thermal units ("mmbtu") per day at US\$2.70/mmbtu for the period from July 1, 2017 to January 1, 2018, and with a negative value of \$0.5 million.

Contract	Volume	Pricing Point	Strike Price (\$/unit)	Remaining Term	Fair Value as at June 30, 2017
Fixed Price Swap	5,000 mmbtu/day	NYMEX	US\$2.70	Jul 01/17 to Jan 01/18	\$ (472)

CHANGES IN FINANCIAL CONDITION

Capital Expenditures

In response to low commodity prices for both crude oil and natural gas, and as a result of the impact these lower prices have had on Dundee Energy's ability to borrow pursuant to its existing lending arrangements, Dundee Energy continues to limit its 2017 capital work plan. During the first half of 2017, Dundee Energy incurred capital expenditures of \$0.4 million, all of which related to maintaining its existing and essential land portfolio.

Demand Revolving Credit Facility

DELP's existing credit facility with a Canadian chartered bank is currently structured as a revolving demand loan, with a tiered interest rate schedule that varies based on DELP's net debt to cash flow ratio, as defined in the credit facility. Based on DELP's current ratios, draws on the credit facility bear interest at the bank's prime lending rate plus 3.5%. In addition, DELP is subject to a standby fee of 0.55% on unused amounts under the credit facility. At June 30, 2017, DELP had drawn \$56.1 million against the credit facility.

Dundee Energy's access to cash and to its existing credit facility are sufficient to meet its immediate obligations, unless the lender to DELP exercises its rights to demand and restrict DELP's access to the revolving credit facility. Even if such demand was not enforced, Dundee Energy's current cash availability will not be sufficient for Dundee Energy to sustain its current operations. There can be no assurance that Dundee Energy will be able to meet the requirements of its lenders, or that Dundee Energy will have access to alternative financial arrangements.

UNITED HYDROCARBON INTERNATIONAL CORP.

UHIC is a privately-held Canadian company engaged in the exploration, development and production of oil and gas in the Republic of Chad. On June 6, 2012, UHIC was awarded an exploration license pursuant to a production sharing contract with the government of the Republic of Chad that had been signed in May 2012, through its wholly-owned subsidiary, United Hydrocarbon Chad Ltd. The terms of the PSC provided UHIC with the exclusive right to explore and develop oil and gas reserves in four distinct blocks: the DOC Block and the DOD Block (together the “Doba Basin”); Block H; and the Largeau Block.

Under the terms of the PSC, UHIC’s subsidiary was awarded an exploration license with an initial term of five years expiring in June 2017, with a renewal right for a period of an additional three years. The three-year renewal right was exercised in the second quarter of 2017, and was recognized by the Government of Chad effective June 6, 2017. The renewal period, which will expire on June 6, 2020, required the relinquishment of 50% of the contract area, which was substantially all of the Largeau Block, and it requires a minimum work commitment of US\$5.0 million. As part of entering into the renewal period, UHIC arranged for a US\$2.5 million guarantee to support the work commitments. Should there be a commercial discovery or discoveries, UHIC’s subsidiary may apply for exploitation license(s) under the terms of the PSC. An exploitation license would have an initial term of 25 years, and may be renewed for an additional 10 years. A fee of US\$2.0 million would be payable to the government of the Republic of Chad upon the approval and issuance of each exploitation license.

Recent Developments

UHIC has been committed to finding ways to add value for its shareholders in a challenging environment for junior international oil and gas companies. In that regard, during 2016, UHIC engaged FirstEnergy LLP to seek financial or industry partners and, in order to properly convey the commercial opportunity, they established an extensive data room to service the informational needs of possible joint venture partners and investors. Non-binding bids were received in October 2016 and a majority-independent special committee of the board of directors of UHIC subsequently undertook an assessment of the bids received during the remainder of 2016 and early 2017. In late January 2017, on recommendation of the special committee, UHIC entered into an exclusivity period with its preferred partner, Delonex, which eventually culminated in an agreement announced on May 10, 2017. Delonex is led by a management team with a proven track record in discovering, developing and operating onshore basins, and building and operating pipeline infrastructure. Currently active in Ethiopia, Kenya and Mozambique, the proposed transaction is part of Delonex’s strategy for expanding its portfolio in central and west Africa. Delonex is backed by a group of global investors with extensive oil and gas experience, led by global private equity firm Warburg Pincus and the International Finance Corporation (a part of the World Bank group).

In consideration of acquiring UHIC’s interest in United Hydrocarbon Chad Ltd., Delonex will make an upfront payment to UHIC of US\$35 million upon successful closing of the transaction, of which US\$9.5 million is expected to be held in escrow for up to three years. Additional payments of US\$20 million will be made for first oil on the Doba Basin, and a further US\$30 million for first oil on Block H. UHIC will maintain a significant economic interest in both properties through a 10% royalty on all of Delonex’s share of Doba production and a 5% royalty on all of Delonex’s share of Block H production, payable as long as the average price of Brent crude oil is greater than US\$45.00/bbl in any calendar quarter.

As part of the transaction, Delonex has committed to spend US\$65 million within a two year period from closing, for a comprehensive exploration program for the assets in Chad, and it has committed, subject to commerciality being achieved, US\$35 million for development in the Doba Basin within a three year period from closing.

In July 2017, regulatory approvals for the transaction were received from the Republic of Chad, and the transaction received approval of UHIC’s shareholders. The transaction remains subject to certain other conditions being satisfied or waived, including approvals from the Republic of Chad for a further two-year extension to the current exploration period. There can be no assurance that the conditions will be removed and approvals will be obtained. The transaction is expected to close in the third quarter of 2017, with an outside date of December 31, 2017.

As at June 30, 2017, the Corporation’s carrying value of its 85% investment in UHIC was \$189.0 million. Additional information regarding UHIC may be accessed at www.unitedhydrocarbon.com.

CHANGES IN FINANCIAL CONDITION

Cash Resources

UHIC does not currently generate cash flows from its business activities, and it currently relies on its ability to raise funds through capital markets or through debt from the Corporation. Existing cash resources are expected to cover UHIC's cash requirements through to mid-September 2017. Should UHIC not be successful in finalizing and closing an arrangement with Delonex, UHIC will require additional funds to continue its exploration program and if successful, to develop and produce commercially viable discoveries. UHIC management believes that alternative financing, joint venture or farm out options exist should negotiations with Delonex not culminate in a transaction, but there can be no assurance that UHIC will be successful in raising the necessary funds to support future operations.

The Resource Properties

Since establishing the PSC, UHIC's primary exploration and evaluation focus has been in the Doba Basin located in southern Chad, including both the DOC Block and the DOD Block. There were two existing discoveries on these blocks that were made by prior block operators, the Belanga and the M'Biku, both of which now form part of the PSC. Remaining discoveries were made by UHIC during its 2014 drilling program in the Doba Basin which included the drilling of 14 wells. These drilling activities resulted in six successful oil appraisal wells at Belanga and two new oil discoveries at Lara 1 and Lara East 1, both within 10 kilometres of Belanga. All of these discoveries are situated in close proximity to the Mondoulli oil field currently being produced and operated by Exxon.

Block H is located in north-central Chad on the border with Niger, directly adjacent to the Agadem block currently held by China National Petroleum Corp. and Savannah Petroleum PLC. There are two known oil discoveries within Block H, the Kumia and Kanem. UHIC also holds an extensive seismic database that has been used by previous operators to identify more than 200 exploration leads on this block. UHIC has completed an independent interpretation of the seismic data and continues to update and further validate the exploration potential of Block H. Future exploration activities are expected to include additional scientific work related to lead and prospect identification and modern 3D seismic acquisition and interpretation.

In January 2015, the governments of Chad and Niger announced the formation of the Niger Oil Transportation Corporation (NOTCO) which has proposed a pipeline route from Niger through Block H, enroute to joining the export pipeline in the Doba Basin, an arrangement which could prove profitable in the future.

UHIC had been impacted by downward commodity pricing pressures, which are currently being faced by many international oil and gas companies. In response, UHIC temporarily suspended drilling operations in early 2015, releasing the drilling rig, and issuing contract suspension and termination notices to most of its service providers. On an ongoing basis, and until completion of its agreement with Delonex, the Corporation anticipates that UHIC may require approximately \$1.0 million per month to ensure the maintenance of its resource properties, meet its obligations under the PSC and develop its technical data.

RESULTS OF OPERATIONS

As a result of continued cost savings initiatives to conserve cash throughout 2016, UHIC's general and administrative costs were \$3.2 million during the second quarter of 2017, consistent with \$3.2 million incurred in the same period of 2016. General and administrative costs were reduced to \$6.2 million during the first six months of 2017, compared with \$6.6 million in the same period of 2016.

	For the three months ended		For the six months ended	
	June 30, 2017	June 30, 2016	June 30, 2017	June 30, 2016

DUNDEE SUSTAINABLE TECHNOLOGIES INC.

Dundee Sustainable Technologies Inc. (“Dundee Technologies”) is engaged in the development and commercialization of environmentally-friendly technologies for the treatment of complex materials in the mining industry. Through the development of patented, proprietary processes, Dundee Technologies extracts precious and base metals from ores, concentrates and tailings, while stabilizing contaminants such as arsenic, which could not otherwise be extracted or stabilized with conventional processes because of metallurgical issues, cost or environmental considerations.

Gold Chlorination

In early 2017, Dundee Technologies completed the technical report for the processing of 40 tonnes of complex gold concentrate containing an estimated 110 g/tonne of gold, copper grades of 9.0% and mercury content in excess of 700 g/tonne. A gold extraction yield of 97.3% was achieved at the outlet of the chlorination reactor, with full environmental controls over the sulfur and mercury content, with mercury effectively removed during processing to a level of 99%. Since completing the technical report, Dundee Technologies has continued to work towards an implementation of its gold technology for deployment in various markets around the world.

At June 30, 2017, Dundee Technologies had expended \$19.7 million towards the construction and operation of its demonstration plant.

Arsenic Stabilization Technology

In addition to its chlorination process, Dundee Technologies has constructed a pilot plant to demonstrate its arsenic stabilization process, which is designed for the sequestration of this contaminant into a stable glass form. This process is an attractive technique to permanently segregate arsenic, and presents opportunities to process materials considered too toxic to be exploited or stabilized using conventional mining methods. Dundee Technologies has completed the engineering of an onsite industrial scale demonstration plant to be delivered to a customer, and construction is expected to commence in the third quarter of 2017, pending final negotiation of certain contractual terms. This plant will be financed by the customer and is expected to provide proof of the arsenic technology in an industrial environment.

Arsenopyrite Process

In February 2017, Dundee Technologies entered into a contract with a Canadian exploration company to conduct a pilot scale program on samples from their gold project located in the Abitibi region of Quebec. Under the terms of this contract, Dundee Technologies received a five tonne sample of representative material. The objective of the program is to confirm that complex refractory gold concentrates can undergo a pre-treatment to create an arsenic depleted mineral concentrate, and subsequently undergo gold and base metals extraction using Dundee Technologies’ chlorination process, or be sold on the concentrate market. This test program will be overseen by an independent consulting firm, with the view of providing the necessary data to the Canadian exploration company to update its preliminary economic assessment. Dundee Technologies expects that it will complete this contract early in the third quarter of 2017.

Inherent in the commercialization of Dundee Technologies’ processes is significant technology development risk, each of which may require significant additional development, testing and investment prior to final commercialization. There can be no assurance that such technologies will be successfully developed, or that output from any use of Dundee Technologies’ processes could be produced at a commercial level at reasonable costs, or that such processes could be successfully marketed.

RESULTS OF OPERATIONS

During the six months ended June 30, 2017, Dundee Technologies incurred a net loss of \$1.0 million attributable to owners of Dundee Corporation, compared with a net loss attributable to owners of Dundee Corporation of \$1.6 million in the same period of the prior year.

<i>For the six months ended June 30,</i>	2017	2016
Revenues		
Technical services	\$ 873	\$ 554
	873	554
Cost of sales	(831)	(294)
Other items in net loss before taxes		
Depreciation and depletion	-	(1)

Interest expense	(220)	(136)
Foreign exchange (loss) gain	(5)	14
Net loss before taxes, Dundee Sustainable Technologies Inc.	\$ (1,767)	\$ (2,637)
Net loss before taxes, Dundee Sustainable Technologies Inc. attributable to:		
Owners of Dundee Corporation	\$ (985)	\$ (1,566)
Non-controlling interest	(782)	(1,071)
Net loss before taxes, Dundee Sustainable Technologies Inc.	\$ (1,767)	\$ (2,637)

In the second quarter of 2017, Dundee Technologies concentrated on the development of its technical services business. It has signed more than 10 contracts worth \$2.0 million, and is working in markets such as lithium, cobalt, nickel, magnesium, graphite and gold. These contracts allow Dundee Technologies to offset operating expenses as it develops markets for its primary technologies.

During the six months ended June 30, 2017, Dundee Sustainable earned revenues of \$0.9 million from the provision of technical services to customers in the mining industry to evaluate processing alternatives using its technologies.

General and administrative expenses include research and development expenses in respect of Dundee Technologies' chlorination and arsenic stabilization processes. During the six month period ended June 30, 2017, Dundee Technologies incurred \$0.8 million (six months ended June 30, 2016 – \$2.2 million) in research and development costs for these two processes. In the six month period of the prior year, these costs relate partially to the operation of the demonstration chlorination plant.

CHANGES IN FINANCIAL POSITION

At June 30, 2017, Dundee Technologies had cash of \$0.5 million, and it had obligations, other than obligations due to Dundee Corporation, of \$5.2 million. Dundee Technologies continues to pursue financing alternatives to fund its operations. Although there is no assurance that these efforts will be successful, Dundee Technologies believes that if its ongoing research and development activities provide favourable results, it will be able to secure the necessary financing through the issuance of debt or equity.

At June 30, 2017, the Corporation held 178.1 million subordinate voting shares and 50 million multiple voting shares of Dundee Technologies, representing a 66% equity interest and an 85% voting interest. Additional information regarding Dundee Technologies may be accessed at www.dundeetechnologies.com.

EUROGAS INTERNATIONAL INC.

Eurogas International Inc. ("Eurogas") (www.eurogasinternational.com), is a publicly traded (CSE:EI) oil and natural gas exploration company. Eurogas holds an approximate 5.625% royalty-like working interest in the Sfax offshore permit (the "Sfax Permit"), located in the shallow Mediterranean waters in the Gulf of Gabes, offshore Tunisia and southeast of the city of Sfax. The operator of the Sfax Permit is DNO Tunisia AS ("DNO"), a subsidiary of DNO International ASA, an Oslo-listed company with significant expertise in the oil and gas industry across the Middle East and Africa.

In August 2015, DNO received the necessary approval from the Tunisian authorities for a two-year extension of the first renewal period related to the Sfax Permit, extending the first renewal period and the associated exploration well drilling obligation to December 8, 2017. On July 21, 2017, the Tunisian authorities approved a further one-year extension of the Sfax Permit to December 8, 2018. The extension is subject to certain conditions, including the replacement of a seismic commitment with the deepening of the well drilling obligation to the Reineche formation.

In November 2015, DNO announced plans for 3-dimensional activities at the Sfax Permit in preparation for meeting its drilling obligations. Budgets for the work plan have been submitted to the Tunisian authorities for their approval.

RESULTS OF OPERATIONS

During the first six months of 2017, Eurogas incurred a loss before income taxes attributable to shareholders of Dundee Corporation of \$0.2 million, consistent with a loss of \$0.2 million attributable to shareholders of Dundee Corporation incurred during the first half of the prior year.

CHANGES IN FINANCIAL CONDITION

Dundee Corporation has provided Eurogas with a \$5.0 million revolving term credit facility, pursuant to which Eurogas has agreed to pay interest at a rate per annum equal to the prime lending rate for loans as set out by a Canadian Schedule I Chartered Bank, plus 1.25%. Dundee Corporation may, at its discretion and subject to the necessary regulatory approvals, require Eurogas to convert all amounts outstanding, including any interest outstanding, into common shares of Eurogas, subject to a minimum conversion price of \$0.05 per common share of Eurogas. At June 30, 2017, Eurogas had drawn \$5.0 million against this facility, including a net amount of \$132,000 advanced by Dundee Corporation during the first half of 2017. Although Eurogas has exceeded amounts available pursuant to these arrangements, Dundee Corporation has not demanded payment.

In addition, Eurogas has issued preference shares from treasury with a par value of \$32.2 million. The preference shares are held by Dundee Energy, and are subject to demand by Dundee Energy at any time, together with yet unpaid dividends thereon amounting to \$11.4 million at June 30, 2017.

Both the \$5.0 million revolving term credit facility provided by Dundee Corporation to Eurogas, and the \$32.2 million preference shares held by Dundee Energy, are eliminated as intersegment amounts in the June 2017 Interim Consolidated Financial Statements. However, as a result of these financial obligations, Eurogas had a negative working capital balance of \$49.2 million at June 30, 2017. Eurogas' ability to meet its obligations is conditional on the discovery of economically recoverable reserves, obtaining exploitation concessions for any such economically recoverable reserves, its ability to raise the necessary capital to finance development and settle its current obligations, and working capital from future profitable production or proceeds from the disposition of assets. There can be no assurance that Eurogas will be successful in achieving these initiatives.

BLUE GOOSE CAPITAL CORP.

Blue Goose Capital Corp. ("Blue Goose") is a privately-held Canadian company focused on the production, distribution and sale of organic, natural and conventional protein products, including beef, chicken, fish and turkey. Blue Goose continues to undergo significant strategic changes which are aimed at refocusing its core business and profitability. In late 2016, Blue Goose completed the acquisition of Tender Choice Foods Inc. ("Tender Choice"). The acquisition allows Blue Goose to expand its brand, and it provides additional revenue opportunities in the conventional protein market. Since the acquisition, Blue Goose has begun work to expand its operations and increase efficiencies as part of its vertical integration strategy.

In its ongoing initiatives to dispose of non-core assets, during the fourth quarter of 2016, Blue Goose divested its interest in the feed division, which it no longer considered core to its operating strategy.

Dundee Corporation continues to view its investment strategy in the agriculture sector as protection against inflation, with the added opportunity to benefit from a dynamic and rapidly growing organic and natural food sector. At June 30, 2017, the Corporation held a 90% interest in Blue Goose. Additional information about Blue Goose may be accessed at www.bluegoosepurefoods.com.

RESULTS OF OPERATIONS

During the first half of 2017, Blue Goose generated net earnings attributable to the owners of Dundee Corporation of \$1.7 million, compared with a net loss of \$9.9 million incurred in the same period of the prior year. The main driver of the positive net earnings in the first half of 2017 is a gain of \$4.2 million on the earnout liability related to the acquisition of Tender Choice, which reflects downward pressure on management's estimate of future operations related to the Tender Choice acquisition in the short term.

As further discussed below, and because of the significant transactions completed by Blue Goose in late 2016, including the acquisition of Tender Choice and the disposition of its feed business, Blue Goose's operating results during the first half of 2016 are not directly comparable to results generated during the current period.

<i>For the six months ended June 30,</i>	2017	2016

Contribution Margins

During the six months ended June 30, 2017, Blue Goose generated a positive contribution margin of \$7.6 million on total revenues of \$61.5 million, compared with a negative contribution margin of \$5.2 million on total revenues of \$32.5 million during the same period of the prior year. The contribution margin, before adjusting for fair value changes, was \$6.0 million in the first half of 2017, an improvement of \$2.7 million over the \$3.3 million of contribution margins in the same period of the prior year.

<i>For the six months ended June 30,</i>							2017

Revenue from sales of beef decreased by \$0.9 million to \$8.0 million during the first half of 2017, compared with revenue of \$8.9 million generated in the same period of the prior year. The decrease is attributable to a lower volume of live animal sales. During the first half of 2017, market prices for beef increased and Blue Goose recognized a fair value gain of \$7.1 million related to its cattle inventory, compared with a fair value gain of \$0.2 million in the same period of the prior year. Additionally, during the first half of 2017, period costs associated with the beef division were \$8.1 million and included costs of feeding, labour and other farming related costs. This compares with period costs of \$7.2 million in the same period of the prior year.

In late June 2017, several forest fires in northern British Columbia impacted the cattle operations. The extent of damage is not known at this time as the fires are still burning. Management is doing everything possible to minimize the impact on operations and safeguard the assets.

Revenue from fish sales decreased by \$0.3 million to \$1.5 million during the first six months of 2017, compared with revenue of \$1.8 million in the same period of the prior year, reflecting lower sales volumes. The period costs associated with the fish division for the first half of 2017 were \$1.3 million, comparable with period costs of \$1.2 million in the same period of the prior year.

In the first six months of 2017, revenue from the sale of chicken products in Blue Goose's legacy business was \$5.1 million, compared with revenue of \$6.4 million in the same period of the prior year. Blue Goose's legacy chicken division continues to experience supply limitations. The effect of lower sales volumes in the first half of 2017 was offset by higher margins.

During the first half of 2017, Tender Choice generated \$46.9 million of revenues, and a contribution margin of \$5.8 million. Blue Goose continues to work on the integration and profitability of the processor business through increased operating efficiencies, new business initiatives and further integration initiatives with its legacy chicken division. Blue Goose commenced the new sales of conventional and natural chicken with a major national retailer in the second quarter of 2017, further improving revenues and profitability.

The Fischer Feeds division was sold late in 2016. During the first half of 2016, it had generated sales of \$15.4 million and a contribution margin of \$1.0 million.

CHANGES IN FINANCIAL CONDITION

Changes in Livestock Carrying Values

	Cattle	Fish	Inventory and Supplies	Total
Carrying value, beginning of the period	\$ 25,768	\$ 2,482	\$ 8,157	\$ 36,407
Transactions during the six months ended June 30, 2017				
Net additions	1,536	155	38,970	40,661
Herd growth - physical changes	4,771	1,207	-	5,978
Herd growth - price changes	2,343	42	-	2,385
Net of product processed	(5,284)	(1,504)	(35,484)	(42,272)
Carrying value, end of the period	\$ 29,134	\$ 2,382	\$ 11,643	\$ 43,159

Blue Goose increased the size of its organic cattle herd by 2,556 head or 19%, compared to the herd count as of December 31, 2016. The net increase was mainly attributable to the 5,298 calves born in the first half of 2017 offset by the animals sold during the same period. Blue Goose expects to continue growing the size of its organic cattle herd to support future sales growth.

(number of animals)	June 30, 2017	Cattle herd as at December 31, 2016
Breeding cattle and bulls	7,059	6,137
Immature livestock and feeder cattle	9,200	7,566
	16,259	13,703

Blue Goose continues to expand and modernize its fish operations. In the first quarter of 2017, the fish division invested in another storm-safe hex cage to improve the efficiencies of its farming operations. This step, coupled with the realization of improved efficiencies in its farming operations and the continued investment in a hatchery program initiated in 2016, is expected to realize increased efficiencies and improve margins in the current year.

Corporate Debt in Blue Goose

Blue Goose and its subsidiaries have entered into several borrowing arrangements, pursuant to which Blue Goose has borrowed an aggregate of \$92.3 million as at June 30, 2017. Other than as described in the amendments below, since December 31, 2016, there have been no significant changes to the terms of credit facilities and other debt instruments available to Blue Goose from those terms outlined in note 19 to the 2016 Audited Consolidated Financial Statements.

In prior years, Blue Goose had established a \$14.8 million, 5.157% fixed term loan facility with a Canadian financial institution that matured on April 1, 2017. Amounts borrowed under this arrangement were renewed effective April 1, 2017 under amended terms that include variable interest at the prime lending rate for loans plus 1.80%, and a maturity of April 1, 2022.

Blue Goose had established a \$7.5 million demand revolving credit facility with a Canadian Schedule 1 Chartered Bank. In May 2017, Blue Goose amended the facility, increasing the amount to \$12.5 million. In connection with the amendment, the lender to Blue Goose provided a further \$5.0 million demand non-revolving loan for the acquisition of farm properties and/or capital expenditures, and a \$2.0 million equipment lease facility.

In connection with the purchase by Blue Goose of Tender Choice, in the fourth quarter of 2016, a subsidiary of Blue Goose established a \$67.5 million five-year senior secured credit facility with a Canadian Schedule II Chartered Bank. The credit facility includes a term component of \$35.0 million used to facilitate the acquisition of Tender Choice, and a \$7.5 million revolving component to finance working capital. The credit facility also includes additional components that may be drawn upon to fund a contingent payment of up to a further \$35.0 million, should the operations of Tender Choice exceed certain thresholds in each of the calendar years ending December 31, 2017 and December 31, 2018. At June 30, 2017, amounts outstanding against these arrangements included \$32.5 million under the \$35.0 million term component and \$1.6 million against the \$5.0 million revolving component.

These arrangements are subject to the maintenance of certain financial covenants, including covenants related to the generation of earnings before interest, depreciation and taxes, calculated on a quarterly basis. Since 2016, and during the integration of the business of Tender Choice, Blue Goose has breached certain quarterly financial covenants required under the terms of the above referenced borrowing arrangements. Blue Goose remains in active discussions with its lender to obtain waivers to these breaches of financial covenants and to seek amendments to or remedies of the terms of the credit facility that will alleviate the events causing the breaches.

The lending institutions to Blue Goose do not have recourse to Dundee Corporation in respect of any of the amounts borrowed under Blue Goose's lending arrangements.

AGRIMARINE HOLDINGS INC.

AgriMarine Holdings Inc. ("AgriMarine") is a private company engaged in fish farming activities using both conventional netting systems and other proprietary aquaculture technologies. AgriMarine has three principal assets: a Steelhead salmon fish farm known as West Coast Fishculture, located in Powell River, British Columbia; a suite of patents pertaining to a closed-containment tank technology used to rear finfish; and an engineering company known as "AgriMarine Technologies Inc." ("ATI") that supports internal needs and provides engineering services to third-party fish farm operators. As at June 30, 2017, the Corporation held a 100% interest in AgriMarine. Additional information about AgriMarine may be accessed at www.agrimarine.com.

RESULTS OF OPERATIONS

During the six months ended June 30, 2017, AgriMarine incurred pre-tax net losses attributable to owners of Dundee Corporation of \$2.7 million, compared with pre-tax net losses attributable to owners of Dundee Corporation of \$4.1 million in the same period of the prior year. The 2017 pre-tax loss includes the effects of abnormal fish mortalities of approximately \$1 million in the third quarter of 2016, which was reflected in cost of sales in the current year.

<i>For the six months ended June 30,</i>	2017	2016
Revenues		
Sales	\$ 5,373	\$ 5,303
Interest, dividends and other	-	3
	5,373	5,306
Cost of sales	(6,515)	(6,313)
Other items in net loss before taxes		
General and administrative	(1,549)	(2,524)
Fair value changes in livestock	-	(566)
Interest expense	(4)	(36)
Foreign exchange loss	(3)	(2)
Net loss before taxes, AgriMarine Holdings Inc.	\$ (2,698)	\$ (4,135)
Net loss before taxes, AgriMarine Holdings Inc. attributable to:		
Owners of Dundee Corporation	\$ (2,698)	\$ (4,135)
Non-controlling interest	-	-
Net loss before taxes, AgriMarine Holdings Inc.	\$ (2,698)	\$ (4,135)

AgriMarine continues to rationalize its cost structure and plan for future increases in scale. AgriMarine's principal focus remains the achievement of sustainable profitability for its West Coast Fishculture farming operation. Sourcing third-party revenue for its AgriMarine Technologies division, while continuing to prove the scientific and commercial viability of its closed-containment tank technology are of strategic importance for future expansion and international technology licensing and/or sales initiatives. Technology at the farm has been expanded from the initial closed-containment systems, to include a hybrid "raceway" design introduced to the Lois Lake operations in 2016, and further developed and improved in the current year.

Contribution Margins

<i>For the six months ended June 30,</i>	2017	2016
Revenues	\$ 5,373	\$ 5,303
Cost of sales	(6,515)	(6,868)
Contribution margin before fair value changes and writedown	(1,142)	(1,565)
Fair value changes in livestock	-	(566)
Other adjustments	-	555
	\$ (1,142)	\$ (1,576)

During the six months ended June 30, 2017, AgriMarine generated revenue of \$5.4 million and a negative contribution margin of \$1.1 million before fair value changes. Harvesting and sales were deliberately and necessarily reduced in the second quarter of 2017 to permit biomass to recover to sustainable levels following heavy harvesting in the previous two quarters to address a maturation issue in the fish population. In addition to reduced revenues in the second quarter of 2017, heavy mortalities between July and October 2016 (valuation of fish mortalities in these four months was approximately \$1.0 million), were reflected in the fish groups harvested and therefore cost of sales in the first and second quarters of 2017. Materially all of the effects of the 2016 mortalities have now been reflected in cost of sales, and the remaining balances carried forward will have only a minor impact on the third quarter of 2017.

At West Coast Fishculture, the volume of fish harvested during the first half of 2017 was 741,000 kilograms, translating into 461,000 kilograms or 1,014,000 pounds of product, sold at an average selling price of \$11.65 per kilogram (\$5.30 per pound).

Prices were increased by 10% to 15% for most of the West Coast Fishculture's customers effective June 1, 2017, and combined with scheduled harvest increases starting in August and increasing further through September and October to sustainable levels for the remainder of the year, it is projected that profitability will improve in the second half of 2017.

In addition to supporting West Coast Fishculture operations, ATI continues to pursue opportunities to develop its customer base of third-party engineering services clients.

CHANGES IN FINANCIAL CONDITION

	Biological Assets	Inventory and Supplies	Total
Carrying value, beginning of the period	\$ 6,495	\$ 399	\$ 6,894
Transactions during the six months ended June 30, 2017			
Net additions	4,561	14	4,575
Net of product processed	(5,766)	-	(5,766)
Carrying value, end of period	\$ 5,290	\$ 413	\$ 5,703

As at June 30, 2017, the carrying value of AgriMarine's biological assets was \$5.3 million, compared to a carrying value of \$6.5 million as at December 31, 2016.

During the six months ended June 30, 2017, AgriMarine's cash flows from operations have been insufficient to meet its obligations and expand its business activities. Dundee Corporation provided funding of \$0.2 million in June 2017 to support operations. At June 30, 2017, AgriMarine had cash of \$52,000, and it had liabilities of \$3.0 million excluding amounts due to Dundee Corporation.

While operations have stabilized after the biomass maturation and mortality issues, and pricing and operating costs have and continue to be addressed, including with planned cost-reducing capital expenditures, there can be no assurance that AgriMarine will have access to the necessary cash to carry out its current business plan.

DUNDEE 360 REAL ESTATE CORPORATION

Dundee 360 Real Estate Corporation (“Dundee 360”) is a seasoned real estate company that offers integrated management services in the development, marketing, sales and project administration of high-end single purpose and mixed-use, residential, hotel and recreational real estate assets. In addition to its real estate projects, Dundee 360 also holds the Canadian franchise license to operate Sotheby’s International Realty Canada (“Sotheby’s”). Combining a prestigious and internationally recognized real estate brand with local market knowledge and specialized marketing expertise, Sotheby’s is the leading real estate sales and marketing company for some of Canada’s most exceptional properties.

In 2016, Dundee 360 introduced new leadership, and continues to make strategic decisions to shift its focus from the international market to the Canadian market to achieve greater alignment with the services provided by its affiliates, including Sotheby’s and the Corporation’s wealth management division, as the Corporation views real estate as an integral component of a well-defined wealth management strategy.

At June 30, 2017, Dundee 360 was a wholly-owned subsidiary of the Corporation. Additional information about Dundee 360 may be accessed at www.dundee360.com.

RESULTS OF OPERATIONS

During the six months ended June 30, 2017, Dundee 360 achieved net income attributable to the owners of Dundee Corporation of \$0.2 million. Operating results during the first half of 2017 include \$1.2 million of equity income attributable to Dundee 360’s 45% share interest in the Edenarc 1800 project in Savoie, France for the completion and delivery of Phase 2 of Les Monarques.

In comparison, during the first half of the prior year, Dundee 360 incurred a net loss attributable to owners of Dundee Corporation of \$33.9 million. On June 30, 2016, Dundee 360 executed a series of agreements pursuant to which Dundee 360 surrendered certain trademarks in exchange for a release of obligations associated with its hospitality services activities. Furthermore, during the first six months of the prior year, the development management contract previously awarded to Dundee 360 for the construction of a resort development project was cancelled. These transactions resulted in one-time restructuring costs of \$23.4 million.

Real Estate Brokerage Activities

Dundee 360 currently holds the exclusive right to the use of the “Sotheby’s International Realty” name and related trademarks across Canada until 2029, with a unilateral right to extend its franchise agreement for an additional 25-year term. Franchise fees pursuant to this arrangement are 6% of gross commission income, with minimum annual payments of US\$1.0 million. As part of

its growth plan, Sotheby's remains focused on recruiting realtors with strong ethical and professional backgrounds who understand the benefit of the Sotheby's International Realty brand. These initiatives have resulted in a realtor base that averages, on an annual basis, between four to five times the sales volume of other realtors in Canada as reported by The Canadian Real Estate Association.

During the six months ended June 30, 2017, Sotheby's has sold over \$2.4 billion worth of residential real estate, compared with \$2.0 billion in the same period of the prior year. Aligned with strategic initiatives for growth, Sotheby's grew its year-to-date agent count by a net 30 new agents, bringing the total agent count across Canada to 456, compared to 417 in the same period of the prior year. Gross commission revenues for the listing, marketing and selling of real estate assets were \$45.4 million. Commissions paid to associated brokers and agents in respect of this revenue stream were \$40.9 million, providing Sotheby's with a contribution margin of \$4.5 million or 10%. This compares with a contribution margin of \$3.8 million or 10% in the prior year.

In addition to commission revenues, this division earned \$4.1 million of other revenue from its network of brokers and agents for the provision of services, including marketing, administrative and support services. Other revenue also includes luxury premium awards earned for achieving certain gross commission income targets.

Real Estate Project Management Activities

During the six months ended June 30, 2017, Dundee 360 earned revenues of \$3.1 million from its real estate project management activities. This compares with \$4.4 million of revenues generated in the same period of the prior year. Prior year revenues included \$2.2 million in management fees earned from hospitality and asset management activities provided to the Enchantment Group prior to the divestment of this business in June 2016, and \$1.0 million received upon the settlement of a lawsuit. Despite the loss of revenue from the Enchantment Group, current year revenues from development activities increased by \$1.8 million.

Consistent with downsizing of international operations to concentrate its focus on the Canadian market, general and administrative expenses in Dundee 360's real estate project management division decreased to \$3.0 million for the first half of 2017, compared to \$12.2 million of expenses incurred during the same period of the prior year. Dundee 360 continues to implement strategies to minimize cost while rebuilding its strategy to achieve greater alignment with the services provided by its affiliates.

A more comprehensive description of each of Dundee 360's real estate development projects is provided on pages 36 and 37 of the MD&A accompanying the 2016 Audited Consolidated Financial Statements.

CHANGES IN FINANCIAL CONDITION

Real Estate Debt

During the six months ended June 30, 2017, the Corporation advanced \$1.2 million to Dundee 360 to supplement working capital requirements, including costs associated with restructuring activities. At June 30, 2017, Dundee 360 had cash and receivables of \$9.8 million and its liabilities, other than amounts due to Dundee Corporation, were \$9.7 million. Dundee 360 is currently implementing strategies to monetize various international real estate development interests, source new project opportunities and to create potential financing vehicles to allow Dundee 360 to continue growing its business. Without the financial support of the Corporation, there can be no assurance that Dundee 360 will have access to the necessary funding to carry out its current business plan.

SIGNIFICANT INVESTMENTS ACCOUNTED FOR UNDER THE EQUITY METHOD

The Corporation holds investments that are accounted for using the equity method, and these investments are separately disclosed in the Corporation's consolidated statement of financial position as "Equity accounted investments". These investments are initially recorded at the Corporation's cost of acquisition. Subsequently, the original cost of each investment is increased or decreased in proportion to the Corporation's share of earnings or losses generated by the investee and to reflect the Corporation's share of the investee's other comprehensive income or loss.

Equity Accounted Investments at June 30, 2017

At June 30, 2017, the Corporation accounted for 10 of its investments using the equity method, including nine investments in private companies and one minor investment in a publicly listed company. These investments had an aggregate carrying value at June 30, 2017 of \$158.3 million (December 31, 2016 – \$151.2 million).

Significant Developments in Equity Accounted Investments

A full description of the nature of business activities of each of the Corporation’s equity accounted investments is provided on pages 37 through 46 of the MD&A accompanying the 2016 Audited Consolidated Financial Statements.

Union Group International Holdings Limited (“Union Group”)

Union Group (www.uniongrp.com) is a holding company with strategic investments in the power generation, oil and gas, infrastructure and logistics, agriculture, minerals and real estate sectors, in Latin American countries such as Uruguay, Peru and Paraguay.

In April 2016, Union Group acquired a 50% interest in ICC International Cannabis Corp. (“ICC”) (www.intcannabiscorp.com), one of the two licensed producers and sellers of cannabis and its derivative products in Uruguay. In November 2016, ICC announced the completion of a reverse take-over transaction and subsequent public listing of the shares of ICC on the TSX Venture Exchange.

In May 2017, ICC announced that Uruguay had initiated the registration process for the purchase of recreational cannabis through the pharmacy channel and, subsequent to June 30, 2017, ICC announced that it has been officially approved for non-medical cannabis sales in Uruguay by the Ministry of Health. ICC expects to produce approximately two tonnes of recreational cannabis in 2017.

In the second quarter, ICC completed its 21,528 sq. ft greenhouse complex that will be used for production of its medicinal cannabis plants. This greenhouse will allow ICC to test different cultivars' behavior throughout the entire year and increase the production cycle of medicinal cannabis. As Canada prepares for the legalization of marijuana by 2018, ICC is working to build strategic partnerships for cannabidiol and cannabis extract oil distribution within Canada.

In April 2017, ICC announced that it had entered into an agreement with Avanti RX Analytics Inc. ("Avanti"), a licensed dealer under the *Controlled Drugs and Substances Act (Canada)* pursuant to which ICC will provide cannabidiol oil and cannabis extract oils, and other related products from its Uruguayan operations. Avanti has also agreed to act as a Health Canada GMP approved contract analytical lab in Canada for ICC. The activities contemplated by these arrangements are still subject to applicable regulatory approvals.

In February 2017, ICC announced that it had entered into a memorandum of understanding with Emblem Corp. (TSXV: EMC), a licensed producer of medicinal cannabis pursuant to the Access to Cannabis for Medical Purposes Regulations overseen by Health Canada. The memorandum of understanding encompasses the presale of 10% of ICC's 2018 cannabidiol production to Emblem Corp. and establishes a cooperative framework for Emblem Corp. to assist ICC with the importation of cannabidiols into Canada and subsequently ensure distribution within Canada.

At June 30, 2017, Union Group owns 40 million common shares of ICC, representing approximately 36% of the issued and outstanding shares of ICC on a non-diluted basis, with a trading value of approximately \$34.2 million. Union Group's holdings in ICC are currently subject to escrow arrangements under the rules of the TSX Venture Exchange.

Union Group currently manages a portfolio of run-of-river hydropower assets in Peru at various stages of development. In May 2016, Union Group brought its first hydropower plant, Canchayllo, into operation at approximately 5.3 megawatts ("MW"). As part of its growth plan, Union Group completed the acquisition of Karpa, a hydro generation project of 20 MW of power, and with a 20-year power purchase agreement with the Peruvian government. The Karpa project is scheduled to become operational by June 2019.

Union Group also develops and operates oil and gas assets in the Andean States and Southern Cone regions of Latin America. Union Group has taken advantage of weak economic conditions in the oil and gas sector to expand its portfolio of assets with strategic acquisitions of exploration blocks in Bolivia, Paraguay and Peru.

Union Group holds mineral rights in Uruguay, with projects diversified across mineral types and maturity stages. Union Group also manages and invests in a diversified portfolio of prime real estate properties in Uruguay, including income generating, residential and coastline land properties; it holds an approximate 3% interest in Union Agriculture Group (www.uag.com.uy); and it continues to develop and operate infrastructure and logistics assets in Uruguay.

During the first half of 2017, Union Group reported losses, after amounts attributable to non-controlling interests, of US\$6.3 million. The Corporation has recognized operating losses of \$8.1 million in the six months ended June 30, 2017, offset by comprehensive income of \$7.5 million which partially reflects the translation of Union Group's financial statements from their underlying reporting currency to the Canadian dollar. In the same period of the prior year, the Corporation recognized losses of \$1.0 million from its investment in Union Group. At June 30, 2017, the Corporation holds a 40% interest in Union Group. The Corporation has not committed any further funds to Union Group, and it is not subject to any contingent obligations in respect of its investment.

Paragon Holdings (Smithe Street) ULC ("Paragon Holdings")

Paragon Holdings is a joint venture established between the Corporation and Paragon Gaming Inc., a Las Vegas-based casino resort developer and operator. Paragon Holdings holds an indirect 73.46% interest in Parq Holdings Limited Partnership (of

which the Corporation's share is 36.73%), a partnership established for the purpose of developing a Vancouver-based urban entertainment and leisure resort (the "Parq Resort"). The remaining 26.54% interest in Parq Holdings Limited Partnership ("Parq") is owned by PBC VUR Limited Partnership ("PBC"), a partnership managed by PBC Real Estate Advisors Inc., an asset management company engaged in pursuing, developing, acquiring, funding and managing various real estate assets including land, real property and mortgages on behalf of its institutional client base.

In addition to its \$54.8 million initial equity investment, during 2016, the Corporation invested \$40.7 million in the form of a convertible preferred security designated as "Class C Preferred Units" that entitle the holders thereof to a preferential return of up to 17%, and provide terms for redemption and/or conversion at the holders' option. In addition, it invested \$2.5 million into securities designated as "Class D Preferred Units" which have similar terms to the Class C Preferred Units, but carry certain liquidity and redemption preferences. The Class C and Class D Preferred Units have been designated for accounting purposes as financial instruments at FVTPL (see "Other Portfolio Investments"). On a fully converted basis, the Corporation holds a 39.8% interest in the Parq Resort, while Paragon Gaming Inc. owns a 32.8% fully converted interest, and PBC owns a 27.4% fully converted interest.

The Parq Resort is immediately adjacent to the B.C. Place Stadium in downtown Vancouver and it will include two Marriott-branded luxury hotels with 517 rooms, a 60,000 square foot conference centre, five restaurants, three lounges, a parking facility with 1,069 spaces and a specialized spa. Once completed, it will house the relocated Edgewater Casino that will commence operations in the new location with 600 slot machines and 75 gaming tables. Construction on the Parq Resort continues to progress on schedule, and it is anticipated that the project will open its doors in the fall of 2017.

Once fully operational, the project is expected to generate \$75 million to \$100 million of annual EBITDA over a ramp up period of about 12 months, with approximately 60% to 70% of EBITDA to be generated by casino activities, and with another 10% to 15% of EBITDA to come from hotel activities. The balance of EBITDA will be generated from food and beverage services, including the on-site restaurants, and from parking and other ancillary services provided by the resort. Much of the anticipated improved performance is expected to be driven by higher utilization rates of existing slot machines and gaming tables due to the anticipated increased customer traffic at the new premises.

Although development is currently on schedule, the risk for potential construction cost over runs, including any cost over runs that may be incurred should there be any delays in completion of the project, continues to exist. In order to mitigate any potential construction cost over runs, fund certain enhancements and in order to provide sufficient working capital required during the initial ramp up of operations of the project, additional funding of \$20 million to \$40 million for the Parq Resort was anticipated. Subsequent to June 30, 2017, the existing partners funded \$10 million to the project, including \$5.0 million funded directly by the Corporation. This additional \$10 million project financing was in the form of "Class E Preferred Units" which have similar characteristics to the Class C Preferred Units and Class D Preferred Units described above. In addition to the equity contributions by the owners, the current lenders to the project provided further financing of upwards of \$27.5 million in net proceeds.

During the first six months of 2017, the Parq Resort generated net income of \$11.2 million (six months ended June 30, 2016 – \$12.8 million).

(in millions of dollars)

Source of revenue and other items in net earnings or loss for the six months ended June 30,	Amounts attributable to		Amounts attributable to	
	2017	Dundee Corporation	2016	Dundee Corporation
Casino operations:				
Revenue	\$ 33.6	\$ 12.6	\$ 33.7	\$ 12.6
Other items in net earnings	(30.1)	(11.3)	(28.9)	(10.8)
	3.5	1.3	4.8	1.8
Deferred tax expense	(0.9)	(0.3)	(1.1)	(0.4)

Loss from fair value changes in derivative instruments	(6.2)	(2.4)	0.8	0.2
	\$ 8.0	\$ 2.9	\$ 5.3	\$ 1.9

Included in net income are foreign exchange gains and losses from changes in the fair value of derivative instruments, both of which are associated with the Parq Resort's US\$415 million project financing arrangement for the development of the project, which includes a US\$265 million first lien term loan bearing interest at the London Interbank Offered Rate plus 7.5% and maturing on December 17, 2020, and a US\$150 million second lien term loan bearing interest at the London Interbank Offered Rate plus 12% and maturing on December 17, 2021. Once construction is complete and the risks associated with the project development end, the Corporation anticipates that it will seek refinancing on terms that reflect the EBITDA generation capabilities of the Parq Resort.

Android Industries, LLC ("Android")

The Corporation holds a 20% interest in Android (www.android-ind.com), a private company and leading high technology-enabled assembler and sequencer of complex assemblies for the automotive industry headquartered in Michigan, United States.

During 2016, Android was awarded four new multi-year manufacturing contracts which will be positioned at several of Android's existing production facilities. The capital requirements associated with these new contracts are significant and will be deployed between 2017 and 2019. It is expected that the new contracts and better customer alignment will continue to result in additional value-added growth opportunities for the company, and it is expected to generate higher levels of sales and earnings beginning in 2018.

During the six months ended June 30, 2017, Android reported net earnings, after amounts attributed to non-controlling shareholders, of US\$1.1 million, and it reported distributions of US\$1.4 million. The Corporation reported a net loss of \$0.1 million from its investment in Android, representing 20% of net earnings, net of distributions. During the first six months of the prior year, the Corporation recognized a loss of \$0.2 million from its investment in Android.

In addition, the Corporation recognized other comprehensive income of \$0.1 million in the first half of 2017, representing its share of foreign currency earnings of US\$4.0 million associated with Android's foreign operations, net of foreign currency losses associated with the translation of Android's US-denominated financial results to Canadian dollars.

Cambridge Medical Funding Group II, LLC ("Cambridge Medical")

Cambridge Medical is a private, US-based consortium with a focus on funding medical receivables. Using proprietary software and sourcing, Cambridge Medical funds medical receivables from medical providers and then manages the collection and adjudication process. Certain operations are conducted through a sister company, Cambridge Medical Capital Services LLC ("Cambridge Services"). The Corporation has invested US\$10.0 million to acquire a 50% interest in Cambridge Medical and a 50% interest in Cambridge Services. The Corporation has also advanced a further US\$1.0 million to Cambridge Medical to assist with short-term working capital requirements.

During the six months ended June 30, 2017, Cambridge Medical and Cambridge Services reported a combined loss of US\$1.0 million. In Canadian dollar terms, the Corporation recognized a loss of \$0.7 million in the current quarter, as its share of losses incurred by these entities (six months ended June 30, 2016 – earnings of \$0.1 million). In addition, the Corporation recognized

\$64,000 of comprehensive losses associated with the translation of Cambridge Medical's and Cambridge Services' US dollar-denominated financial statements into Canadian currency.

Dundee Sarea Limited Partnership (“Dundee Sarea LP”)

Dundee Sarea LP (www.dundeesarea.com) is a private equity firm investing in special situations companies that require a constructive, long term partner to drive meaningful change and growth. Through limited partnership investment vehicles, Dundee Sarea LP makes equity investments in mid-market companies that are in need of financial restructuring or an operational turn-around. Dundee Sarea LP has, in partnership with the Caisse de dépôt et placement du Québec, raised an initial committed amount of \$112.5 million towards the creation of its first limited partnership, Dundee Sarea Acquisition I Limited Partnership (see below), including \$37.5 million of committed capital from the Corporation.

During the first half of 2017, the Corporation recognized a loss of \$7,000 (six months ended June 30, 2016 – earnings of \$80,000) as its share of amounts earned by Dundee Sarea LP. In the first half of the current year, the Corporation also recognized a dilution loss of \$56,000 which resulted from the Corporation's interest decreasing from 25% at the end of 2016 to 21% at June 30, 2017.

Dundee Sarea Acquisition I Limited Partnership (“Dundee Sarea Fund”)

Dundee Sarea Fund will use the capital committed by its limited partners to invest in companies requiring turn-around expertise in North America and Europe, with a focus on manufacturing distribution, industrial products, agriculture, oil & gas and forestry-related industries. The Corporation has committed capital of \$37.5 million towards this venture, representing an interest of 33%.

At June 30, 2017, Dundee Sarea Fund's sole investment consisted of a 100% ownership in Redecam Group S.p.A. (“Redecam”). Based in Milan, Italy, Redecam is a designer, manufacturer and installer of air filtration equipment and flue gas treatment systems for air pollution control. During the six months ended June 30, 2017, the Corporation invested \$1.6 million in this venture, increasing its aggregate investment to \$18.2 million at June 30, 2017, representing approximately 49% of its committed amount.

The Corporation's share of equity earnings from its investment in Dundee Sarea Fund were \$0.6 million in the first half of 2017 (six months ended June 30, 2016 – losses of \$1.0 million).

Dundee Acquisition Ltd. (“Dundee Acquisition”)

On March 5, 2015, the Corporation created Dundee Acquisition (www.dundeeacquisition.com), a special purpose acquisition corporation (“SPAC”) established for the purpose of effecting an acquisition of one or more businesses or assets, by way of a merger, share exchange, asset acquisition, share purchase, reorganization or any other similar business combination (a “Qualifying Acquisition”).

On January 27, 2017, Dundee Acquisition's shareholders approved a proposed Qualifying Acquisition to effect a business combination with CHC Student Housing Corp., a publicly listed student housing company in Canada, and to acquire a series of additional student housing properties from various third parties. While the proposed Qualifying Acquisition was approved by Dundee Acquisition's shareholders, Dundee Acquisition did not meet the minimum cash amount to be retained following completion of the proposed Qualifying Acquisition, as a result of higher than expected redemption deposits. After a review of strategic alternatives, management of Dundee Acquisition determined that in light of the foregoing circumstances, there was no realistic alternative for Dundee Acquisition but to liquidate, dissolve and distribute its escrowed assets to the holders of its class A restricted voting shares, in accordance with their terms. This distribution was completed on April 21, 2017. Upon completion of the distribution, the class A restricted voting shares and warrants of Dundee Acquisition were delisted from the TSX.

The Corporation continues to view positively the opportunity presented by student housing in Canada, and it will continue to consider alternative strategies pursuant to which it may benefit from this industry sector.

During the six months ended June 30, 2017, the Corporation recognized a gain of \$2.1 million from its investment in Dundee Acquisition, representing its share of the reversal of deferred commission expense amounts due to the underwriters of its initial public offering, which amounts were forfeited by the underwriters as a Qualifying Acquisition was not completed. During the

first six months of 2016, the Corporation recognized losses of \$1.6 million from its share of operating losses incurred by Dundee Acquisition during that period.

Escal UGS S.L. (“Escal”)

Escal was the original developer of a Spanish infrastructure undertaking that converted an abandoned oilfield to a natural gas storage facility (the “Castor Project”). Escal is incorporated under Spanish jurisdiction. ACS Servicios Comunicaciones y Energia S.L. (“ACS”), a construction group in Spain, is a 67% shareholder of Escal. Dundee Energy, through its 74% interest in Castor UGS Limited Partnership (“CLP”) holds the remaining 33% interest in Escal, providing the Corporation with an effective 14% interest in the Castor Project.

In July 2014, Escal determined that it was appropriate to exercise its right under the underground gas storage concession to relinquish the concession to the Spanish authorities. On October 3, 2014, the Spanish government approved Royal Decree-Law 13/2014, which became effective on October 4, 2014, the date of its publication in the Spanish Official State Gazette. The Royal Decree-Law formally accepted the relinquishment of the Castor Project, it acknowledged the termination of the concession, and it reverted ownership of the associated facilities back to the public domain. Notwithstanding, and in accordance with the terms of the royal decree, Escal and its shareholders remain responsible for any possible flaws or defects in the facilities associated with the Castor Project that become apparent during the 10 years following the October 2014 issuance of the royal decree.

CLP had previously initiated binding arbitration proceedings against ACS as to the sharing of certain cash flows from the Castor Project. On March 27, 2017, the Corporation announced that the arbitral tribunal of the International Chamber of Commerce had rendered its decision related to the Castor Project, denying the claim made by CLP. The decision was rendered by a majority of the three-person tribunal, with the third member issuing a dissenting opinion. The Corporation and counsel are currently assessing what steps, if any, may be taken based on the decision rendered.

The Corporation accounts for its investment in Escal using the equity method. At June 30, 2017, Escal’s net equity available to shareholders was negative, reflecting operating losses and the settlement of unfavourable hedging transactions. Accordingly, the Corporation has reduced the carrying value of its investment in Escal to \$nil at June 30, 2017 (December 31, 2016 – \$nil) as the Corporation does not have any legal or constructive obligations in respect of its investment in Escal, nor is it currently obligated to make any payments on behalf of Escal.

1. These investments are not traded on a prescribed exchange, therefore, market values of these investments were determined by application of valuation methodologies appropriate for such investments (see note 31 to the 2016 Audited Consolidated Financial Statements for further information on valuation methodologies applied for such investments).

At June 30, 2017, the Corporation's portfolio of investments continued to include several public and private investments, as well as certain debt securities across a variety of industry sectors.

**Investments by Industry Sector at Market Value (\$ Millions)
as at June 30, 2017**

At June 30, 2017, the estimated market value of the Corporation's portfolio of investments carried at FVTPL was \$348.9 million, a decrease of \$84.7 million from an estimated market value of these investments of \$433.6 million at December 31, 2016.

	<i>For the three months ended June 30, 2017</i>	<i>For the six months ended June 30, 2017</i>

Market value of portfolio investments, end of period	\$ 348,871	\$ 348,871

During the first half of 2017, the Corporation generated proceeds of \$125.1 million from the sale of certain investments and from the repayment of certain debt securities, including proceeds of \$106.1 million from the sale of 100% of the Corporation's investment in 15,536,288 class A subordinate voting shares of Dream Unlimited Corp., and a repayment of \$2.5 million against a subordinated advance of \$17.5 million provided to the acquirors of Dundee Securities' capital markets division in December 2016. Approximately \$3.7 million of proceeds generated were reinvested into the portfolio, including an investment of \$1.5 million in Nuuvera Corp., a Canadian incorporated private company focused on medicinal cannabis opportunities.

Changes in market values of portfolio investments during the six months ended June 30, 2017 increased the value of the Corporation's portfolio of investments at FVTPL by \$32.6 million.

Dundee Precious Metals Inc. ("Dundee Precious")

Dundee Precious (www.dundeeprecious.com) is a Canadian-based international gold mining company engaged in the acquisition of mineral properties, exploration, development, mining and processing of precious metals. Dundee Precious' operating assets include its Chelopech operations in Bulgaria, which produce a copper concentrate containing gold and silver and a pyrite concentrate containing gold; and the Tsumeb smelter in Namibia, a complex concentrate processing facility. Dundee Precious also holds interests in a number of other developing gold and exploration properties in Bulgaria, Serbia, Armenia and Canada,

including the Krumovgrad gold project, which started construction in the fourth quarter of 2016 and its 10.5% interest in Sabina Gold & Silver Corp.

Dundee Precious reported that during the first quarter of 2017, it achieved gold and copper production of 46,371 ounces and 8.2 million pounds respectively. In the second quarter of 2017, gold and copper production increased to 53,474 ounces and 8.6 million pounds respectively, reflecting strong gold production. While shutdowns for maintenance requirements limited the processing of complex concentrate at its smelter in Namibia during the earlier part of 2017, Dundee Precious noted improved performance in the second quarter of 2017. In addition, Dundee Precious has indicated that construction at the Krumovgrad gold project is on schedule, with first concentrate production scheduled for the fourth quarter of 2018.

During the first half of 2017, Dundee Precious generated revenues of US\$161.5 million from continuing operations, and it reported a net loss attributable to its common shareholders of US\$1.5 million.

At June 30, 2017, Dundee Corporation held 36.4 million common shares of Dundee Precious with a market value of \$85.5 million, representing a 20% interest.

Osisko Mining Inc. (“Osisko”)

Osisko is a mineral exploration company focused on the acquisition, exploration and development of precious metals resource properties in Canada. Osisko’s flagship projects are the high-grade Windfall Lake gold deposit located between Val-d’Or and Chibougamau in Québec and the Marban Block property located between Val-d’Or and Malartic in Québec. Osisko holds a 100% interest in the Windfall Lake gold deposit and holds a 100% undivided interest in a large area of claims in the surrounding Urban Barry area (82,400 hectares), a 100% interest in the Marban project located in the heart of Québec’s prolific Abitibi gold mining district, and properties in the Larder Lake Mining Division in northeastern Ontario, including the Jonpol and Garrcon deposits on the Garrison property, the Buffonta past producing mine and the Gold Pike mine property. Osisko also holds interests and options in a number of additional properties in northern Ontario.

The focus of Osisko is currently on the Windfall Lake Gold project where it is undertaking a 400,000 metre drill program. The program combines definition drilling in Zone 27 above and below the Red Dog intrusion, expansion/definition drilling in the Lynx deposit located immediately to the north east of Windfall. There are 12 drills currently active on the Lynx deposit and 12 additional drills defining the Windfall Lake gold deposit. The Windfall Lake gold deposit is currently one of the highest grade resource stage gold projects in Canada. Osisko releases drill and assay results from the ongoing program on a continuous basis. Osisko is working towards a new resource estimate for the Windfall Lake gold deposit by year-end, but also believes that the potential for expanding Windfall, Lynx and making new discoveries within the main deposit area is still completely possible.

Additional information regarding Osisko is available at www.osiskomining.com. At June 30, 2017, the Corporation’s investment in Osisko had a market value of \$25.1 million.

Investment in TauRx Pharmaceuticals Ltd. (“TauRx”)

TauRx is a private neuroscience company focused on the discovery, development and commercialization of products for the diagnosis and treatment of neuro-degenerative diseases caused through protein aggregation. The business was established in 2002 with the aim of discovering novel approaches to the treatment and diagnosis of Alzheimer’s disease (“AD”) as well as other neurological diseases characterized by abnormal aggregation of the Tau protein within the brain.

In late 2016, TauRx completed and announced results for its three-part Phase III clinical trial program designed to test the efficacy and safety of LMTX™ in patients with mild to moderate AD and behavioral variant Frontotemporal Dementia (“bv-FTD”). The headline results for all three studies were negative as LMTX™ failed to slow cognitive or functional decline in the total populations of treated subjects. The clinical trials which comprised patients with mild or moderate AD reported a promising sub-group analysis outcome in which patients who received LMTX™ as their only AD medication (LMTX™ as a monotherapy) demonstrated significant reductions in disease progression as measured both by cognitive and functional test batteries and by MRI imaging of brain atrophy. However, patients that received the drug as an add-on therapy showed no beneficial effects. This necessitates further trials to be conducted with a focus on LMTX™ as monotherapy.

TauRx has initiated discussions with the regulatory authorities in Europe and the U.S. to determine its next steps and it has determined that in order to corroborate the positive findings from Studies 015/005, it will commence with a shorter-term study that is fully randomized from the outset to test for clinically meaningful and statistically significant differences between LMTX™ taken as monotherapy and placebo groups. TauRx currently expects that the new study will encompass approximately 200 patients with very mild AD over a six-month period. Recruitment for the new study is expected to begin in late 2017. In order to fund the new study, TauRx has approved a renounceable rights issue for up to US\$70.8 million.

At June 30, 2017, the Corporation held a 4% interest in TauRx. The Corporation has determined that the fair value of its investment at June 30, 2017 was \$40.3 million. In determining the fair value of its interest, the Corporation applied a value per share of US\$30.60, the equivalent of a 50% discount to the volume-weighted average price of shares issued from treasury during 2015/16. Additional information regarding TauRx may be accessed at www.taurx.com.

Investment in Red Leaf Resources Inc. (“Red Leaf”)

Red Leaf is a privately held oil and gas technology company. Red Leaf’s patented technology, EcoShale, is a next generation oil and gas recovery technology focused on unlocking oil reserves in shallow oil shale deposits. EcoShale extracts oil with relatively low energy consumption, low emissions and low water utilization when compared with other oil shale technologies currently deployed in the world.

In March 2015, Red Leaf announced the suspension of construction of the Early Production System (“EPS”) in order to re-engineer the design. In May 2016, Red Leaf’s partner, Total E&P USA Oil Shale, LLC (“Total”), notified Red Leaf that it did not want to proceed with the EPS project. In March 2017, Red Leaf and Total reached an agreement pursuant to which Total has exited the oil shale development project at the Seep Ridge site in eastern Utah. With Total’s exit, Red Leaf has slowed the progress of this project while it considers its options for both continued development of the Seep Ridge project and other opportunities to further advance its EcoShale technology.

Dundee Corporation holds US\$10.0 million of the Series A preferred shares in Red Leaf that were acquired in 2010 and approximately 2% of Red Leaf’s common shares. The Corporation has determined that pending the announcement of further developments, the fair value of its investment in Red Leaf at June 30, 2017, including both the common and the preferred shares, was \$13.8 million, and remains effectively unchanged from December 31, 2016. Additional information regarding Red Leaf may be accessed at www.redleafinc.com.

Investment in Pan African Minerals (“Pan African”)

Pan African is a privately held, mineral exploration and development company focused on the acquisition, exploration and development of mineral assets in western Africa. Pan African’s principal assets are currently comprised of the 90%-owned Tambao manganese project in Burkina Faso and the 70%-owned Mount Klahoyo magnetite iron ore project in Ivory Coast. Pan African also owns 100% of four uranium exploration licenses in Niger, which it holds through a Nigerian subsidiary. The government of Burkina Faso has suspended the activities of Pan African at its Tambao facility and Pan African is currently in mediation regarding re-establishing development activities. Earlier in the current year, Pan African conducted a rights offering to raise US\$1.0 million to fund immediate working capital requirements. The previously 100% owned Nigerian subsidiary, Pan African Niger, was subsequently spun out to the new shareholders post rights issue.

Investment in \$17.5 Million Subordinated Loan Advanced to Eight Capital

On December 2, 2016, Dundee Securities completed a transaction whereby it sold all of the assets and liabilities related to its capital markets division to Eight Capital, a partnership formed by a consortium of individuals that were previously key employees of Dundee Securities’ capital markets division. As part of the transaction, the Corporation provided a subordinated loan in the amount of \$17.5 million to Eight Capital, at an annual interest rate of 10%. During the first quarter of 2017, \$2.5 million of the subordinated loan was repaid.

In connection with the subordinated loan, the Corporation entered into a royalty agreement with Eight Capital pursuant to which Eight Capital will pay a revenue-based royalty payment to the Corporation, ranging between 1% and 6.5% of revenues generated by Eight Capital over a five-year period commencing in the calendar year ending December 31, 2017, and reducing to between 1% and 2% in each of 2022 and 2023. Under the terms of the royalty agreement, royalty payments will cease, subject to a final

royalty payment, if the subordinated loan made by the Corporation to Eight Capital is repaid in full, and in any case, will cease effective December 31, 2023.

OTHER CONSOLIDATED BALANCES AND CAPITAL STRUCTURE

General and Administrative Expenses

Generally, head office costs, including costs associated with corporate governance and related public company costs, are accumulated and reported as head office costs and are not allocated to other operating segments. During the first half of 2017, the Corporation reported head office general and administrative expenses before non-cash stock based compensation of \$6.7 million, compared with general and administrative expenses of \$10.5 million incurred in the same period of the prior year. Direct compensation amounts included in current period general and administrative expenses include a \$2.2 million difference in discretionary staff incentive awards resulting from the reversal of amounts previously accrued.

<i>For the six months ended June 30,</i>	2017	2016
Direct compensation	\$ 2,846	\$ 5,628
Corporate and professional fees	2,000	2,016
Other	1,804	2,891
	6,650	10,535
Stock based compensation arrangements	1,840	1,931
	\$ 8,490	\$ 12,466

Stock based compensation added a further \$1.8 million to general and administrative expenses during the first half of 2017, compared to \$1.9 million incurred in the same period of the prior year. In connection with a transaction completed in 2013, the Corporation has determined that certain stock based compensation arrangements constitute a liability to the Corporation, the amount of which will vary in correlation to the market price of a class A subordinate voting share of DREAM, with changes in the market price reported in net earnings or loss. These arrangements are more fully described in note 26 to the 2016 Audited Consolidated Financial Statements. During the first half of 2017, changes in the market value of these liabilities resulted in the recognition of stock based compensation expense of \$0.8 million, compared with \$0.9 million in the same period of 2016.

Corporate Interest Expense

Corporate interest expense was \$5.3 million during the first half of 2017, a \$1.1 million decrease from the \$6.4 million incurred in the same period of the prior year.

Included in interest expense is \$1.3 million relating to the Corporation's credit facility (six months ended June 30, 2016 – \$1.7 million), reflecting a decrease in average borrowings over the respective periods.

Also included in interest expense are dividends of \$3.4 million (six months ended June 30, 2016 – \$3.8 million) incurred on the Corporation's Preference Shares, series 5 that are classified as debt. On June 30, 2016, the Corporation completed the redemption of approximately 15% of its outstanding Preference Shares, series 5, lowering the number of Preference Shares, series 5 outstanding, and lowering the associated interest expense.

Income Tax Expense

The Corporation's effective income tax expense rate was 82.1% during the six months ended June 30, 2017 which exceeds the statutory combined federal and provincial tax rate of 26.5%, primarily due to: (i) operating losses incurred by certain subsidiaries, the benefit of which was not recognized and (ii) non-deductible items including preference share dividends that are classified as interest expense for accounting purposes.

Net Deferred Income Tax Assets

The Corporation's net deferred income tax assets at June 30, 2017 were \$34.9 million and represent deferred income tax assets of \$92.3 million, offset by deferred income tax liabilities of \$57.4 million. This compares to net deferred income tax assets of \$43.0 million at December 31, 2016. Net deferred income tax assets decreased as a result of fair value appreciation in certain of the

Corporation's investments. Components of the Corporation's net deferred income tax assets are detailed in note 27 to the June 2017 Interim Consolidated Financial Statements.

The Corporation's aggregate income tax loss carry forwards at June 30, 2017 were \$550.1 million (December 31, 2016 – \$556.1 million). Included in the Corporation's deferred income tax balances is a tax benefit of \$65.3 million (December 31, 2016 – \$72.4 million) in respect of these tax losses.

Corporate Debt

	Corporate*	Dundee Energy	Blue Goose	Dundee 360	Total
Balance, December 31, 2016	\$ 54,574	\$ 57,400	\$ 88,880	\$ 139	\$ 200,993
Draws (Repayments)	(54,574)	(1,300)	3,400	(22)	(52,496)
Balance, June 30, 2017	\$ -	\$ 56,100	\$ 92,280	\$ 117	\$ 148,497

* In addition, the Corporation has issued letters of credit in the amount of \$3.6 million that may be drawn under certain circumstances.

The Corporation had previously established a revolving term credit facility with a syndicate of Canadian Schedule I Chartered Banks. At December 31, 2016, the Corporation had drawn \$54.6 million against its available credit facility, and it had issued letters of credit to support certain of its equity accounted investments for an additional €2.4 million. The syndicated facility required the maintenance of certain financial ratios relating to the fair value of certain of the Corporation's investments.

On April 27, 2017, the Corporation established a new \$80 million revolving term credit facility with a Canadian Schedule I Chartered Bank that matures on April 26, 2018. The new credit facility replaced the Corporation's previously established credit facility, which was fully repaid. The new revolving term credit facility bears interest at a rate per annum equal to the prime lending rate for loans plus 1.50% or, at the Corporation's option, at the prevailing bankers' acceptance rate or London Interbank Offered Rate plus 2.50%. Unused amounts under the revolving term credit facility are subject to an annual standby fee of 0.50%. At June 30, 2017, the Corporation had issued letters of credit in the amount of €2.4 million (\$3.6 million Canadian dollars) under the terms of the revolving term credit facility to support certain of its equity accounted investments. There were no further amounts drawn against the credit facility at June 30, 2017.

The Corporation has granted a first ranking security over all of its assets as security against amounts borrowed under the new revolving term credit facility. In addition to certain customary restrictions, including restrictions on the existence of other secured indebtedness, the Corporation's new revolving term credit facility requires the maintenance of certain financial ratios relating to the fair value of certain of the Corporation's investments. Therefore, the Corporation's borrowing availability will continue to increase or decrease, reflecting corresponding increases or decreases in the fair value of the Corporation's investments.

At June 30, 2017, the Corporation was in compliance with all debt covenants under the terms of the new revolving term credit facility.

Debt of Subsidiaries

A more detailed discussion of corporate debt in each of the Corporation's business segments is presented under "Segmented Results of Operations".

Share Capital

Preference Shares

At June 30, 2017, the Corporation's outstanding preference share arrangements were as follows:

Trade Symbol	Series	# of Shares Outstanding	Face Value per Share	Total Face Value	Coupon Rate	Carrying Value
DC.PR.B	Series 2	3,479,385	\$25.00	\$86,985	5.688% – 5-year fixed rate	\$84,053 equity instrument
DC.PR.D	Series 3	1,720,615	\$25.00	\$43,015	4.58% to 4.61% – quarterly floating rate	\$43,015 equity instrument
DC.PR.E	Series 5	3,598,203	\$25.00	\$89,955	7.50% – fixed rate	\$88,016 debt instrument

A full description of the terms of the Corporation's preference shares is provided in note 21 to the 2016 Audited Consolidated Financial Statements, and is updated in note 20 to the June 2017 Interim Consolidated Financial Statements.

Common Shares

As at June 30, 2017, there were 55,675,994 Class A subordinate voting shares and 3,114,873 Class B common shares outstanding. At August 10, 2017, the number of outstanding shares had increased to 55,676,000 Class A subordinate voting shares and 3,114,867 Class B common shares. In addition, the Corporation had 1,421,124 outstanding warrants. Each warrant may be exercised to acquire one Class A subordinate voting share at an exercise price of \$6.00 per share.

At June 30, 2017, the Corporation had awarded 1,318,493 deferred share units under its deferred share unit plan, each deferred share unit of which tracks the value of the Corporation's Class A subordinate voting shares and 1,189,245 deferred share units that track the value of a class A subordinate voting share of DREAM. In addition, and under the terms of the Corporation's share incentive arrangements, at June 30, 2017, the Corporation had awarded an aggregate of 1,345,904 Class A subordinate voting share bonus rights under its share bonus plan, each of which is subject to certain vesting criteria. The terms of the Corporation's share based compensation arrangements are summarized in note 26 to the Corporation's 2016 Audited Consolidated Financial Statements and are updated in note 25 to the June 2017 Interim Consolidated Financial Statements.

CONSOLIDATED LIQUIDITY AND CAPITAL RESOURCES

On a consolidated basis, the Corporation reported cash of \$80.4 million at June 30, 2017, compared with cash of \$75.6 million at December 31, 2016. The following table illustrates the Corporation's consolidated cash flow on a segmented basis, including net cash flow movements between Dundee Corporation and each of its operating segments.

	Opening	Operating	Investing	Financing		Closing
<i>For the six months ended June 30, 2017</i>	Cash	Activities	Activities	Activities	Intersegment	Cash
<i>Corporate and other portfolio holdings</i>	\$ 1,620	\$ (18,558)	\$ 121,389	\$ (58,028)	\$ (311)	\$ 46,112

<i>Real estate industry</i>						
Dundee 360 Real Estate Corporation	3,789	(1,446)	150	(22)	1,225	3,696
	\$ 75,615	\$ (19,862)	\$ 80,471	\$ (55,842)	\$ -	\$ 80,382

Included in the Corporation's consolidated cash balance is \$19.4 million of cash used in the operating businesses of the Corporation's wealth management and brokerage subsidiaries. These subsidiaries function in regulated environments and are therefore required to maintain levels of capital in liquid assets, in accordance with such regulatory requirements. The ability to transfer cash resources out of these regulated subsidiaries may be limited by their requirement to comply with regulatory capital requirements. At June 30, 2017 and December 31, 2016, the Corporation's regulated subsidiaries exceeded their minimum regulatory capital requirements.

A more detailed discussion of significant transactions affecting cash flows during the six months ended June 30, 2017 and 2016 is provided below.

Significant Cash Flows – Operating Activities

For the six months ended June 30,							Total	2016
	Corporate	Dundee Securities	UHIC	Blue Goose	Dundee 360	Other	2017	
Operating activities:								
Adjusted net earnings or loss*	\$ (10,596)	\$ 104	\$ (5,529)	\$ (586)	\$ 148	\$ 93	\$ (16,366)	\$ (49,918)
Changes in client account balances	-	(19,582)	-	-	-	-	(19,582)	95,202
Changes in agricultural inventory	-	-	-	35,471	-	(4,575)	30,896	14,819
Changes in other working capital amounts	(5,692)	(8,566)	490	1,191	(1,483)	1,462	(12,598)	33,837
Changes in income taxes	(2,270)	169	-	-	(111)	-	(2,212)	(4,804)
Cash (used in) provided from operating activities	\$ (18,558)	\$ (27,875)	\$ (5,039)	\$ 36,076	\$ (1,446)	\$ (3,020)	\$ (19,862)	\$ 89,136

* Adjusted net earnings (or loss) are equal to net earnings (or loss) adjusted for items not affecting cash and other adjustments.

- Changes in cash related to the Corporation's brokerage activities, including changes in client account balances and brokerage securities owned and sold short will vary significantly on a day-to-day basis to reflect the underlying business activities undertaken in that period and do not necessarily reflect any meaningful change in the subsidiaries' financial position. Changes in these balances during the first half of 2017 resulted in net cash outflows of \$19.6 million (six months ended June 30, 2016 – net cash inflows of \$95.2 million).
- During the first six months of 2017, changes in the balances of agricultural inventory resulted in net cash inflows of \$30.9 million (six months ended June 30, 2016 – \$14.8 million).

- During the six months ended June 30, 2017, the Corporation generated proceeds of \$125.1 million from its corporate portfolio, including \$106.1 million from the sale of 100% of the Corporation's investment in 15,536,288 class A subordinate voting shares of Dream Unlimited Corp., and \$2.5 million against a subordinated advance of \$17.5 million provided to the acquirors of Dundee Securities' capital markets division during December 2016. Approximately \$5.0 million of the proceeds were reinvested, including \$1.6 million reinvested in equity accounted investments. During the first half of the prior year, portfolio trading activities generated net cash outflows of \$17.2 million. Cash required or derived from trading in the Corporation's investment portfolio, including equity accounted investments, will vary from period to period and is dependent on trading activity and strategies that may evolve in response to global market conditions or otherwise.
- In an effort to expand its inventory of livestock and meet demand, Blue Goose invested \$40.6 million in agricultural assets during the six months ended June 30, 2017, compared with \$15.6 million invested during the same period of the prior year.
- Dundee Securities received net cash of \$0.4 million from the sale of its interest in Dundee Securities Inc. During the first half of the prior year, Dundee Securities transferred net cash of \$197.5 million, largely representing client cash balances, to the acquiror of its retail division.

Significant Cash Flows – Financing Activities

- Net amounts repaid against credit facilities available to the Corporation and to its subsidiaries during the first half of 2017 were \$52.7 million (six months ended June 30, 2016 – \$19.5 million drawn).
- Cash outflows during the first half of 2017 include dividends of \$3.5 million (six months ended June 30, 2016 – \$3.5 million) paid by the Corporation on its outstanding Preference Shares, series 2 and Preference Shares, series 3. The Corporation has not paid dividends on its Class A subordinate voting shares or on its common shares.
- At the end of the second quarter of 2016, the Corporation redeemed 458,969 Preference Shares, series 5, at a cost of \$25.00 per share or a total of \$11.5 million in aggregate.

Cash Requirements

The Corporation's capital management and funding objectives include ensuring that the Corporation is compliant with all of its ongoing obligations, including compliance with all applicable debt covenants, and ensuring that the Corporation is able to meet its financial obligations as they become due. In determining its capital allocation, the Corporation considers relevant regulatory capital requirements in order to effectively manage its wealth management strategies, and resources required for the development of resource, agricultural and real estate opportunities. The Corporation's capital management objectives also include ensuring that it has sufficient capital available to benefit from acquisitions and other opportunities, should they arise, and ensuring adequate returns for shareholders. The Corporation regularly assesses the allocation of its capital resources in response to changing economic conditions.

The Corporation's intention is to meet short-term liquidity requirements through funds from operations, working capital reserves and operating debt facilities. Capital may also be generated through dispositions of investments.

The Corporation believes that its operating cash flow, combined with available lines of credit and its portfolio of investments provide sufficient resources for the Corporation to conduct its operations for the foreseeable future, including the development of its wealth management strategy, supporting the capital requirements of its regulated subsidiaries, funding the payment of dividends and interest payments on preference shares and debt obligations, and supporting growth initiatives of its subsidiaries, if the need arises. On an ongoing basis, the Corporation may require cash to develop its energy, resource, agricultural and real estate initiatives or to invest in other opportunities, including growth opportunities related to its portfolio of investments. If required, the Corporation may consider alternative financing options for certain investment initiatives, including possible debt or equity issuances.

RESULTS OF OPERATIONS

Three months ended June 30, 2017 compared with the three months ended June 30, 2016

Consolidated Net Earnings

During the second quarter of 2017, the Corporation incurred a net loss attributable to owners of Dundee Corporation of \$25.1 million, or a loss of \$0.46 per share. This compares with a loss of \$12.7 million or \$0.25 per share incurred during the same quarter of the prior year.

<i>For the three months ended June 30,</i>	2017	2016
Net (loss) earnings before income taxes from:		
Goodman & Company, Investment Counsel Inc.	\$ (905)	\$ (3,139)
Dundee Securities Ltd.	(1,470)	1,199

DREAM Unlimited Corp.	466	(5,193)
Other portfolio investments	(10,017)	22,244
Share of earnings from equity accounted investments	66	1,326
Other items in the corporate and other portfolio holdings segment	(1,902)	(9,533)
Income tax recovery (expense)	5,307	(7,209)
Net loss for the period	\$ (25,980)	\$ (17,285)
Net loss attributable to:		
Owners of the parent	\$ (25,102)	\$ (12,662)
Non-controlling interest	(878)	(4,623)
	\$ (25,980)	\$ (17,285)

The second quarter net loss before income taxes incurred by the Corporation's operating subsidiaries was \$4.6 million, a significant improvement over a net loss before income taxes of \$54.1 million incurred in the second quarter of the prior year. Operating results in the second quarter of 2016 were adversely affected by \$23.4 million of restructuring charges incurred by Dundee 360, as well as a low commodities price environment that affected the operating results of Dundee Energy.

The corporate and other portfolio holdings segment incurred a net loss before income taxes of \$26.7 million in the second quarter of 2017, compared with net earnings before income taxes of \$44.0 million generated in the same period of 2016. The most significant quarter-over-quarter variance results from the Corporation's portfolio of investments at FVTPL which experienced market depreciation of \$24.8 million in the current quarter, compared with market appreciation of \$52.2 million generated in the same period of the prior year. Depreciation of the Corporation's portfolio of investments at FVTPL was partially offset by an increase of \$4.2 million in interest and dividend revenue, as well as reduced general and administrative expenses which decreased to \$3.5 million in the second quarter of 2017, compared with general and administrative expenses of \$6.9 million incurred in the same period of the prior year. General and administrative expenses in the corporate and other portfolio holdings segment during the second quarter of 2017 include a quarter-over-quarter variance of \$3.0 million resulting from the reversal of previously recognized discretionary incentive compensation.

A more detailed discussion of second quarter operating results of each of the Corporation's operating subsidiaries and business segments is provided below.

Segmented Results of Operations

GOODMAN & COMPANY, INVESTMENT COUNSEL INC.

During the three months ended June 30, 2017, GCIC incurred a net loss of \$0.9 million (three months ended June 30, 2016 – \$3.2 million) attributable to owners of Dundee Corporation.

Management fee revenues were \$0.6 million in the second quarter of 2017, a decline from management fee revenues of \$0.7 million earned in the second quarter of the prior year. Average AUM in the second quarter of 2017 was \$203.3 million compared with \$194.9 million in the same period of the prior year. Consistent with year-to-date results, the decrease in realized management fee revenue results from a change in the mix of assets managed, with private client assets generally earning a lower management fee rate than tax sheltered investment products, mutual funds and closed-end investment products. The average management fee rate was 1.11% in the second quarter of 2017, compared with an average management fee rate of 1.36% in the same period of the prior year.

General and administrative costs decreased to \$1.6 million in the three months ended June 30, 2017, a 60% decrease when compared with general and administrative costs of \$3.9 million incurred in the second quarter of the prior year. As previously indicated, operating performance in the current period reflects, in part, cost rationalization as GCIC further streamlines its business strategy.

Revenues

Reflective of the sale of essentially all of its retail and capital market businesses, during the three months ended June 30, 2017, Dundee Securities' revenues decreased to \$2.6 million, compared with revenues of \$13.3 million generated in the same period of the prior year. Revenues in the second quarter of 2017 include residual new issue and advisory mandates of \$2.4 million that had been initiated prior to the sale of Dundee Securities' capital markets division, and \$0.7 million of commission revenues. These amounts were offset by principal trading losses of \$1.0 million.

Variable Compensation Expense

Variable compensation expense incurred during the second quarter of 2017 was \$0.4 million, and represented approximately 81% of related financial services revenue, resulting in contribution margins of 19%. Consistent with year-to-date results, lower contribution margins in the current period reflect the timing of compensation amounts paid in advance of associated revenues that have not yet been recognized in income.

General and Administrative Expenses

Dundee Securities incurred general and administrative expenses of \$3.5 million in the three months ended June 30, 2017, compared with \$6.3 million in the same period of the prior year. Consistent with year-to-date results, the decrease in general and administrative expenses results from the significant reduction in business activities, partially offset by certain termination costs including severance and other compensation related expenses, as well as write-downs of redundant leaseholds.

DUNDEE ENERGY LIMITED

During the quarter ended June 30, 2017, Dundee Energy's net loss attributable to owners of Dundee Corporation was \$0.5 million, compared with a net loss attributable to the owners of the parent of \$6.8 million in the second quarter of the prior year. The net loss during the second quarter of 2016 included the previously discussed \$5.0 million impairment on certain natural gas properties.

RESULTS OF OPERATIONS

During the second quarter of 2017, sales of oil and natural gas, net of royalty interests were \$5.9 million, an increase of \$1.2 million when compared with net sales of \$4.7 million earned in the same period of the prior year. Higher realized prices for underlying commodities increased aggregate net sales by \$1.3 million, partially offset by lower production volumes, the effect of which was to reduce net sales by \$0.1 million.

During the second quarter of 2017, Dundee Technologies continued to expand the provision of technical services in the mining industry to evaluate processing alternatives using its state of the art metallurgy plant and skilled technical team. Revenue during the current quarter was \$0.7 million, compared with revenue of \$0.6 million in the same period of the prior year.

The majority of operating losses incurred by Dundee Technologies relate to general and administrative costs, including research and development costs incurred to advance the operations of the demonstration plant. During the three months ended June 30, 2017, research and development costs were \$0.4 million (three months ended June 30, 2016 – \$1.1 million).

BLUE GOOSE CAPITAL CORP.

During the second quarter of 2017, Blue Goose generated net earnings attributable to owners of Dundee Corporation of \$4.1 million, compared with a net loss of \$5.2 million incurred in the same period of the prior year. Net earnings in the second quarter of 2017 were driven primarily by a \$5.1 million gain on the earnout liability related to the Tender Choice acquisition.

RESULTS OF OPERATIONS

Revenues in the second quarter of 2017 were \$32.4 million, compared with revenues of \$16.9 million earned in the second quarter of the prior year. Tender Choice, acquired in 2016, contributed \$24.5 million of revenues in the second quarter of 2017. The Feed division, disposed in 2016, contributed \$8.1 million of revenues in the second quarter of 2016. The remaining revenues from Blue Goose's other conventional business lines were \$7.9 million in the second quarter of 2017, a decrease of approximately \$0.9 million from revenues of \$8.8 million earned in the same period of the prior year.

Revenue from sales of beef increased to \$4.9 million in the second quarter of 2017, compared with \$4.6 million of revenue generated in the same period of the prior year. The increase is attributed to the higher volume of processed animal sales. During the second quarter of 2017, and reflective of higher market prices for beef, Blue Goose recognized a fair value gain of \$2.5 million related to its cattle inventory, compared with a fair value loss of \$0.3 million in the same period of the prior year. During the second quarter of 2017, period costs associated with the beef division were \$3.4 million, compared with period costs of \$3.2 million in the same period of the prior year.

Revenue from fish sales decreased to \$0.7 million during the second quarter of 2017, compared with revenue of \$0.9 million in the same period of the prior year, reflecting lower sales volume. The decrease was attributable to delayed sales to a major organic customer who increased their target weight requirements, requiring a longer growth period. This was offset by increased sales of natural fish to a new customer. The period costs associated with the fish division were \$0.9 million in the three months ended June 30, 2017, marginally higher than the \$0.8 million in the same period of the prior year.

During the three months ended June 30, 2017, revenue from the sale of chicken products was \$2.3 million, a decrease from revenues of \$3.4 million generated in the same period of the prior year. Blue Goose continues to work with its processors and suppliers to address the current supply constraints. Consistent with lower sales volumes, period costs associated with the chicken division were \$2.3 million during the second quarter of 2017 compared with \$3.2 million in the same period of the prior year.

In the second quarter of 2017, Tender Choice generated \$24.5 million of revenues, and a contribution margin of \$3.7 million. Blue Goose continues to work on the integration and profitability of the processor business through increased operating efficiencies, new business initiatives and further integration initiatives with its legacy chicken division. Blue Goose commenced the new sales of conventional and natural chicken with a major national retailer during the quarter, further improving revenues and profitability.

AGRIMARINE HOLDINGS INC.

During the three months ended June 30, 2017, AgriMarine incurred pre-tax net losses attributable to owners of Dundee Corporation of \$1.7 million, compared with pre-tax net losses attributable to owners of Dundee Corporation of \$1.9 million in the same period in the prior year.

Net loss before taxes, AgriMarine Holdings Inc.	\$ (1,703)	\$ (1,860)

During the three months ended June 30, 2017, AgriMarine generated revenue of \$1.4 million and a negative contribution margin of \$1.0 million before fair value changes. Harvesting and sales were deliberately reduced in the second quarter of 2017 to permit biomass to recover to sustainable levels following heavy harvesting in the previous two quarters to address a maturation issue in the fish population. In addition to reduced revenues in the second quarter of 2017, heavy mortalities between July and October 2016 were reflected in the fish groups harvested and therefore cost of sales.

At West Coast Fishculture, the volume of fish harvested during the second quarter of 2017 was 228,000 kilograms, translating into 156,000 kilograms or 342,000 pounds of product, sold at an average selling price of \$10.85 per kilogram (\$4.93 per pound).

During the three months ended June 30, 2017, Sotheby's sold over \$1.6 billion worth of residential real estate, compared with \$1.1 billion in the same period of the prior year. Gross commission revenues for the second quarter of 2017 were \$29.0 million (three months ended June 30, 2016 – \$22.2 million). Associated commissions paid to brokers and agents were \$26.2 million (three months ended June 30, 2016 – \$19.9 million), resulting in a net contribution margin of \$2.8 million or 10% (three months ended June 30, 2016 – \$2.3 million or 10%).

Revenues from real estate project management activities of \$1.4 million earned during the three months ended June 30, 2017 are comparable with revenues of \$1.4 million generated in the same period of the prior year. However, general and administrative costs decreased from \$7.7 million in the second quarter of the prior year to \$1.5 million in the current quarter, reflecting cost-efficiency strategies initially undertaken in 2016.

CONSOLIDATED QUARTERLY BUSINESS TRENDS

Diluted	\$ (0.46)	\$ 0.44	\$ (1.85)	\$ (0.31)	\$ (0.25)	\$ (0.13)	\$ (0.97)	\$ (4.05)

- Operating results in the fourth quarter of 2016 include impairment charges of \$6.9 million incurred by Dundee Energy in respect of certain of its exploration and evaluation resource properties. In the same quarter, Dundee 360 incurred an impairment of \$8.0 million against its Croatian real estate assets, and a further \$4.6 million impairment on its Cuban assets.
- Operating results during the second quarter of 2016 include accelerated depreciation charges of \$23.8 million relating to Dundee 360, including depreciation of goodwill and other assets associated with the Parq casino and resort development project, as well as depreciation following the sale of certain hospitality services arrangements. In the same quarter, Dundee Energy recognized an impairment of \$5.0 million against certain natural gas properties in southern Ontario.
- Operating results during the third quarter of 2015 include an impairment charge of \$215.2 million against resource properties associated with the Corporation's investment in UHIC.
- Included in net earnings or loss are amounts reflecting changes in the fair value of the Corporation's direct investments in public and private securities. As previously noted, changes in the fair value of investments are determined by equity and credit markets and are expected to result in significant fluctuations in net earnings or loss. The Corporation believes that equity and credit markets do not necessarily correctly reflect the underlying value of certain assets. As a consequence, management of the Corporation believes that the amount of unrealized gains or losses that will be included in net earnings or loss in any given period typically provides little analytical or predictive value to the readers of the Corporation's financial information.
- The Corporation's share of earnings or losses from equity accounted investments is included in the Corporation's net earnings or loss for each quarter. As with changes in the fair value of the Corporation's investment portfolio, earnings or losses from each equity accounted investee and dilution gains and losses from these investments will fluctuate from period to period and may depend on market forces or other operating conditions that are not necessarily under the Corporation's direct control.

OFF-BALANCE SHEET ARRANGEMENTS, COMMITMENTS AND CONTINGENCIES

Other than as disclosed elsewhere in this MD&A or in note 32 to the June 2017 Interim Consolidated Financial Statements, there have been no significant changes in the nature of commitments, contingencies and off-balance sheet arrangements, from those described in note 33 to the 2016 Audited Consolidated Financial Statements and under "Off-Balance Sheet Arrangements" and "Commitments and Contingencies" on pages 66 through 68 in the Corporation's MD&A as at and for the year ended December 31, 2016.

RELATED PARTY TRANSACTIONS

Other than as described in note 33 to the June 2017 Interim Consolidated Financial Statements, there have been no significant changes in the nature and scope of related party transactions to those described in note 34 to the 2016 Audited Consolidated Financial Statements and the accompanying MD&A.

ACCOUNTING POLICIES AND CRITICAL ACCOUNTING ESTIMATES

The preparation of the Corporation's consolidated financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and other items in net earnings or loss and the related disclosure of contingent assets and liabilities. Critical accounting estimates represent estimates made by management that are, by their very nature, uncertain. The Corporation evaluates its estimates on an ongoing basis. Such estimates are based on historical experience and on various other assumptions that the Corporation believes are reasonable under the circumstances, and these estimates form the basis for making judgments about the carrying value of assets and liabilities and the reported amount of revenues and other items in net earnings or loss that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. A summary of the more significant judgments and estimates made by management in the preparation of its financial information is provided in note 4 to the 2016 Audited Consolidated Financial Statements. Other than as described in note 2 to the June 2017 Interim Consolidated Financial Statements, there have been no changes in the accounting policies adopted by the Corporation from those detailed in note 3 to the Corporation's 2016 Audited Consolidated Financial Statements.

CONTROLS AND PROCEDURES

In accordance with the Canadian Securities Administrators' National Instrument 52-109, the Corporation has filed certificates signed by its Chief Executive Officer and the Chief Financial Officer certifying that, among other things, the design of disclosure controls and procedures and the design of internal control over financial reporting are adequate as at June 30, 2017.

Disclosure controls and procedures are designed to ensure that information required to be disclosed by the Corporation in the reports it files or submits under securities legislation is recorded, processed, summarized and reported on a timely basis and that such information is accumulated and reported to management, including the Corporation's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow required disclosures to be made in a timely fashion. Based on their evaluation, the Chief Executive Officer and Chief Financial Officer concluded that as at June 30, 2017, the Corporation's disclosure controls and procedures were effective.

The Chief Executive Officer and the Chief Financial Officer of the Corporation have also assessed whether there were any changes to the Corporation's internal control over financial reporting during the six months ended June 30, 2017 that have materially affected, or are reasonably likely to materially affect the Corporation's internal control over financial reporting. There were no changes identified during their assessment.

Limitation on Scope of Design

The Chief Executive Officer and Chief Financial Officer have limited the scope of the design of disclosure controls and procedures and the design of internal control over financial reporting to exclude controls, policies and procedures of Blue Goose as they relate to the operations of Tender Choice, the results of which have been included in the June 2017 Interim Consolidated Financial Statements. The scope of limitation is in accordance with Section 3.3 of National Instrument 52-109, which permits an issuer to limit its design of disclosure controls and procedures, and the design of internal control over financial reporting to exclude the controls, policies and procedures of a company acquired not more than 365 days before the end of the financial period to which the certificate relates. A summary of the financial information for Blue Goose's acquisition of Tender Choice is provided under the sections entitled "*Segmented Results of Operations – Blue Goose Capital Corp*".

MANAGING RISK

Except as otherwise disclosed in this MD&A, there have been no significant changes to the nature and scope of the risks faced by the Corporation as described in the Corporation's 2016 Annual Information Form under "Risk Factors" which is available on SEDAR at www.sedar.com. These business risks should be considered by interested parties when evaluating the Corporation's performance and its outlook.

CAUTIONARY NOTE REGARDING FORWARD LOOKING STATEMENTS

Dundee Corporation's public communications may include written or oral forward looking statements. Statements of this type are included in this MD&A, and may be included in other filings with the Canadian regulators, stock exchanges or in other communications. All such statements constitute forward looking information within the meaning of securities law and are made pursuant to the "safe harbour" provisions of applicable securities laws. Forward looking statements may include, but are not limited to, statements about anticipated future events or results including comments with respect to the Corporation's objectives and priorities for 2017 and beyond, and strategies or further actions with respect to the Corporation, its products and services, business operations, financial performance and condition. Forward looking statements are statements that are predictive in nature, depend upon or refer to future events or conditions or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" or similar expressions concerning matters that are not historical facts. Such statements are based on current expectations of the Corporation's management and inherently involve numerous risks and uncertainties, known and unknown, including economic factors and those affecting the financial services, energy, resources, agriculture and real estate industries generally. The forward looking information contained in this MD&A is presented for the purpose of assisting shareholders in understanding business and strategic priorities and objectives as at the periods indicated and may not be appropriate for other purposes.

A number of risks, uncertainties and other factors may cause actual results to differ materially from the forward looking statements contained in this MD&A, including, among other factors, those referenced in the section entitled "Risk Factors" in the Corporation's Annual Information Form, which include, but are not limited to, general economic and market conditions; the Corporation's ability to execute strategic plans including the ability to complete acquisitions and dispositions effectively; the Corporation's ability to meet financial obligations; the performance of the Corporation's principal subsidiaries; the Corporation's ability and the ability of its investee companies to raise additional capital; the availability of equity and debt financing and/or refinancing on acceptable terms; risks relating to trading activities and investments; competition faced by the Corporation; regulation of the Corporation's businesses; successful integration of the Corporation with acquired businesses and the realization of any anticipated synergies; risks associated with the Corporation's operating businesses and the Corporation's investment holdings in general, including risks associated with oil and gas and mining exploration, risks of operating in foreign jurisdictions; development and production activities, environmental risks, inflation, changes in interest rates, commodity prices and other financial exposures; the availability and adequacy of insurance coverage for the Corporation and its subsidiaries; maintenance of minimum regulatory capital requirements for certain of the Corporation's subsidiaries; potential liability of the Corporation and its subsidiaries under securities laws and for violations of investor suitability requirements; and the ability of the Corporation and its subsidiaries to attract and retain key personnel. The preceding list is not exhaustive of all possible risk factors that may influence actual results, and is compiled based upon information available as at August 10, 2017.

Forward looking statements contained in this MD&A are based upon assumptions about the future performance of the Canadian, European and United States economies, which were material factors considered by management when setting Dundee Corporation's strategic priorities and objectives. In determining expectations for economic growth in the financial services, energy, resource, agriculture and real estate sectors, the Corporation considered historical economic data provided by the Canadian government and its agencies, and market and general economic conditions, which factors are unpredictable and may impact the Corporation's performance.

Forward looking statements contained in this MD&A are not guarantees of future performance and, while forward looking statements are based on certain assumptions that the Corporation considers reasonable, actual events and results could differ materially from those expressed or implied by forward looking statements made by the Corporation. Prospective investors are cautioned to consider these and other factors carefully when making decisions with respect to the Corporation and not place undue reliance on forward looking statements. Circumstances affecting the Corporation may change rapidly. Except as may be required by applicable law, the Corporation does not undertake any obligation to update publicly or revise any such forward looking statements, whether as a result of new information, future events or otherwise.
