

**MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**JUNE 30, 2020**

# DUNDEE CORPORATION

## Management’s Discussion and Analysis

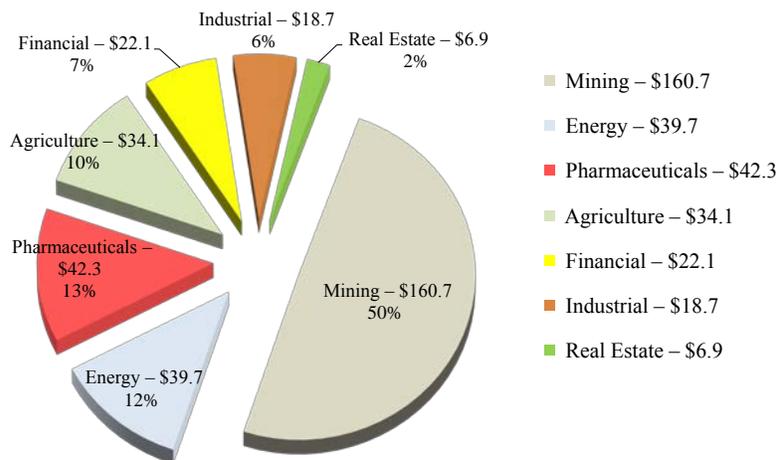

**Dundee Corporation** (the “Corporation” or “Dundee Corporation”) is a public Canadian independent holding company, listed on the Toronto Stock Exchange (“TSX”) under the symbol “DC.A”. Through its operating subsidiaries, the Corporation is engaged in diverse business activities in the areas of investment advisory, corporate finance, energy, resources, agriculture, real estate and infrastructure. The Corporation also holds, directly and indirectly, a portfolio of investments mostly in these key areas, as well as other select investments in both publicly listed and private enterprises.

Dundee Corporation’s overriding strategic priority is to allocate and invest capital in a manner that consistently generates long-term value creation. Historically, Dundee Corporation has built a track record of success through the creation, advancement, development and active management of numerous mining companies. Through the creation of an in-house team of experts, the Corporation intends to leverage this track record and expand its capabilities to fund, finance and support companies in the mining industry.

This Management’s Discussion and Analysis (“MD&A”) has been prepared with an effective date of August 13, 2020 and provides an update on matters discussed in, and should be read in conjunction with the Corporation’s audited consolidated financial statements, including the notes thereto, as at and for the year ended December 31, 2019 (the “2019 Audited Consolidated Financial Statements”), together with the accompanying MD&A for the year then ended, and with the unaudited condensed interim consolidated financial statements of the Corporation as at and for the three and six months ended June 30, 2020 (the “June 2020 Interim Consolidated Financial Statements”) which have been prepared using International Financial Reporting Standards (“IFRS”). All amounts in this MD&A are in Canadian dollars unless otherwise specified. Tabular dollar amounts, unless otherwise specified, are in thousands of dollars, except for per share or per unit amounts. This MD&A contains forward looking statements that are based on certain estimates and assumptions and involve risks and uncertainties. Actual results may vary materially from management’s expectations. See the “*Cautionary Note Regarding Forward Looking Statements*” section later in this MD&A for further information.

### DUNDEE CORPORATION’S CAPITAL ALLOCATED BY INDUSTRY SECTOR

**Capital Allocated by Industry Sector at Carrying Value (\$ Millions)  
as at June 30, 2020**

## UNDERSTANDING THE ALLOCATION OF DUNDEE CORPORATION'S CAPITAL

	Carrying Value June 30, 2020	Carrying Value December 31, 2019
<b>1</b>	<p><b>Operating Subsidiaries</b> Operating subsidiaries are not recorded as individual investments in the Corporation's consolidated financial statements. Instead, the accounts of the operating subsidiary are consolidated with those of the Corporation on a line-by-line basis. For example, the revenue generated by an operating subsidiary is reported as revenue of the Corporation in the consolidated statement of operations.</p>	\$ 201,694
<b>2</b>	<p><b>Equity Accounted Investments</b> Investments that are accounted for using the equity method are separately disclosed in the Corporation's consolidated statement of financial position as "Equity accounted investments". These investments are initially recorded at the Corporation's cost of acquisition. Subsequently, the original cost is increased or decreased in proportion to the Corporation's share of earnings or losses generated by the investee.</p>	28,699
<b>3</b>	<p><b>Investments</b> All other investments are designated as "Investments" in the Corporation's consolidated statement of financial position. These investments may include investments in equity or debt securities of public or private companies in a variety of sectors. These investments are reported in the Corporation's consolidated financial statements at their estimated fair value.</p>	306,687
<b>4</b>	<p><b>Corporate Account Balances</b> Corporate account balances represent balances of the Corporation's capital that are not directly attributable to a particular investment. These balances include cash held by the Corporation directly, offset by the Corporation's direct obligations, including obligations in respect of its credit facilities.</p>	29,999
	<b>\$ 456,203</b>	<b>\$ 567,079</b>
	Less: Shareholders' equity attributable to holders of:	
	Preference Shares, series 2 (75,026)	(75,026)
	Preference Shares, series 3 (50,448)	(50,473)
	<b>\$ 330,729</b>	<b>\$ 441,580</b>
	Number of Class A Subordinate Shares and Class B Shares of the Corporation outstanding	
	Class A Subordinate Shares 99,977,865	99,977,802
	Class B Shares 3,114,650	3,114,713
	103,092,515	103,092,515
	<b>\$ 3.21</b>	<b>\$ 4.28</b>

\* Before accounting for deferred income tax assets and liabilities in respect of the Corporation's investments in operating subsidiaries, which are not recognized in the Corporation's consolidated financial statements as per International Accounting Standard 12.

## PERFORMANCE MEASURES

The Corporation believes that important measures of its operating performance, as well as that of its subsidiaries, include certain metrics that are not defined under IFRS and, as such, may not be comparable to similar performance measures used by other companies. Throughout this MD&A, there will be references to certain performance measures which management believes are relevant in assessing the economics of its business. While some of these performance measures are not formally recognized by IFRS, the Corporation believes that they are informative and provide further qualitative insight into net earnings and cash flows.

- **“AUM” or “Assets under Management”** represent the period-end value of client assets managed by the Corporation’s asset management subsidiaries on a discretionary basis and in respect of which these subsidiaries earn management fee revenue and, in certain cases, performance fee revenue. AUM are not included in the Corporation’s consolidated statements of financial position.
- **“Contingent Resources”** are those quantities of oil estimated, as of a given date, to be potentially recoverable from known accumulations using established technology or technology under development, but which are not currently considered to be commercially recoverable due to one or more contingencies. Contingencies may include factors such as economic, legal, environmental, political and regulatory matters, or a lack of markets. It is also appropriate to classify as contingent resources the estimated discovered recoverable quantities associated with a project in the early evaluation stage. Contingent resources are further classified in accordance with the level of certainty associated with the estimates and may be sub-classified based on project maturity and/or characterized by their economic status.
- **“Contribution Margin” or “Margin”** is an important measure of earnings in certain business segments and generally represents core revenues less cost of sales. Margin generally excludes general and administrative expenses, interest expense, and income taxes and may also exclude depreciation and depletion of assets not directly associated with the activities of producing or extracting product for sale.
- **“Earnings Before Interest, Taxes, Depreciation and Amortization” or “EBITDA”** is a measure of a company’s operating performance and can be used to analyze and compare profitability between companies and industries.
- **“FVTPL”** means fair value through profit or loss. Certain of the Corporation’s investments in equity and debt securities have been designated as investments at FVTPL. Changes in the fair value of investments designated as investments at FVTPL are reported in net earnings or loss.
- **“Fair Value” or “Market Value”** of an investment is generally determined using quoted market prices on prescribed stock exchanges for investments that are publicly traded. Market value or fair value of an investment that is privately held is determined by reference to valuation methodologies appropriate for the investment.
- **“Prospective Resources”** are defined as those quantities of oil estimated, as of a given date, to be potentially recoverable from undiscovered accumulations by application of future development projects. Prospective resources have both an associated chance of discovery and a chance of development. Prospective resources are further subdivided in accordance with the level of certainty associated with recoverable estimates assuming their discovery and development and may be sub-classified based on project maturity.
- **“Shareholders’ Equity on a Per Share Basis”** is calculated by dividing the carrying value of the Corporation’s shareholders’ equity by the aggregate number of Subordinate Shares and Class B Shares of the Corporation issued and outstanding as at the date of such calculation.

## RESULTS OF OPERATIONS

Six Months Ended June 30, 2020 compared with Six Months Ended June 30, 2019

### Consolidated Net Earnings or Loss

During the first half of 2020, the Corporation recognized a net loss attributable to owners of the Corporation of \$114.1 million, or a loss of \$1.14 per share. This compares with net earnings attributable to owners of the Corporation of \$7.0 million in the same period of 2019, representing earnings of \$0.05 per share, before the effect of any dilutive securities. The following table summarizes the Corporation's net operating earnings or loss on a per segment basis.

<i>For the six months ended June 30,</i>	2020	2019
Net (loss) earnings before income taxes from continuing operations		
Goodman & Company, Investment Counsel Inc.	\$ (1,642)	\$ (751)
United Hydrocarbon International Corp.	(134,469)	9,004
Dundee Sustainable Technologies Inc.	(1,201)	(1,651)
Blue Goose Capital Corp.	(6,020)	(7,882)
AgriMarine Holdings Inc.	(1,685)	(2,558)
Dundee 360 Real Estate Corporation	(221)	(3,126)
Dundee Energy Limited	-	(197)
Eurogas International Inc.	-	(95)
	(145,238)	(7,256)
Adjusted for the corporate and other portfolio holdings segment:		
Net income from investments	34,625	33,484
Share of loss from equity accounted investments	(5,220)	(3,247)
Other items in the corporate and other portfolio holdings segment	(16,511)	(3,892)
Income tax expense	(5,384)	(11,382)
Net (loss) earnings from continuing operations	(137,728)	7,707
Net loss from discontinued operations		
Dundee 360 Real Estate Corporation's brokerage division	-	(1,331)
Net loss from discontinued operations	-	(1,331)
<b>Net (loss) earnings for the period</b>	<b>\$ (137,728)</b>	<b>\$ 6,376</b>
Net (loss) earnings attributable to owners of the parent:		
Owners of the parent		
Continuing operations	\$ (114,117)	\$ 8,302
Discontinued operations	-	(1,331)
	<b>\$ (114,117)</b>	<b>\$ 6,971</b>

#### *Continuing Operations*

During the six-month period ended June 30, 2020, the Corporation recognized a net loss from continuing operations attributable to owners of the Corporation of \$114.1 million, or a loss of \$1.14 per share. This compares with \$8.3 million earnings from continuing operations attributable to owners of the Corporation in the same period of 2019, representing earnings of \$0.07 per share, before the effect of any dilutive securities.

Operating results during the first half of 2020 reflect a \$36.3 million market appreciation (2019 – \$35.2 million) in certain of the Corporation's investments that are carried in the consolidated financial statements at FVTPL. Changes in the fair value of investments carried at FVTPL, which are determined by trends and information in equity and capital markets and are recorded in the Corporation's net earnings or loss, can cause substantial volatility in operating performance. The Corporation cautions that the equity and credit markets do not always necessarily reflect the underlying value of certain assets. During the six months ended June 30, 2019, the Corporation recognized a loss of \$0.8 million from loss of control of certain subsidiaries (see below). This amount was included in "Net income from investments" in the June 2020 Interim Consolidated Financial Statements. In addition, net income from investments also includes dividend and interest income distributed from its portfolio investments.

On May 13, 2020, the Corporation announced the closing of the sale of 23.9 million units at a price of \$6.35 per unit for gross proceeds of \$151.8 million. Each unit consisted of one common share of Dundee Precious Metals Inc. owned by the Corporation and one-half of a common share purchase warrant. Transaction costs of \$5.3 million on the sale transaction which are included in “*Net income from investments*” in the June 2020 Interim Consolidated Financial Statements. The cash generated from this sale transaction improves the Corporation’s liquidity and ongoing efforts to streamline its capital structure, while providing the Corporation with capital to support its strategic focus on the junior mining sector (see “*Other Portfolio Investments – Dundee Precious Metals Inc.*”).

A number of the Corporation’s investments are accounted for using the equity method of accounting, which requires that the Corporation increase or decrease the carrying value of its investment by its proportionate share of the net earnings or loss of the underlying investee. This method of accounting further subjects the Corporation to significant volatility in its operating performance as the underlying net earnings or loss of the equity accounted investee may be subject to market forces or other events over which the Corporation does not exert control. During the first half of 2020, the Corporation’s corporate and other portfolio holding segment recognized a loss from its equity accounted investments, excluding real estate joint ventures, of \$5.2 million (2019 – \$3.3 million).

Highlights of other period-over-period comparable results of the Corporation’s operating subsidiaries are described below and are further discussed under “*Segmented Results of Operations*”.

- Goodman & Company, Investment Counsel Inc. (“GCIC”) grew its AUM from \$45.5 million at the end of December 2019 to \$68.5 million at the end of June 2020. During the first half of 2020, GCIC raised capital of \$30.4 million from launching a new tax-sheltered limited partnership, *CMP 2020 Resource Limited Partnership*, as well as transfers into GCIC’s alternative investment product. During the six months ended June 30, 2020, this segment reported a pre-tax operating loss of \$1.6 million, compared with a \$0.8 million pre-tax loss incurred in the same period of the prior year.
- The Corporation’s 84% owned subsidiary, United Hydrocarbon International Corp. (“UHIC”), reported a pre-tax loss of \$134.5 million (2019 – earnings of \$9.0 million) for the first six months of 2020, essentially all of which relates to the fair value change of the royalty interest and its associated contingent bonus payments. Due to the COVID-19 pandemic and the associated drop in the price of oil during 2020 as well as material operational developments at Delonex Energy Limited, UHIC increased the discount rates and lowered the success probabilities along with the long-term oil price forecasts in determining the fair value of its royalty interest and associated contingent consideration. As a result, UHIC recorded a \$134.1 million fair value loss (2019 – gain of \$9.4 million) during the six months ended June 30, 2020, which is included in the June 2020 Interim Consolidated Financial Statements as “*Remeasurement of financial instruments*”.
- Dundee Sustainable Technologies Inc. (“Dundee Technologies”) incurred a pre-tax operating loss of \$1.2 million (2019 – \$1.7 million) during the first six months of 2020. Due to the outbreak of COVID-19, Dundee Technologies’ Thetford site was temporarily closed as a result of the measures taken by the Quebec provincial government on March 23, 2020. Operations have resumed in May 2020 with employees and contractors following the controls and practices that have been established on site. Dundee Technologies continues to expand the provision of technical services in the mining industry to evaluate processing alternatives using its state of the art metallurgy plant and skilled technical team. Dundee Technologies expects the primary driver in the coming years will be the GlassLock Process™, a patented process for the sequestration and stabilization of the arsenic often associated with copper, gold, silver or polymetallic deposits.
- Blue Goose Capital Corp. (“Blue Goose”) incurred a pre-tax loss of \$6.0 million during the first half of 2020 (2019 – \$7.9 million). The pre-tax net loss for the prior year included an operating loss of \$2.4 million incurred by its fish operation which Blue Goose exited in December 2019.
- AgriMarine Holdings Inc. (“AgriMarine”) expanded its sales to alternative markets at lower prices to relieve the overstocked position resulting from the slump in the fourth quarter of 2019. During the six months ended June 30, 2020, AgriMarine reported a pre-tax operating loss of \$1.7 million (2019 – \$2.6 million).

- During the first half of 2020, Dundee 360 Real Estate Corporation (“Dundee 360”) incurred a pre-tax loss of \$0.2 million (2019 – \$3.1 million) from its continuing operations. On May 30, 2019, the Corporation completed the sale of Dundee 360’s real estate brokerage division for cash consideration of \$5.0 million and recognized a \$0.1 gain on the sale transaction. Accordingly, operating results of the real estate brokerage division were classified as “*Discontinued operations*”. During 2019, Dundee 360 incurred a pre-tax loss of \$1.7 million from its discontinued operations for the period up to the completion of sale in May 2019.
- On March 27, 2019, Dundee Energy Limited (“Dundee Energy”) announced that Dundee Energy and certain of its subsidiaries filed an assignment for the benefit of creditors under the *Bankruptcy and Insolvency Act*. Following the filing for bankruptcy, the Corporation determined it lost control of Dundee Energy and recognized a loss of \$4.4 million from loss of control. This amount was included in the consolidated financial statements as “*Net income from investments*” during 2019.
- Following Dundee Energy’s bankruptcy filing in March 2019, all of the property of Dundee Energy vested in the trustee, including preference shares issued by Eurogas International Inc. (“Eurogas”). Accordingly, certain rights and entitlements attached to the preference shares were transferred to the trustee. As a result, the Corporation determined that it lost control over Eurogas and recognized a gain of \$3.6 million from deconsolidation during the six months ended June 30, 2019. This amount was included in the consolidated financial statements as “*Net income from investments*”. Following the loss of control, the Corporation classified its interest in Eurogas as an investment at FVTPL.

## OPERATING SUBSIDIARIES AS AT JUNE 30, 2020

		(000's)				Non-Controlling Interests	Carrying Value as at June 30, 2020

1. See note 27 “*Segmented Information*” to the June 2020 Interim Consolidated Financial Statements for a more detailed analysis of the carrying value of individual assets and liabilities attributed to each operating subsidiary.

2. See note 16 “*Non-Controlling Interest*” to the June 2020 Interim Consolidated Financial Statements for information regarding the carrying value of non-controlling interest in each subsidiary.

3. GCIC’s net assets exclude DGIM’s \$0.4 million equity investment in DUK.

## Segmented Results of Operations

The following discussion provides a more comprehensive analysis of the performance results of each of the Corporation’s operating subsidiaries and their impact to the consolidated operating results of the Corporation. The following information is presented in a manner that corresponds to the Corporation’s reportable business segments as presented in note 27 to the June 2020 Interim Consolidated Financial Statements.

### GOODMAN & COMPANY, INVESTMENT COUNSEL INC.

GCIC is a registered portfolio manager and exempt market dealer across Canada, and an investment fund manager in the provinces of Ontario, Quebec and Newfoundland. GCIC is a wholly-owned subsidiary of Dundee Global Investment Management Inc. (“DGIM”) which, in turn, is a wholly-owned subsidiary of Dundee Corporation. Dundee Goodman Merchant Partners (“DGMP”), a division of GCIC, arranges financing and provides advisory services to its clients, primarily in the resource sector.

*Assets Under Management*

<i>For the period ended June 30, 2020</i>	Three Months	Six Months
AUM at beginning of the period	\$ 36,823	\$ 45,464
<b>Transactions during the period ended June 30, 2020</b>		
Additions	15,005	30,398
Redemptions	(2,169)	(12,035)
Change in market values	18,837	4,669
Net change in managed assets	31,673	23,032
<b>AUM at end of the period</b>	<b>\$ 68,496</b>	<b>\$ 68,496</b>

AUM Breakdown		
Tax-sheltered investment products	\$	34,821
Mutual funds		15,728
Alternative investment products		17,947
	<b>\$</b>	<b>68,496</b>

Additions during the first half of 2020 were \$30.4 million, resulting from the successful launch of GCIC's most recent tax-sheltered limited partnership, *CMP 2020 Resource Limited Partnership*, as well as transfers into GCIC's alternative investment product. The contribution to the alternative investment product, totalling \$15.0 million, was sourced from a wholly-owned subsidiary of the Corporation.

Redemptions during the first six months of 2020 were \$12.0 million, the majority of which related to redemptions in *Dundee Global Resource Class*, an open-end mutual fund, following the rollover of the assets of the Corporation's 2018 tax-sheltered investment vehicle, *CMP 2018 Resource Limited Partnership*.

Market appreciation during the six months ended June 30, 2020 was \$4.7 million as valuations for metals and mining stocks improved with investors seeking exposure to the precious metals sector amid growing concerns over inflation. Rising inflation worries are due to the unprecedented amount of fiscal and monetary stimulus measures enacted worldwide to combat the negative economic impact inflicted by the COVID-19 pandemic.

In aggregate, AUM increased 51% to \$68.5 million at June 30, 2020, compared with AUM of \$45.5 million at December 31, 2019.

**RESULTS OF OPERATIONS**

As illustrated in the following table, during the six months ended June 30, 2020, GCIC incurred a net loss before income taxes attributable to owners of Dundee Corporation of \$1.6 million (2019 – \$0.8 million).

<i>For the six months ended June 30,</i>	2020	2019
Revenues		
Management and performance fees	\$ 428	\$ 559
Financial services	218	528
Interest and other	9	39
	655	1,126
Other items in net loss before tax		
Depreciation	(46)	(45)
General and administrative	(1,696)	(1,775)
Net income from investments	5	-
Share of loss from equity accounted investments	(556)	(52)
Interest expense	(4)	(5)
Net loss before taxes, Goodman & Company, Investment Counsel Inc.	<b>\$ (1,642)</b>	<b>\$ (751)</b>
<b>Net loss before taxes, Goodman &amp; Company, Investment Counsel Inc., attributable to:</b>		
Owners of Dundee Corporation	\$ (1,642)	\$ (751)
Non-controlling interest	-	-
Net loss before taxes, Goodman & Company, Investment Counsel Inc.	<b>\$ (1,642)</b>	<b>\$ (751)</b>

Management fee revenues were \$0.4 million during the first half of 2020, a decline of \$0.2 million from management fee revenues of \$0.6 million earned in the same period of the prior year. GCIC's management fee revenue is calculated and paid monthly, based on the fair value of AUM as determined on the last business day of each month. Management fee revenues were impacted by the lower amount of average AUM compared to the same period last year. The average AUM for the six-month period ended June 30, 2020 was \$45.5 million (2019 – \$62.1 million). During the first half of 2020, the average management fee rate on AUM was 1.88% (2019 – 1.80%). The change in the average management fee rate reflects the mix of assets managed, with client assets charged a higher management fee rate in a certain series of shares of the mutual fund.

In addition to management fee revenues, GCIC may also earn performance fee revenue. Performance fees are contingent on the market values of the underlying portfolio at a specified point in time, generally at calendar year end, or upon the conclusion of a limited partnership arrangement. GCIC may experience fluctuations in year-over-year revenues as performance fees are only recognized in earnings when the amount is highly probable and not likely to be reversed. There were no performance fees earned in the first half of 2020 and 2019.

During the six months ended June 30, 2020, GCIC recognized financial services revenue of \$0.2 million (2019 – \$0.5 million) from the services provided by DGMP.

During the six months ended June 30, 2020, this segment recognized a loss of \$0.6 million (2019 – \$0.1 million) from its share of loss from its equity investment in Dundee Securities Europe Limited (see “*Significant Investments in Accounted for Under the Equity Method – Dundee Securities Europe Limited*”). In addition, GCIC recognized a \$5,000 investment gain from its portfolio investments that were received as payment for financial services rendered during 2019.

During the six months ended June 30, 2020, general and administrative expenses decreased by 4% to \$1.7 million compared with the same period of 2019.

## UNITED HYDROCARBON INTERNATIONAL CORP.

UHIC is a privately-held Canadian junior exploration company that is focused on seeking opportunities internationally, both directly and indirectly, for the exploration, development and production of oil and natural gas. At June 30, 2020, the Corporation's carrying value of its 84% interest in UHIC was \$38.8 million.

UHIC's significant assets relate to oil and natural gas underlying a May 2012 production sharing contract ("PSC"), renewed in 2017, whereby the Republic of Chad granted United Hydrocarbon Chad Ltd. ("UHCL") the exclusive right to explore and develop oil and gas reserves in the DOC Block and the DOD Block (together the "Doba Basin"), and Block H. UHIC is entitled to the following:

- US\$20 million bonus upon UHCL achieving commercial production at Doba Basin;
- US\$30 million bonus upon UHCL achieving commercial production at Block H;
- 10% royalty on specified cash flows, pursuant to the terms of the PSC, generated by UHCL from Doba production; and
- 5% royalty on specified cash flows, pursuant to the terms of the PSC, generated by UHCL from Block H production.

The PSC was amended in November 2018 and ratified into law in July 2019, extending UHCL's exclusive rights to explore for oil and gas reserves in the Doba Basin and Block H by two years, now expiring in June 2022. Any declaration of commercial oil and gas discoveries up to the revised expiry date grants a 25-year period to develop and produce those reserves from the date of declaration.

The royalties are payable when the average quarterly price of Brent crude oil is greater than US\$45.00/bbl.

Under the terms of the share purchase agreement, dated May 10, 2017, UHCL's owner, Delonex Energy Limited ("Delonex"), committed to a US\$65 million comprehensive exploration program for the assets in Chad and a further US\$35 million investment in the Doba Basin should commerciality be achieved during the remaining life of the PSC. Delonex completed the acquisition of 1,300 square kilometers of 3D seismic surveys as well as 550 line kilometers of 2D seismic surveys in March 2018. Following the completion and interpretation of the seismic work in September 2018, Delonex mobilized a rig to the region and commenced the first phase of the exploration drilling program. Delonex completed the first phase in Block H as planned with the completion of six exploration wells. The exploration drilling established the presence of hydrocarbons in multiple wells and targets. Based on the success of the initial exploration program, Delonex commenced the next phase of exploration, having completed the acquisition and initial interpretation of additional seismic surveys comprising of 1,530 square kilometers of 3D seismic surveys and 800 line kilometers of 2D seismic surveys. The next phase of drilling ("Phase 2") will be based on the new seismic data and was in the planning stages at the onset of the COVID-19 pandemic and subsequent oil price collapse. Due to the COVID-19 pandemic and the significant decline in the price of oil, the commencement of the next phase of the program has been delayed and force majeure has been declared on the PSC, which has the effect of extending the expiry of the exploration license. In addition, Delonex has undergone significant management turnover in the second quarter of 2020, introducing a material degree of operational uncertainty going forward. All these factors increase the risk in estimating the fair value of the contingent bonus payments and royalty interest as described below.

In accordance with IFRS, UHIC is required to determine the fair value of certain assets, including the above-mentioned contingent bonus payments and potential royalty interests.

### *Contingent Proceeds Receivable – Escrow*

At closing of the 2017 share purchase agreement with Delonex, US\$9.5 million of cash consideration was placed in an escrow account, of which US\$6.9 million relates to security for any claims by Delonex for breaches against representations, warranties or covenants in the transaction agreement, or against any other indemnity provisions. The remaining US\$2.6 million held in escrow relates to the potential abandonment of 12 wells in the Doba Basin, with Delonex able to make claims against the escrow for costs associated with wells that are abandoned. Subject to certain conditions, any unspent amounts, up to US\$2.6 million, may be released to UHIC at the completion of the second escrow period, September 22, 2020, and the resolution of all other outstanding escrow indemnification matters.

At June 30, 2020, the fair value of these contingent escrowed proceeds receivable was revalued to US\$4.7 million or Cdn\$6.3 million, compared to US\$8.5 million or Cdn\$11.0 million at the end of December 31, 2019. Included in the net loss during the six months ended June 30, 2020 is a \$5.3 million loss relating to the change in the fair value of the contingent consideration attributable to potential legal expenses and abandonment costs; and a \$0.6 million gain relating to foreign exchange that is reflected in other comprehensive income.

#### *Contingent Bonus Payments*

In determining the fair value of the US\$50.0 million contingent bonus payments at June 30, 2020, UHIC applied a 11.3% (December 31, 2019 – 85%) probability in reaching successful first oil before March 31, 2023 (December 31, 2019 – before March 31, 2022) at the Doba Basin, and a 23.75% (December 31, 2019 – 65%) probability in reaching first oil at Block H before March 31, 2023 (December 31, 2019 – before March 31, 2022), appropriately discounted using a risk-adjusted rate of 23.3% (December 31, 2019 – 19.3%).

At June 30, 2020, the fair value of the contingent bonus payment was revalued to US\$5.3 million or Cdn\$7.2 million, compared to the contingent bonus payment of US\$24.5 million or Cdn\$31.9 million at the end of December 2019. Included in net loss during the six months ended June 30, 2020 is a \$28.5 million loss relating to the change in the fair value of the contingent bonus payment that is attributed to the increase in the discount rate, a one-year delay to first oil production and the decrease in the success probabilities, partially offset by a \$2.4 million gain relating to the change in the fair value of the contingent bonus payment that is attributed to the passage of time; and a \$1.4 million gain relating to foreign exchange that is reflected in other comprehensive income.

#### *Royalty Interest*

In determining the fair value of the royalty interests at June 30, 2020, UHIC applied a 11.3% (December 31, 2019 – 47.5%) success probability to the Doba Basin cash flows and a 23.75% (December 31, 2019 – 47.5%) success probability to Block H cash flows, determined using the forward Brent crude oil prices as published by the Intercontinental Exchange on June 30, 2020, and discounted using a risk-adjusted rate of 23.3% (December 31, 2019 – 19.3%). In addition, the valuation model incorporates resource estimates derived from independently prepared technical reports by a global petroleum consulting firm specializing in resource assessments. The reports were prepared in 2016 and disclose only contingent and prospective resources, both of which are highly speculative and lack the degree of confidence to be classified as reserves. More work is required to demonstrate that these resources can ever be commercially recoverable.

At June 30 2020, the royalty interest was revalued to US\$21.3 million (December 31, 2019 – US\$97.0 million) to account for the passage of time, the reduction in success probabilities and oil prices, a one-year delay to first oil production and the increase to the discount rate; and to Cdn\$29.0 million (December 31, 2019 – Cdn\$126.0 million) to reflect foreign currency fluctuations. Included in the net loss during the six months ended June 30 2020 is a \$110.3 million loss relating to the change in the fair value of the royalty interest that is attributed to the change in the discount rate, success probabilities, the one-year production delay, and long-term oil price forecasts obtained in 2020, offset by a \$8.3 million gain relating to the change in the fair value of the royalty interest that is attributed to the passage of time; and a \$5.0 million gain relating to foreign exchange that is reflected in other comprehensive income.

UHIC continues to monitor the state of the global oil markets and the effect of possible operational developments at Delonex. A low Brent crude oil price and/or negative operational developments at Delonex could have a material adverse effect on the carrying value of UHIC's royalty interest and associated contingent consideration.

#### **RESULTS OF OPERATIONS**

As a result of changes in the fair value of the contingent proceeds, bonuses and royalty interest, UHIC is reporting a net loss before taxes during the three and six months ended June 30, 2020 of \$17.0 million and \$134.5 million, respectively, including a \$16.8 million and \$134.1 million loss, respectively, on remeasurement of the financial instruments as described above. General and administrative expenses of \$0.2 million in the three months ended June 30, 2020 and \$0.4 million in six months ended June 30, 2020 were consistent with 2019.

	For the three months ended		For the six months ended	
	June 30, 2020	June 30, 2019	June 30, 2020	June 30, 2019

<b>Net (loss) earnings before taxes, United Hydrocarbon International Corp.</b>	<b>\$ (16,978)</b>	<b>\$ 3,003</b>	<b>\$ (134,469)</b>	<b>\$ 9,004</b>

## CHANGES IN FINANCIAL CONDITION

### Cash Resources

At June 30, 2020, UHIC held cash of \$3.8 million (December 31, 2019 – \$4.4 million). UHIC does not currently generate cash flows from its business activities. Existing cash resources are expected to cover UHIC’s cash requirements as it monitors Delonex’s commitments made under the sales agreement.

UHIC’s residual assets, including its royalty interest and its entitlement to a first oil production bonus, are based on contingent and prospective oil and gas resources that are to be explored and developed in the Republic of Chad by Delonex, the operator of UHCL. There are a number of potential material uncertainties that, should they arise, would raise significant doubt as to UHIC’s ability to recover its royalty interest and first oil bonus receivable carried value. These uncertainties include, but are not limited to, the current economic and political conditions in Africa, the ongoing volatility of oil prices, the inherent risk in the oil and gas industry to finding commercial quantities of oil, negative operational developments at Delonex, and UHCL’s ability to access key oil export infrastructure to export any oil or gas discoveries. There can be no assurance that UHCL will be successful in its endeavours.

## DUNDEE SUSTAINABLE TECHNOLOGIES INC.

Dundee Technologies is engaged in the development and commercialization of environmentally responsible technologies for the treatment of complex materials from the mining industry. Through the development of patented, proprietary processes, Dundee Technologies extracts precious and base metals from ores and concentrates, while stabilizing contaminants such as arsenic, antimony and cadmium. Dundee Technologies’ processes allow for extraction and/or stabilization with conventional processes because of metallurgical issues, cost or environmental considerations.

Dundee Technologies’ primary driver in the coming years will be the GlassLock Process™. Using this technology, arsenic, which is a significant and dangerous waste product from the mining industry, can be safely and permanently vitrified in a glass form for disposal at the mine site, smelter or in remediation situations. Dundee Technologies has recently finalized the demonstration of its GlassLock Process™ for a metal’s processing facility in Africa and the results of this demonstration will be key to moving other projects forward. There are numerous projects in the development pipeline.

Dundee Technologies is also commercializing the CLEVR Process™ to address the growing pressure from communities and governmental authorities over the use of cyanide in gold extraction. Dundee Technologies is working with customers that seek alternative processes that can extract gold without the environmental liabilities associated with cyanide, while still maintaining control over the deleterious elements such as arsenic, mercury and antimony. Dundee Technologies is offering a competitive alternative to the cyanidation process.

The CLEVR Process™ has been recognized as a “green technology” for which Dundee Technologies was originally awarded a \$5.0 million grant by the Government of Canada, through its Sustainable Development Technology Canada Fund, for the construction and operation of the demonstration plant. In 2018, Dundee Technologies announced a further award of \$1.25

million for continued development of its Glasslock Process™. The funding is assisting Dundee Technologies in the construction and operation of its industrial scale plant that is currently in operation at a customer’s mineral processing facility.

Dundee Technologies has identified over 100 gold projects that face significant concerns due to cyanide use and other environmental or metallurgical constraints. Dundee Technologies is focused on advancing discussions with major mining companies on building alternative processing and stabilization processes. Dundee Technologies continues to process test material for a number of customers and, assuming successful results, it plans to negotiate business terms with those customers for the commercialization of its technologies.

Dundee Technologies has protected its intellectual property by filing patents during the development of its technologies. To date, Dundee Technologies has applied for or has been granted patents on 11 different processes, and it has 49 patents granted, published, pending or filed in 20 different countries. These patents expire between 2022 and 2036.

In January 2020, Dundee Technologies consolidated its shares on a one for 20 basis. As a result, the Corporation and Dundee Resources Limited (“DRL”), a wholly-owned subsidiary of the Corporation, collectively hold 8.9 million subordinate voting shares and 2.5 million multiple voting shares as at June 30, 2020, representing a 62% equity interest and an 84% voting interest. Subsequent to June 30, 2020, Dundee Technologies announced debt settlement agreements with DRL and Investissement Québec (see “Changes in Financial Position”). According to the terms of the debt settlement agreements with DRL, Dundee Technologies converted amounts due to DRL of \$13.4 million into 40.6 million subordinate voting shares of Dundee Technologies at a conversion price of \$0.33 per share that was based on the 20-day volume-weighted average price of the shares. Following the completion of the debt settlement agreements, the Corporation and DRL own in aggregate 49.5 million subordinate voting shares and all of the 2.5 million multiple voting shares of Dundee Technologies, representing an 82% equity interest and an 87% voting interest.

#### Technical Services

Dundee Technologies continues to build its technical services business and, under the terms of these contracts, Dundee Technologies will provide technical services in markets such as lithium, cobalt, nickel, magnesium, graphite, fertilizer and gold. Proceeds from these contracts will allow Dundee Technologies to partially offset developmental and operating costs related to its primary technologies.

#### RESULTS OF OPERATIONS

During the six months ended June 30, 2020, Dundee Technologies incurred a net loss before taxes of \$1.2 million, compared with a net loss before taxes of \$1.7 million in the same period of the prior year.

<i>For the six months ended June 30,</i>	2020	2019
Revenues		
Technical services	\$ 1,392	\$ 549
Interest, dividends and other	129	-
	1,521	549
Cost of sales	(1,291)	(494)
Other items in net loss before taxes		
Depreciation	(319)	47
General and administrative	(845)	(1,383)
Interest expense	(315)	(372)
Foreign exchange gain	48	2
Net loss before taxes, Dundee Sustainable Technologies Inc.	<b>\$ (1,201)</b>	<b>\$ (1,651)</b>
<b>Net loss before taxes, Dundee Sustainable Technologies Inc. attributable to:</b>		
Owners of Dundee Corporation	\$ (365)	\$ (721)
Non-controlling interest	(836)	(930)
Net loss before taxes, Dundee Sustainable Technologies Inc.	<b>\$ (1,201)</b>	<b>\$ (1,651)</b>

During the six months ended June 30, 2020, Dundee Technologies earned revenues of \$1.4 million (2019 – \$0.5 million) from the provision of technical services to customers in the mining industry to evaluate processing alternatives using its proprietary technologies and for general mineral processing services.

Dundee Technologies incurred operating expenses of \$2.1 million during the six months ended June 30, 2020 (2019 – \$1.9 million), of which \$1.3 million (2019 – \$0.5 million) is directly attributable to the provision of technical services, including labour and associated overhead, and which has been designated as “*Cost of sales*” in the consolidated statements of operations, and the balance of \$0.8 million (2019 – \$1.4 million) in general and administrative costs. As the business activities of Dundee Technologies mature, it is expected that more of its highly specialized technical resources will be allocated to the provision of revenue generating activities. In addition, included in the six months ended June 30, 2019, net loss before taxes was an adjustment to the amortization of intangible assets of \$0.1 million.

#### *CHANGES IN FINANCIAL POSITION*

Dundee Corporation advanced \$1.1 million to Dundee Technologies during the six months ended June 30, 2020 in order to supplement working capital requirements. At June 30, 2020, Dundee Technologies had cash of \$1.2 million and it had obligations, other than obligations due to Dundee Corporation, of \$8.8 million. Dundee Technologies continues to pursue financing alternatives to fund its operations. Although there is no assurance that these efforts will be successful, Dundee Technologies believes that if its ongoing business development activities provide favorable results, it will be able to secure the necessary financing through additional grants or the issuance of debt or equity in either the private or public markets.

Dundee Technologies holds a convertible loan dated May 15, 2015 with Investissement Québec (“IQ”) in an amount of \$4.0 million (the “IQ Loan”) with a maturity date of May 2020. The IQ Loan bears interest at a rate of 8% per annum and can be converted at the holder’s option into subordinate voting shares of Dundee Technologies. Subsequent to June 30, 2020, Dundee Technologies entered into a debt settlement agreement with IQ for the conversion of \$1.4 million accrued interest on the IQ Loan into 4.3 million subordinate voting shares of Dundee Technologies at conversion price of \$0.33 per share. The maturity date of the remaining \$4.0 million IQ Loan has been amended and extended to July 13, 2023.

#### *COVID-19*

The first half of 2020 was marked by the severity of the coronavirus global outbreak. The extent and duration of impacts that the coronavirus may have on Dundee Technologies’ operations, including suppliers, contractors, service providers, employees and on global financial markets, is not known at this time but could be material. The Thetford site was temporarily closed as a result of the measures taken by the Quebec provincial government on March 23, 2020. Operations resumed in May 2020 with employees and contractors following the controls and practices that have been established on site. Dundee Technologies is monitoring developments and has taken appropriate actions in order to mitigate the risk, including safety procedures and contingency plans to continue operations at its plant in Thetford Mines.

### **BLUE GOOSE CAPITAL CORP.**

Blue Goose is a privately-held Canadian company focused on the production, distribution and sale of organic and natural beef. Blue Goose owns a significant position in agricultural land in British Columbia. At June 30, 2020, Dundee Corporation held 89% of the issued and outstanding common shares of Blue Goose

#### *RESULTS OF OPERATIONS*

During the first half of 2020, Blue Goose incurred a pre-tax loss of \$6.0 million, compared with a pre-tax loss of \$7.9 million incurred in the same period of the prior year. Operating results for the current year include a \$0.5 million of wage subsidy under the Canada Emergency Wage Subsidy (“CEWS”) program and a \$0.6 million gain recognized from the disposition of certain machinery and equipment. The prior year’s results included a net loss of \$2.4 million incurred by the fish operation, which Blue Goose exited in December 2019.

<i>For the six months ended June 30,</i>		2020	2019

### *Contribution Margins*

During the six months ended June 30, 2020, Blue Goose incurred a negative contribution margin of \$2.1 million (2019 – \$2.6 million) on total sales of \$5.6 million (2019 – \$7.2 million). As a result of exiting its fish operation in December 2019, there was no further contribution margin recognized from its operation during the first half of 2020 (2019 – negative contribution of \$1.8 million). The contribution margin, before adjusting for fair value changes, was \$0.3 million in 2020 (2019 – \$1.5 million).

<i>For the six months ended June 30,</i>				2020
	Beef	Fish	Chicken	Total
Sales	\$ 5,641	\$ -	\$ -	5,641

Fair value changes				
Fair value changes in livestock	2,035	(1,005)	-	1,030
Cost of sales, fair value harvested	(4,241)	(905)	-	(5,146)
	(2,206)	(1,910)	-	(4,116)
<b>Contribution margin</b>	<b>\$ (809)</b>	<b>\$ (1,815)</b>	<b>\$ (10)</b>	<b>(2,634)</b>

During the first half of 2020, sales in the beef division were lower by \$0.7 million compared with the same period of the prior year. This was attributable to the temporary closures of some processing plants in the province as a result of COVID-19. Management continues to monitor the changes in the market and how it could impact its operating results and future forecasts. Period cost increased by \$0.3 million to \$5.3 million in the current year compared with the prior year. The higher period cost in the current year is due to lower recovery of costs resulting from lower hay production.

## CHANGES IN FINANCIAL CONDITION

### Changes in Livestock Carrying Values

	Livestock		Inventory and Supplies		Total
Carrying value, beginning of the period	\$	19,688	\$	2,178	\$ 21,866
<b>Transactions during the six months ended June 30, 2020</b>					
Net additions		785		526	1,311
Herd growth - physical changes		1,940		-	1,940
Herd growth - price changes		(488)		-	(488)
Net of product processed		(3,835)		(1,849)	(5,684)
<b>Carrying value, end of the period</b>	<b>\$</b>	<b>18,090</b>	<b>\$</b>	<b>855</b>	<b>\$ 18,945</b>

Compared to December 2019, the increase in herd size at Blue Goose's beef division as at June 30, 2020 was attributable to calves born in the first half of 2020.

<i>(number of animals)</i>	June 30, 2020	Cattle herd as at December 31, 2019
Breeding cattle and bulls	7,014	6,571
Immature livestock and feeder cattle	7,436	5,276
	<b>14,450</b>	<b>11,847</b>

### Corporate Debt in Blue Goose

Blue Goose and its subsidiaries have entered into several borrowing arrangements, pursuant to which Blue Goose has borrowed an aggregate of \$45.4 million as of June 30, 2020 (December 31, 2019 – \$46.1 million). Other than as described below, since December 31, 2019, there have been no significant changes to the terms of credit facilities and other debt instruments available to Blue Goose. A detailed description of the nature of each of Blue Goose's borrowing facilities is provided in note 14 to the 2019 Audited Consolidated Financial Statements.

On May 14, 2020, the maturity dates of two loan agreements with a Canadian Schedule I Chartered Bank were amended from a fixed date to when the lender demands repayment. As of June 30, 2020, Blue Goose borrowed an aggregate amount of \$4.0 million from these loan agreements.

On May 22, 2020, Blue Goose entered into a two-year \$0.5 million credit facility with Farm Credit Canada ("FCC"). This facility, which matures on May 2, 2022, bears interest at FCC's variable mortgage rate, which is currently at 3.45%. As of June 30, 2020, Blue Goose has not drawn any amount against this credit facility.

Dundee Agricultural Corporation, a wholly-owned subsidiary of the Corporation, extended its limited guarantee of \$10.0 million to all of Blue Goose's outstanding loans with FCC, effective May 22, 2020. This limited guarantee was previously applicable only to a fixed-term real property loan facility established in September 2016. Total amount owing to FCC at June 30, 2020 was \$14.7 million.

Other than as described above, the lending institutions to Blue Goose do not have recourse to Dundee Corporation in respect of any of the amounts borrowed under these arrangements.

### Cash Resources

At June 30, 2020, Blue Goose had cash and receivables of \$1.3 million and it had payables and liabilities, other than corporate debt and amounts otherwise due to Dundee Corporation, of \$4.0 million. During the first half of 2020, the Corporation advanced \$3.3 million to Blue Goose. Without the continued financial support of Dundee Corporation, there can be no assurance that Blue

Goose will generate sufficient cash flows or otherwise have access to the necessary funding to maximize its business opportunities.

## AGRIMARINE HOLDINGS INC.

AgriMarine is a private company engaged in fish farming activities using both conventional netting systems and proprietary aquaculture technologies. AgriMarine has three principal assets: “*West Coast Fishculture (Lois Lake) Ltd.*” (“WCF”), which owns and operates a Steelhead salmon fish farm in Powell River, British Columbia; a suite of patents pertaining to a closed-containment tank technology used to rear finfish; and “*AgriMarine Technologies Inc.*” (“ATI”), an engineering company that continues to develop and improve proprietary aquaculture technologies, supports WCF internal needs and provides engineering services to third-party fish farm operators. As at June 30, 2020, the Corporation held a 100% interest in AgriMarine.

### RESULTS OF OPERATIONS

During the six months ended June 30, 2020, AgriMarine incurred a pre-tax loss attributable to owners of Dundee Corporation of \$1.7 million, compared with a pre-tax net loss attributable to owners of Dundee Corporation of \$2.6 million in the same period of 2019. The 2019 operating results included a \$0.7 million write-off of fish inventory and intangible assets.

<i>For the six months ended June 30,</i>	2020	2019
Sales revenue		
Sales	\$ 4,084	\$ 2,551
Interest and other	181	25
	4,265	2,576
Cost of sales	(3,994)	(2,458)
Other items in net loss before taxes		
Depreciation	(645)	(1,358)
General and administrative	(1,190)	(1,244)
Interest expense	(108)	(88)
Foreign exchange (loss) gain	(13)	14
Net loss before taxes, AgriMarine Holdings Inc.	<b>\$ (1,685)</b>	<b>\$ (2,558)</b>
<b>Net loss before taxes, AgriMarine Holdings Inc. attributable to:</b>		
Owners of Dundee Corporation	\$ (1,685)	\$ (2,558)
Non-controlling interest	-	-
Net loss before taxes, AgriMarine Holdings Inc.	<b>\$ (1,685)</b>	<b>\$ (2,558)</b>

### Contribution Margins

During the six months ended June 30, 2020, AgriMarine generated revenue of \$4.1 million (2019 – \$2.6 million) and a contribution margin of \$0.1 million (2019 – \$0.1 million).

<i>For the six months ended June 30,</i>	2020	2019
Revenues	\$ 4,084	\$ 2,551
Cost of sales	(3,994)	(2,458)
<b>Contribution margin</b>	<b>\$ 90</b>	<b>\$ 93</b>

At WCF, the volume of fish harvested during the six months ended June 30, 2020 was 647,000 kilograms (2019 – 303,000 kilograms), translating into 509,000 kilograms or 1.1 million pounds (2019 – 255,000 kilograms or 562,000 pounds) of product sold, at an average selling price of \$8.01 per kilogram or \$3.64 per pound (2019 – \$9.47 per kilogram or \$4.30 per pound). A softer market for fish and other proteins, beginning in the fourth quarter of 2019, resulted in an overstocked position which persisted in the first quarter of 2020. While markets showed signs of rebounding in the first quarter of 2020, WCF expanded sales to alternative markets at lower prices to relieve the overstocked position. Due to the onset of COVID-19 in the first quarter of 2020, WCF has continued to supply into these alternative, lower price markets to maintain sales volume.

## CHANGES IN FINANCIAL CONDITION

	Biological	Inventory and	Total
	Assets	Supplies	
Carrying value, beginning of the period	\$ 4,522	\$ 213	\$ 4,735
<b>Transactions during the six months ended June 30, 2020</b>			
Net additions	2,064	26	2,090
Net of product processed	(3,873)	-	(3,873)
<b>Carrying value, end of period</b>	<b>\$ 2,713</b>	<b>\$ 239</b>	<b>\$ 2,952</b>

As at June 30, 2020, the carrying value of AgriMarine's biological assets was \$2.7 million (December 31, 2019 – \$4.5 million). This reflects a reduction in the overstocked position at December 31, 2019, as well as the normal seasonal cycle, which slows growth during cold winter months of the year.

Dundee Corporation advanced \$0.2 million to AgriMarine during the first half of 2020 in order to supplement working capital requirements and fund capital expenditures. As at June 30, 2020, AgriMarine had cash and receivables of \$0.5 million and liabilities of \$4.3 million, excluding amounts due to Dundee Corporation. Without the continued financial support of Dundee Corporation, there can be no assurance that AgriMarine will have access to the necessary cash to carry out its current business plan.

AgriMarine's principal focus remains the achievement of sustainable profitability for its WCF farming operation. Operating costs have reduced in accordance with expectations as operations have streamlined.

While an increase in scale of operations to the maximum permitted by WCF's licenses would reduce production costs per kilogram, until such increase is viable, management is committed to maximizing efficiency and output from the existing closed-containment configuration. WCF is uniquely positioned as a 100% closed-containment operation.

In the meantime, ATI is a cost centre that continues to provide technical support for WCF operations and works on proving the scientific and commercial viability of its closed-containment tank technology. This activity is of strategic importance for future initiatives. ATI currently relies on WCF cash flows to fund its operations.

## DUNDEE 360 REAL ESTATE CORPORATION

Dundee 360 is a real estate company offering integrated management services in the development, marketing, sales and project administration of high-end single purpose and mixed-use, residential and recreational real estate assets. Dundee 360 also provides services to hotel owners with a focus on asset and capital management, project management and financial reporting. At June 30, 2020, Dundee 360 was a wholly-owned subsidiary of the Corporation.

Prior to the sale of the real estate brokerage division in May 2019, Dundee 360 held the Canadian franchise license to operate Sotheby's International Realty Canada ("Sotheby's").

### RESULTS OF OPERATIONS

During the six months ended June 30, 2020, Dundee 360 incurred a pre-tax loss of \$0.2 million (2019 – \$3.1 million) from its continuing operations. The year-over-year decrease in pre-tax loss is mainly attributable to the closure of the Montreal office in the second quarter of 2019 and the recognition of \$0.3 million share of income from its real estate joint ventures during the first half of 2020, compared with \$11,000 share of income from the same period of the prior year. The share of \$0.3 million income from real estate joint ventures during the current year is primarily due to the completion and delivery of residential units in Edenarc, France.

Results in the first half of 2019 also included a pre-tax loss of \$1.7 million relating to its real estate brokerage division, which was classified as discontinued operations following the sale commitment in the first quarter of 2019. The sale transaction of the division was completed in May 2019 for cash consideration of \$5.0 million and recognition of a \$0.1 million gain during the second quarter of 2019.

	For the six months ended June 30, 2020	For the six months ended June 30, 2019		
		Continuing Operations	Discontinued Operations	Total

<b>Net loss before taxes, Dundee 360 Real Estate Corporation</b>	<b>\$ (221)</b>	<b>\$ (3,126)</b>	<b>\$ (1,670)</b>	<b>\$ (4,796)</b>

During the first half of 2020, Dundee 360 generated revenues of \$0.2 million (2019 – \$0.5 million) from its continuing operations. The decrease in year-over-year revenues is primarily due to the closure of project management services for hotel owners, as well as a reduction in management fees earned and rental revenue.

Compared with the same period of the prior year, general and administrative expense from its continuing operations for the six months ended June 30, 2020 decreased from \$2.9 million to \$0.5 million. Year-over-year decrease is mainly due to the one-time termination expenses related to the closure of the Montreal office in 2019.

Share of income from its real estate joint venture for the six months ended June 30, 2020 was \$0.3 million (2019 – \$11,000). The increase in share of income is attributable to revenue from sales and delivery of residential units in Edenarc, France.

A more comprehensive description of each of Dundee 360's current projects is provided on pages 20 and 21 of the MD&A accompanying the 2019 Audited Consolidated Financial Statements.

#### *CHANGES IN FINANCIAL CONDITION*

At June 30, 2020, Dundee 360 had cash and receivables of \$1.5 million and its liabilities, other than amounts due to Dundee Corporation, were \$2.3 million. Dundee 360 is currently implementing strategies to monetize various international real estate development interests in order to meet its liabilities. Without the financial support of the Corporation, there can be no assurance that Dundee 360 will have access to the necessary funding to carry out its current business plan.

## **DUNDEE ENERGY LIMITED**

Dundee Energy was a Canadian-based company that held interest, both directly and indirectly, in producing oil and natural gas assets in southern Ontario. On March 27, 2019, Dundee Energy announced that it and certain of its subsidiaries had filed an assignment for the benefit of creditors under the *Bankruptcy and Insolvency Act*. In bankruptcy, the property of Dundee Energy vested in the trustee, following which the Corporation lost control of Dundee Energy and the associated net assets were subsequently deconsolidated, resulting in a \$4.4 million loss recorded as “*Net income from investments*” during the six months ended June 30, 2019 in the consolidated financial statements. Included in the \$4.4 million loss was a \$5.3 million foreign exchange currency loss from Dundee Energy's equity accounted investment, which was previously recorded as other comprehensive loss to net earnings during the six months ended June 30, 2019.

## RESULTS OF OPERATIONS

Prior to loss of control in March 2019, Dundee Energy incurred a pre- tax loss of \$0.2 million from its operations. There is no further loss recognized subsequent to the loss of control in March 2019.

<i>For the six months ended June 30, 2019</i>

## EUROGAS INTERNATIONAL INC.

Eurogas is a publicly-traded (CSE: EI) oil and natural gas exploration company. Eurogas holds an approximate 5.625% royalty-like working interest in the Sfax offshore permit (the “Sfax Permit”), located in the shallow Mediterranean waters in the Gulf of Gabes, offshore Tunisia and southeast of the city of Sfax. On February 1, 2019, Panoro Energy ASA, the operator of the Sfax Permit, announced the renewal of the Sfax Permit for an additional three-year period extending to December 8, 2021, subject to the precondition of fulfilling the outstanding drilling obligation. In March 2020, Panoro declared force majeure for the Sfax Permit after the Tunisian government imposed travel restrictions throughout the country due to the COVID-19 pandemic. This results in a delay to drill the exploration commitment well.

In addition, Eurogas has issued preference shares from treasury with a par value of \$32.2 million. Prior to Dundee Energy’s filing of bankruptcy on March 27, 2019, the preference shares were held by Dundee Energy and were subject to demand by Dundee Energy at any time, together with unpaid dividends thereon amounting to \$15.3 million at June 30, 2020 (December 31, 2019 – \$14.7 million). Following the filing of bankruptcy, all of Dundee Energy’s property, including the preference shares, vested in the trustee by operation of law, making the trustee the beneficial owner of Dundee Energy’s property. As a result, the Corporation determined that it lost control over Eurogas and recognized a gain of \$3.6 million during the six months ended June 30, 2019, recorded as “*Net income from investments*” in the consolidated financial statements. The Corporation classified its interest in Eurogas as an investment at FVTPL following the loss of control.

At June 30, 2020 and August 13, 2020, the trustee had not exercised its right to redeem the preference shares, demand payment of the associated cumulative dividends outstanding, or exercise its entitlement to elect a majority of the members of the Board of Directors of Eurogas

## RESULTS OF OPERATIONS

Prior to loss of control in March 2019, Eurogas incurred a pre-tax loss of \$0.1 million from its operations. The Corporation did not recognize any loss from Eurogas following the loss of control in March 2019.

### CHANGES IN FINANCIAL CONDITION

Dundee Corporation has provided Eurogas with a \$5.0 million revolving term credit facility, pursuant to which Eurogas has agreed to pay interest at a rate per annum equal to the prime lending rate for loans as set out by a Canadian Schedule I Chartered Bank, plus 1.25%. At June 30, 2020, Eurogas had drawn \$6.3 million (December 31, 2019 – \$6.1 million) against this facility. Although Eurogas has exceeded amounts available pursuant to these arrangements, Dundee Corporation has not demanded payment. During 2019, the Corporation fully impaired the receivable related to this credit facility and continues to carry the receivable from Eurogas at \$nil at the end of June 2020.

### SIGNIFICANT INVESTMENTS ACCOUNTED FOR UNDER THE EQUITY METHOD

The Corporation holds investments that are accounted for using the equity method and these investments are separately disclosed in the Corporation's consolidated statements of financial position as "Equity Accounted Investments". These investments are initially recorded at the Corporation's cost of acquisition. Subsequently, the original cost of each investment is increased or decreased in proportion to the Corporation's share of earnings or losses generated by the investee and reflect the Corporation's share of the investee's other comprehensive income or loss. The Corporation assesses the resulting carrying value every period for possible impairment by comparing its equity accounted carrying value to the Corporation's determination of the estimated recoverable amount of its investment. If the carrying value of an equity accounted investment exceeds its estimated recoverable amount, the investment's carrying value is reduced to the expected recoverable amount and an impairment loss is recognized.

#### Equity Accounted Investments at June 30, 2020

At June 30, 2020, the aggregate carrying value of the Corporation's investments that are accounted for using the equity method was \$22.7 million (December 31, 2019 – \$28.7 million). In addition, the Corporation accounts for its investments in real estate joint ventures on an equity basis. These investments had a carrying value of \$6.8 million at June 30, 2020 (December 31, 2019 – \$6.4 million).

## Significant Developments in Equity Accounted Investments

A full description of the nature of business activities of each of the Corporation's equity accounted investments is provided on pages 25 through 29 of the MD&A accompanying the 2019 Audited Consolidated Financial Statements.

### Parq Equity Limited Partnership ("PELP")

The Corporation holds a 23% economic interest in PELP. PELP owns a world-class casino resort ("Parq Vancouver"), the only casino in the downtown Vancouver core, with 600 slot machines and 75 gaming tables. Located immediately adjacent to the B.C. Place Stadium, Parq Vancouver also includes two Marriott-branded luxury hotels with 517 rooms, a 60,000 square foot conference centre, a spa, five restaurants, three lounges and a parking facility with 1,069 spaces.

Parq Vancouver opened its doors on September 29, 2017 and it became fully operational in March 2018. The initial ramp-up of operations had been slower than anticipated due to a number of factors, including the business impact of new anti-money laundering regulations applicable to casinos in British Columbia, which were implemented in January 2018. Parq Vancouver continues to operate in a challenging environment due to these regulations. With the outbreak of COVID-19 in early 2020, Parq Vancouver's gaming activities remain suspended, along with decrease in hotel and conference activities. These developments are expected to significantly impact PELP's financial results in the coming quarters.

The Corporation currently carries its equity investment in Parq Vancouver at \$nil and cannot recognize any share of loss from this investment while its reported value in the statement of financial position remains zero. The Corporation can only recognize future profits after its share of future profits equals to or exceeds the share of losses not yet recognized. Accordingly, the Corporation discontinued recognizing its share of losses subsequent to June 30, 2018. At June 30, 2020, net unrecognized losses attributable to the Corporation are \$69.3 million (December 31, 2019 – \$56.3 million).

Summary of operating results of Parq Vancouver during the three and six months ended June 30, 2020 and 2019 are as follows:

*(in millions of dollars)*

Source of revenue and other items in net loss	For the three months ended		For the six months ended	
	June 30, 2020	June 30, 2019	June 30, 2020	June 30, 2019
Resort operations:				
Revenue	\$ 0.1	\$ 41.6	\$ 32.4	\$ 79.7
Expenses	(4.1)	(36.6)	(34.1)	(73.2)
Operating income before amortization	(4.0)	5.0	(1.7)	6.5
Amortization	(8.0)	(7.9)	(16.0)	(15.6)
Deferred taxes	2.6	1.4	3.6	2.3
Interest expense	(19.7)	(19.0)	(39.2)	(50.4)
Foreign exchange gain	-	(4.6)	0.1	7.3
Loss from fair value changes in derivative instruments	-	-	-	(3.8)
Gain on termination of derivative instruments	-	-	-	0.1
Restructuring and financing expenses	(2.8)	(11.3)	(3.4)	(11.3)
Gain on conversion of preference units	-	-	-	-
<b>Net loss</b>	<b>\$ (31.9)</b>	<b>\$ (36.4)</b>	<b>\$ (56.6)</b>	<b>\$ (64.9)</b>

Parq Vancouver incurred a net loss of \$56.6 million during the first half of 2020 (2019 – \$64.9 million). During the same period, operating loss was \$1.7 million (2019 – operating income of \$6.5 million). Included in the current period net loss is amortization of \$16.0 million (2019 – \$15.6 million).

Interest expense on debt and preferred units, including accretion and financing expenses, was \$39.2 million during the first half of 2020 (2019 – \$50.4 million).

Included in net loss for the first half of 2019 are changes in foreign exchange and fair value of derivative instruments, both of which were associated with Parq Vancouver’s US dollar denominated project financing arrangement for the development of the project. The derivative instruments were terminated during the six months ended June 30, 2019, resulting in a gain of \$0.1 million. During the six months ended June 30, 2019, Parq Vancouver recognized a \$7.3 million foreign exchange gain and a \$3.8 million loss on fair value changes in derivative instruments.

A key aspect of the Corporation’s investment in Parq Vancouver is the refinancing of existing debt with an interest burden commensurate with an operating entity and free of construction risk. On May 10, 2019, the Corporation announced that Parq Vancouver successfully completed the refinancing of its capital structure. The transaction included the refinancing of the first lien and second lien loans with a fixed rate long-term financing structure denominated in Canadian dollars, thereby significantly reducing the interest payments, covenant requirements and eliminating foreign exchange exposure. Parq Vancouver recognized a loss of \$11.3 million during the second quarter of 2019 relating to restructuring and financing expenses.

Parq Vancouver may require additional injections of cash from its equity partners in order to fund debt-service charges. There can be no assurance that the Corporation and its equity partners will have access to the necessary capital to fund any shortfalls. The Corporation continues to carefully monitor its investment in Parq Vancouver.

#### ***Android Industries, LLC (“Android”)***

The Corporation holds a 20% interest in Android, a private company and leading high technology-enabled assembler and sequencer of complex assemblies for the automotive industry, headquartered in Michigan, United States. Android has established a global footprint with facilities in the United States, Canada, Mexico, Spain, Brazil, Turkey, Italy and China.

The current COVID-19 pandemic has led to a significant slowdown in Android’s global business operations with several of its customers reducing their operating levels and shutting down their plants. Despite significant uncertainties surrounding the situation, Android continues to engage with its customers. During the second quarter of 2020, Android’s facilities were ramping up their operations.

Prior to the COVID-19 outbreak, Android had been steadily executing on a number of new and strategic multi-year manufacturing contracts, with the associated production deployed at several of Android's existing and new production facilities. The capital requirements associated with these contracts were significant and new debt capital was arranged to help fund the contractual commitments, with the vast majority of it deployed in 2017 and 2018. Ongoing capital requirements in 2020 and beyond are expected to be funded from cash flow from operations.

During the six months ended June 30, 2020, the Corporation recognized a loss of \$0.9 million (2019 – \$3.7 million) as its share of loss from its investment in Android.

***Dundee Sarea Acquisition I Limited Partnership (“Dundee Sarea Fund”)***

Dundee Sarea Fund was created to use the capital advanced by its limited partners to invest in companies requiring turn-around expertise in North America and Europe, with a focus on manufacturing, distribution, industrial products, agriculture, oil & gas and forestry-related industries. At June 30, 2020, the Corporation committed capital of \$21.2 million and contributed \$23.3 million in Dundee Sarea Fund.

At June 30, 2020, Dundee Sarea Fund's sole investment consists of a 90.1% ownership in Redecam Group S.p.A (“Redecam”). Based in Milan, Italy, Redecam designs, manufactures and installs highly engineered air pollution control solutions helping customers all over the globe meet their air emission reduction targets rapidly and cost-effectively. Over the past 30 years, Redecam has designed, manufactured, installed and commissioned new market-leading industrial air filtration and flue gas treatment systems that consistently outperform and outlast the competition. Over its history, it has completed over 2,000 projects in more than 85 countries and on every continent. They also specialize in customized retrofit, transformation and upgrade solutions, which use clients' existing equipment's casing and parts and offer them a cost-effective, high performance solution with a quick turnaround.

The current outbreak of COVID-19 in Italy has led to delays in providing certain services and signing new sales contracts; however, Redecam's client base remains globally diversified and Redecam continues to engage with its customers.

Prior to the COVID-19 outbreak, Redecam had been working to address ongoing liquidity constraints in its global business operations. While these discussions and negotiations have continued throughout the second quarter of 2020, securing new financing has proven to be difficult, and there are no guarantees a satisfactory outcome will be reached. As a result, the Corporation recognized a \$2.8 million impairment loss related to its investment in Dundee Sarea Fund, which increased the Corporation's share of loss from its investment in Dundee Sarea Fund to \$4.3 million (2019 – earnings of \$0.5 million).

***Dundee Securities Europe Limited (“DUK”)***

In connection with the sale of 80% of the business of DUK on April 1, 2018, the Corporation retained 1,968,000 class A voting shares and 450,000 class B 10% non-cumulative preference shares of DUK, which represented a 20% voting interest in DUK. The Corporation determined that it still has significant influence over the investment and, accordingly, this investment is accounted for using the equity method.

During the six months ended June 30, 2020, the Corporation recognized a loss of \$0.6 million from its share of loss from its investment in DUK (2019 – \$52,000).

\* See below "Dundee Precious Metals Inc."

Changes in fair values of portfolio investments during the first half of 2020 resulted in an increase in the value of the Corporation's portfolio of investments at FVTPL of \$36.3 million. In the corresponding period, the Corporation generated proceeds of \$153.5 million from the sale of various mining investments, which were deemed to be non-strategic to its ongoing business strategy.

#### ***Dundee Precious Metals Inc. ("Dundee Precious")***

Dundee Precious is a Canadian-based, international gold mining company engaged in the acquisition of mineral properties, exploration, development, mining and processing of precious metals. Dundee Precious' operating assets include the Chelopech operation, which produces a copper concentrate containing gold and silver and a pyrite concentrate containing gold, located east of Sofia, Bulgaria; the Ada Tepe mine, which produces a gold concentrate containing gold and silver, located in south eastern Bulgaria, near the town of Krumovgrad; and the Tsumeb smelter, a complex copper concentrate processing facility located in Namibia. Dundee Precious also holds interest in a number of developing gold and exploration properties located in Canada, Serbia and Ecuador, and its 9.4% interest in Sabina Gold & Silver Corp.

During the first six months of 2020, Dundee Precious produced gold on an all-in sustaining cost basis of US\$662 per ounce, on a consolidated basis. Gold production during the first half of 2020 increased by 62% to 154,328 ounces due primarily to production from Ada Tepe, which achieved commercial production in June 2019, and copper production increased by 10% to 18.8 million pounds due primarily to higher copper grades, partially offset by lower copper recoveries, in each case, relative to the corresponding period in 2019. The Tsumeb smelter achieved total complex concentrate smelted of 123,526 tonnes during the first half of 2020, which was slightly lower than the corresponding period in 2019 due primarily to a reduction in throughput as a result of COVID-9, partially offset by a steadier state of operations in 2020.

At June 30, 2020, Dundee Precious had cash resources of US\$225.8 million, including undrawn capacity under its revolving credit facility. Dundee Precious reported total revenues of US\$308.7 million during the six months ended June 30, 2020, and it reported net earnings attributable to its common shareholders of US\$92.0 million.

On May 13, 2020, the Corporation announced the closing of the sale of 23.9 million units ("Units") at a price of \$6.35 per Unit to qualified purchasers, for gross proceeds of \$151.8 million (the "Sale Transaction"). Each Unit consisted of one common share of Dundee Precious owned by the Corporation (a "Unit Share") and one-half of a common share purchase warrant (each whole warrant a "Warrant"). Each Warrant shall entitle the holder thereof to acquire one additional common share of Dundee Precious owned by the Corporation (a "Warrant Share") at an exercise price of \$8.00 per share for a term of 12 months from the date of issue. The common shares of Dundee Precious reserved to satisfy the exercise of the warrants are currently held in escrow. Transaction costs of \$5.3 million relating to the Sale Transaction which are included in "Net income from investments" in the consolidated statements of operations for the three and six months ended June 30, 2020. At June 30, 2020, Dundee Corporation holds 12.0 million common shares of Dundee Precious, representing an approximate 6.62% interest in Dundee Precious, with a market value of \$107.0 million. In the event that the Warrants forming part of the Units are exercised in full, the Corporation

will dispose of an additional 12.0 million Dundee Precious' common shares at a value of \$8.00 per share, for additional gross proceeds of \$95.6 million.

The Warrants are derivative liabilities and are carried as "*Derivative financial liability*" in the Corporation's consolidated statement of financial position at their estimated fair value of \$14.5 million at the date of the Sale Transaction. At June 30, 2020, the fair value of the Warrants is \$23.6 million and the Corporation recognized a fair value loss of \$9.1 million as "*Remeasurement of financial instruments*" in the consolidated interim statement of operations for the three and six months ended June 30, 2020.

#### ***TauRx Pharmaceuticals Ltd. ("TauRx")***

TauRx is a private neuroscience company focused on the discovery, development and commercialization of products for the diagnosis and treatment of neuro-degenerative diseases caused through protein aggregation. The business was established in 2002 with the aim of discovering novel approaches to the treatment and diagnosis of Alzheimer's disease ("AD") as well as other neurological diseases characterized by abnormal aggregation of the Tau and other proteins within the brain. TauRx's flagship development product is the drug, LMTX®, which is now also recognized by its newly-assigned International Non-proprietary Name (INN) moniker "hydromethylthionine".

In late 2016, TauRx completed and announced results for its three-part Phase III clinical trial program designed to test the efficacy and safety of LMTX® in patients with mild to moderate AD and behavioral variant Frontotemporal Dementia. The headline results for all three studies were negative as LMTX® failed to slow cognitive or functional decline in the total populations of treated subjects. The clinical trials that comprised patients with mild or moderate AD reported a promising subgroup analysis outcome in which patients who received LMTX® as their only AD medication (LMTX® as a monotherapy) demonstrated significant reductions in disease progression as measured both by cognitive and functional test batteries and by MRI imaging of brain atrophy. However, patients that received the drug as an add-on therapy showed no beneficial effects. This necessitated further trials to be conducted with a focus on LMTX® as a monotherapy.

TauRx initiated discussions with regulatory authorities in Europe and the United States to determine its next steps and it has determined that, in order to corroborate the positive findings from the aforementioned studies, it will commence with a new study (TRx Study 039 – "Lucidity" study) that is fully randomized from the outset to test for clinically meaningful and statistically significant differences between LMTX® taken as a monotherapy and placebo groups.

In September 2018, TauRx announced that it had revised the design of TRx Study 039 in light of guidance issued by the US Food and Drug Administration (FDA) and European Medicines Agency (EMA) in early 2018. The new guidance recognizes the importance of treating early stages of AD and offers a clearer regulatory framework for conducting trials in early AD. In October 2019, TauRx announced further revisions to TRx Study 039 protocols which is now designed as a three-arm, 24-month placebo-controlled clinical trial program covering a pool of approximately 400 patients with early AD to mild-moderate AD. The initial phase will be a 12-month, double-blind program designed to provide a read-out of the efficacy of the drug. The latter 12-month open label phase is expected to support the disease-modifying therapeutic potential of LMTX®.

In order to fund the new study and bolster its cash reserves, TauRx negotiated an investment from an existing shareholder through the issuance of a new class of preference shares in the company. The investor subscribed for 500,000 class B preference shares at an aggregate subscription amount of US\$100 million or US\$200/share. The new class of preference shares does not have any liquidation preferences but convey to the holder a call option to acquire commercialization rights for LMTX® over certain territories in Asia. The preference shares are convertible to ordinary shares on a one-to-one basis upon the attainment of pre-specified regulatory and/or listing objectives alongside the injection of a further material amount of cash. The investment is to be made in three tranches with the initial tranche (350,000 shares/US\$70 million) completed in January 2020. Subsequent to June 30, 2020, the final two tranches (totalling 150,000 shares/US\$30 million) were completed.

At June 30, 2020, the Corporation held an approximate 4% interest in TauRx. The Corporation has determined that the fair value of its investment at June 30, 2020 was \$42.3 million. In determining the fair value of its interest, the Corporation applied a value per share of US\$30.60, the equivalent of a 50% discount to the volume-weighted average price of ordinary shares issued from treasury during 2015 and 2016.

### ***Subordinated Loan Advanced to Eight Capital***

At December 31, 2019, the Corporation had advanced \$13.7 million in the form of a subordinated loan to Eight Capital, a partnership formed in 2016 by a consortium of individuals that were previously key employees of Dundee Securities Ltd.'s capital markets division. The loan bears interest at a rate of 10% per annum.

In connection with the loan, the Corporation entered into a royalty agreement with Eight Capital pursuant to which Eight Capital will pay a revenue-based royalty payment to the Corporation, ranging between 1% and 6.5% of revenues generated by Eight Capital over a five-year period commencing in the calendar year ended December 31, 2017, and reducing to between 1% and 2% in each of 2022 and 2023. Under the terms of the royalty agreement, royalty payments will cease, subject to a final royalty payment, if the subordinated loan made by the Corporation to Eight Capital is repaid in full, and in any case, will cease effective December 31, 2023. During the six months ended June 30, 2020, the Corporation received \$1.0 million in respect of its royalty payment and interest.

## **OTHER CONSOLIDATED BALANCES AND CAPITAL STRUCTURE**

### **General and Administrative Expenses**

Generally, head office costs, including costs associated with corporate governance and related public company costs, are accumulated and reported as head office costs and are not allocated to other operating segments.

During the first half of 2020, the Corporation reported head office general and administrative expenses (before non-cash stock based compensation) of \$7.5 million, decreased by \$1.3 million or 14%, compared with general and administrative expenses incurred in the same period of the prior year.

<i>For the six months ended June 30,</i>	2020	2019
Direct compensation	\$ 1,935	\$ 4,438
Corporate and professional fees	1,545	3,156
Other	4,045	1,186
	7,525	8,780
Stock based compensation arrangements	1,445	833
	<b>\$ 8,970</b>	<b>\$ 9,613</b>

Stock based compensation added a further \$1.4 million (2019 – \$0.8 million) to general and administrative expenses during the first half of 2020. Certain of the Corporation's share incentive arrangements are considered financial obligations of the Corporation and are marked-to-market in the consolidated financial statements to reflect changes in such underlying financial obligations. The terms of the Corporation's share incentive arrangements are detailed in note 20 to the 2019 Audited Consolidated Financial Statements.

### **Corporate Interest Expense**

Corporate interest expense was \$0.3 million during the six months ended June 30, 2020 (2019 – \$2.8 million). Included in interest expense during the first half of 2019 are \$2.3 million cash dividends incurred on the Corporation's Preference Shares, series 5. Following the conversion of Preference Shares, series 5 into the Corporation's Subordinate Shares on May 15, 2019, there were no further dividend payments on the Preference Shares, series 5.

### **Income Tax Expense**

The Corporation's effective income tax expense rate for the six months ended June 30, 2020 was significantly different than the statutory combined federal and provincial tax rate of 26.5%, primarily due to operating losses incurred by certain subsidiaries, the benefit of which was not recognized.

As disclosed originally in the June 2018 Interim Consolidated Financial Statements, the Canada Revenue Agency ("CRA") has disagreed with a principal filing position. In October 2019, the Corporation received notices of re-assessment for \$12.0 million.

The Corporation continues to assert its principal filing position is correct and has filed an objection to the notice of re-assessment. Since the Corporation believes the CRA's position is incorrect and expects to recover the amount remitted, the \$12.0 million has been recorded as a "Deposit with taxation authority" in the consolidated statements of financial position.

### Net Deferred Income Tax Assets

The Corporation's net deferred income tax assets at June 30, 2020 were \$9.2 million and represent deferred income tax assets of \$42.2 million, offset by deferred income tax liabilities of \$33.0 million. This compares to net deferred income tax assets of \$12.4 million at December 31, 2019. Net deferred income tax assets decreased as a result of changes in the fair value of the Corporation's investments and the Corporation only recognizing deferred income tax assets which meet the more-likely-than-not criteria. Components of the Corporation's net deferred income tax assets are detailed in note 20 to the June 2020 Interim Consolidated Financial Statements.

The Corporation's aggregate non-capital loss carry forwards at June 30, 2020 were \$491.7 million (December 31, 2019 – \$550.4 million). In addition, the Corporation's capital loss carry forwards at June 30, 2020 were \$260.0 million (December 31, 2019 – \$260.0 million). Included in the Corporation's deferred income tax balances is a tax benefit of \$36.3 million (December 31, 2019 – \$49.7 million) in respect of the non-capital and capital loss carry forwards.

### Corporate Debt

	Corporate	Blue Goose	Dundee 360	Total
Balance, December 31, 2019	\$ -	\$ 46,135	\$ 5	\$ 46,140
Repayments	-	(932)	(5)	(937)
Other - Convertible debenture accretion expense	-	188	-	188
<b>Balance, June 30, 2020</b>	<b>\$ -</b>	<b>\$ 45,391</b>	<b>\$ -</b>	<b>\$ 45,391</b>

In January 2020, a subsidiary of the Corporation opened a margin account with a Canadian independent wealth management and capital markets firm that is a member of the Investment Industry Regulatory Organization of Canada ("IIROC") and a member of the Canadian Investor Protection Fund ("CIPF"). The borrowings under this facility bear interest at prime plus 1%. The margin account requires the maintenance of certain financial ratios between the fair value of certain of the Corporation's publicly traded securities relative to amounts borrowed. Therefore, the Corporation's borrowing availability will increase or decrease, reflecting corresponding increases or decreases in these securities. The amount borrowed under this margin account at June 30, 2020 was \$nil.

In February 2020, the Corporation terminated the credit facility and cancelled the letters of credits that were previously established with a Canadian Schedule I Chartered Bank.

### Debt of Subsidiaries

A more detailed discussion of corporate debt in each of the Corporation's business segments is presented under "Segmented Results of Operations".

### Share Capital

#### Preference Shares

At June 30, 2020, the Corporation's outstanding preference share arrangements were as follows:

Trade Symbol	Series	# of Shares Outstanding	Face Value per Share	Total Face Value	Coupon Rate	Carrying Value
DC.PR.B	Series 2	3,116,278	\$25.00	\$77,907	5.284% – 5-year fixed rate to Sept 30, 2024	\$75,026 equity instrument
DC.PR.D	Series 3	2,017,922	\$25.00	\$50,448	5.74% to 5.75% – quarterly floating rate	\$50,448 equity instrument

Subsequent to June 30, 2020, the Corporation announced a substantial issuer bid (the "Offer") to purchase for cancellation from the holders thereof who choose to participate up to \$44.0 million in value of the Corporation's Preference Shares, Series 2 ("PS

Series 2”). The Offer is being made by way of a “modified Dutch auction”, which will allow the PS Series 2 holders who choose to participate in the Offer to individually select the price ranging from \$16.00 to \$18.50 per PS Series 2 share, in increments of \$0.10 per share. Upon expiry of the Offer, the Corporation will determine the lowest purchase price (the “Purchase Price”) (which will not be less than \$16.00 and not more than \$18.50 per PS Series 2 share) based on all tenders validly deposited and not properly withdrawn pursuant to the Offer that will allow it to purchase the maximum number of PS Series 2 shares tendered to the Offer, having an aggregate purchase price not exceeding \$44.0 million. The Offer will expire at 5:00 p.m. (Toronto time) on August 27, 2020 or such later time and date to which the Offer may be extended by the Corporation, unless varied or withdrawn by the Corporation.

In addition to the Purchase Price, holders who have PS Series 2 shares taken up and paid for by the Corporation pursuant to the Offer will be entitled to receive the portion of any quarterly cash dividend declared by the Corporation’s board of directors on such PS Series 2 shares for the quarter ended September 30, 2020, with such portion of the quarterly cash dividend per PS Series 2 share being equal to the amount obtained when the amount of any quarterly dividend that would otherwise have been payable in respect of the dividend period is multiplied by a fraction, the numerator of which is the number of calendar days in such dividend period that such PS Series 2 share has been outstanding (to but excluding the date of being taken up) and the denominator of which is the number of calendar days in such dividend period. Based on the estimated expiry date, August 27, 2020, the PS Series 2 shares are taken up and paid for by the Corporation on August 31, 2020 and a dividend consistent with the prior quarter was declared on the PS Series 2 shares, the accrued dividend amount payable per PS Series 2 share validly tendered, taken up and paid for under the Offer is estimated to be approximately \$0.22.

Following the announcement of the Offer, the Corporation has suspended share repurchases under its normal course issuer bids (“NCIBs”) and the NCIBs will remain suspended until at least the day following the expiration of the Offer or the termination of the Offer. Subsequent to June 30, 2020, the Corporation purchased 300 PS, Series 2 shares and 1,000 PS, Series 3 shares for cancellation pursuant to its NCIBs.

A full description of the terms of the Corporation’s preference shares is provided in note 16 to the 2019 Audited Consolidated Financial Statements and updated in notes 14 and 28 to the June 2020 Interim Consolidated Financial Statements.

#### *Common Shares*

As at June 30, 2020, there were 99,977,865 Class A subordinate voting shares (“Subordinate Shares”) and 3,114,650 Class B common shares outstanding. At August 13, 2020, the number of outstanding Subordinate Shares had increased to 99,977,904 and there were 3,114,611 Class B common shares outstanding.

At June 30, 2020, the Corporation had awarded 1,733,329 deferred share units under its deferred share unit plan, each deferred share unit of which tracks the value of the Corporation’s Class A subordinate voting shares and 115,815 deferred share units that track the value of a subordinate voting share of Dream Unlimited Corp. (“Dream”). On July 2, 2020, Dream announced a share consolidation on the basis of one post-consolidation subordinate voting share for every two pre-consolidation subordinate voting shares, resulting in the deduction of the deferred share units that track the value of Dream’s subordinate voting shares to 57,906 units.

In addition, and under the terms of the Corporation’s share incentive arrangements, at June 30, 2020, the Corporation had granted 4,140,000 options with a weighted average exercise price of \$1.10 under its share option plan and awarded an aggregate of 469,300 Class A subordinate voting share bonus rights under its share bonus plan, each of which is subject to certain vesting criteria. The terms of the Corporation’s share-based compensation arrangements are summarized in note 20 to the Corporation’s 2019 Audited Consolidated Financial Statements and are updated in note 18 to the June 2020 Interim Consolidated Financial Statements.

## CONSOLIDATED LIQUIDITY AND CAPITAL RESOURCES

On a consolidated basis, the Corporation reported cash of \$147.7 million at June 30, 2020. This compares with cash of \$26.5 million at December 31, 2019. The following table illustrates the Corporation's consolidated cash flow on a segmented basis, including net cash flow movements between Dundee Corporation and each of its operating segments.

<i>For the six months ended June 30, 2020</i>	Opening Cash	Operating Activities	Investing Activities	Financing Activities	Intersegment	Closing Cash
<i>Corporate and other portfolio holdings</i>	\$ 17,943	\$ (14,159)	\$ 145,744	\$ (4,930)	\$ (4,535)	\$ 140,063
<i>Asset management and capital markets</i>						
Goodman & Company, Investment Counsel Inc.	2,857	(903)	-	(48)	(189)	1,717
<i>Resource industry</i>						
United Hydrocarbon International Corp.	4,385	(605)	-	-	-	3,780
Dundee Sustainable Technologies Inc.	116	56	-	(105)	1,145	1,212
<i>Agriculture industry</i>						
Blue Goose Capital Corp.	341	(1,180)	(1,139)	(1,246)	3,296	72
AgriMarine Holdings Inc.	44	(54)	100	(251)	214	53
<i>Real estate industry</i>						
Dundee 360 Real Estate Corporation	850	(184)	55	(11)	69	779
	<b>\$ 26,536</b>	<b>\$ (17,029)</b>	<b>\$ 144,760</b>	<b>\$ (6,591)</b>	<b>\$ -</b>	<b>\$ 147,676</b>

Included in the Corporation's consolidated cash balance is \$1.7 million (December 31, 2019 – \$2.9 million) relating to the operating businesses of the Corporation's asset management subsidiaries. These subsidiaries function in regulated environments and are therefore required to maintain levels of capital in liquid assets, in accordance with such regulatory requirements. The ability to transfer cash resources out of these regulated subsidiaries may be limited by their requirement to comply with regulatory capital requirements. At June 30, 2020 and December 31, 2019, the Corporation's regulated subsidiaries exceeded their minimum regulatory capital requirements.

A more detailed discussion of significant transactions affecting cash flows during the six months ended June 30, 2020 and 2019 is provided as follows:

### *Significant Cash Flows – Operating Activities*

<i>For the six months ended June 30,</i>	Corporate	UHIC	Blue Goose	Dundee 360	Other	Total 2020	2019
<i>Operating activities:</i>							
Adjusted net earnings or loss*	\$ (3,995)	\$ (334)	\$ (2,609)	\$ (361)	\$ 1,350	\$ (5,949)	\$ (19,248)
Changes in agricultural inventory	-	-	1,849	-	(2,090)	(241)	228
Changes in other working capital amounts	(7,789)	(271)	(420)	177	(161)	(8,464)	3,251
Changes in income taxes	(2,375)	-	-	-	-	(2,375)	(3,857)
<b>Cash used in operating activities –</b>							
<b>Continuing operations</b>	<b>\$ (14,159)</b>	<b>\$ (605)</b>	<b>\$ (1,180)</b>	<b>\$ (184)</b>	<b>\$ (901)</b>	<b>\$ (17,029)</b>	<b>\$ (19,626)</b>

\* Adjusted net earnings or loss are equal to net earnings or loss adjusted for items not affecting cash and other adjustments.

- During the first half of 2020, changes in the balances of agricultural inventory resulted in net cash outflows of \$0.2 million (2019 – inflows of \$0.2 million).

### Significant Cash Flows – Investing Activities

<i>For the six months ended June 30,</i>	Corporate	UHIC	Blue Goose	Dundee 360	Other	Total 2020	2019
Investing activities:							
Net proceeds from dispositions of portfolio and equity investments	\$ 140,843	\$ -	\$ -	\$ 55	\$ -	\$ 140,898	\$ 15,386
Net investment in livestock and other agricultural assets	-	-	(1,311)	-	-	(1,311)	(2,525)
Proceeds from cash in business disposition and loss of control of subsidiaries	-	-	-	-	-	-	4,955

<b>Cash provided from (used in) investing activities – Continuing operations</b>	<b>\$ 145,744</b>	<b>\$ -</b>	<b>\$ (1,139)</b>	<b>\$ 55</b>	<b>\$ 100</b>	<b>\$ 144,760</b>	<b>\$ 19,590</b>

- During the six months ended June 30, 2020, changes in portfolio and equity investments resulted in net cash inflows of \$140.9 million (2019 – \$15.4 million). Included in 2020 cash inflows is \$146.5 million, which is net of \$5.3 million transaction costs, from the disposition of 23.9 million Units of Dundee Precious in May 2020. Included in 2019 cash inflows was \$14.5 million received on the disposition of Union Group that the Corporation previously included in its equity accounted investments.
- During the first half of 2019, there was \$5.0 million cash proceeds from the disposition of Dundee 360’s brokerage division, offset with a \$45,000 cash disbursement due to loss of control of subsidiaries, Dundee Energy and Eurogas.

### Significant Cash Flows – Financing Activities

<i>For the six months ended June 30,</i>	Corporate	UHIC	Blue Goose	Dundee 360	Other	Total 2020	2019
Financing activities:							
Change in corporate debt	\$ -	\$ -	\$ (932)	\$ (5)	\$ -	\$ (937)	\$ (1,374)
Acquisition of Preference Shares, series 3	(16)	-	-	-	-	(16)	-
Cash payment on lease liabilities	(1,410)	-	(563)	(6)	(404)	(2,383)	(2,545)
Dividends paid on Preference Shares, series 2 and series 3	(3,504)	-	-	-	-	(3,504)	(3,710)
Net cash from transactions with non-controlling interests	-	-	249	-	-	249	249
<b>Cash used in financing activities – Continuing operations</b>	<b>\$ (4,930)</b>	<b>\$ -</b>	<b>\$ (1,246)</b>	<b>\$ (11)</b>	<b>\$ (404)</b>	<b>\$ (6,591)</b>	<b>\$ (7,380)</b>

- Net amounts repaid against credit facilities available to the Corporation and its subsidiaries during the first half of 2020 were \$0.9 million (2019 – \$1.4 million).
- Cash outflows during the six months ended June 30, 2020 include dividends of \$3.5 million (2019 – \$3.7 million) paid by the Corporation on its outstanding Preference Shares, series 2 and Preference Shares, series 3. The Corporation has not paid dividends on its Class A subordinate voting shares or on its common shares.

### Cash Requirements

The Corporation’s capital management and funding objectives include ensuring that the Corporation is compliant with all of its ongoing obligations, including compliance with all applicable debt covenants, and ensuring that the Corporation is able to meet its financial obligations as they become due. In determining its capital allocation, the Corporation considers relevant regulatory capital requirements in order to effectively manage its investment management strategies and resources required for the development of resource, agricultural and real estate opportunities. The Corporation’s capital management objectives also include ensuring that it has sufficient capital available to benefit from acquisitions and other opportunities, should they arise, and ensuring adequate returns for shareholders. The Corporation regularly assesses the allocation of its capital resources in response to changing economic conditions.

The Corporation’s intention is to meet short-term liquidity requirements through funds from operations, working capital reserves and operating debt facilities. Capital may also be generated through dispositions of investments.

There are uncertainties related to the timing and use of the Corporation’s cash resources and available borrowing capacity. The development stage of the Corporation’s investments and business strategies may not generate sufficient operating cash flows to

fund their obligations as they become due. As such, these obligations may require that the Corporation generate liquidity through the divestiture of non-core investments, through the use of available borrowing capacity, or through the issuance of debt or equity. The Corporation may experience difficulty in obtaining satisfactory financial terms. Failure to obtain adequate financing on satisfactory terms may have a material adverse effect to the Corporation's results of operations or its financial condition.

## RESULTS OF OPERATIONS

Three Months Ended June 30, 2020 compared with the Three Months Ended June 30, 2019

### Consolidated Net Earnings or Loss

During the second quarter of 2020, the Corporation recognized net earnings attributable to owners of Dundee Corporation of \$52.2 million, or earnings of \$0.49 per share, before the effect of any dilutive securities. This compares with a loss of \$7.9 million or \$0.12 per share incurred during the same quarter of the prior year. Operating results in the second quarter of 2019 included losses from discontinued operations of \$0.1 million.

<i>For the three months ended June 30,</i>	2020	2019
Net (loss) earnings before income taxes from continuing operations		
Goodman & Company, Investment Counsel Inc.	\$ (712)	\$ (288)

Management fee revenues were \$0.2 million during the three months ended June 30, 2020, a decline of \$0.1 million compared with management fee revenues earned in the same quarter of the prior year. Average AUM for the three months ended June 30, 2020 was \$49.9 million (2019 – \$66.1 million). During the second quarter of 2020, the average management fee rate on AUM was 1.91% (2019 – 1.81%).

General and administrative expenses decreased by \$0.2 million from \$1.0 million during the second quarter of 2019 to \$0.8 million during the same quarter of 2020. The reduction of general and administrative expenses year-over-year was mainly due to the streamlining of its business strategy. During the current quarter of 2020, GCIC recognized a \$0.6 million loss from its share of loss from its equity investment in DUK and a \$0.2 million investment income from its portfolio investments that were received as payment for financial services rendered in 2019.

## DUNDEE SUSTAINABLE TECHNOLOGIES INC.

During the three months ended June 30, 2020, Dundee Technologies incurred a net loss before taxes of \$0.1 million (2019 – \$0.8 million).

### RESULTS OF OPERATIONS

<i>For the three months ended June 30,</i>	2020	2019

During the second quarter of 2020, Dundee Technologies continued to expand the provision of technical services in the mining industry to evaluate processing alternatives using its state-of-the-art metallurgy plant and skilled technical team. Revenue during the current quarter was \$1.0 million, compared with revenue of \$0.4 million in the same period of the prior year.

Dundee Technologies incurred operating expenses of \$0.9 million in the second quarter of 2020 (2019 – \$0.9 million), of which \$0.8 million (2019 – \$0.3 million) was attributed to cost of sales and \$0.1 million (2019 – \$0.6 million) in general and administrative costs.

## BLUE GOOSE CAPITAL CORP.

During the second quarter of 2020, Blue Goose incurred a net loss attributable to owners of Dundee Corporation of \$2.9 million, compared with a net loss of \$3.4 million incurred in the same period of the prior year. The other revenue of the current quarter includes a \$0.5 million wage subsidy under CEWS program.

### RESULTS OF OPERATIONS

### Contribution Margins

During the three months ended June 30, 2020, Blue Goose incurred a negative contribution margin of \$1.9 million (2019 – \$1.3 million) on total sales of \$2.2 million (2019 – \$4.0 million). The second quarter of 2019 results included a \$1.3 million negative contribution margin from the fish operation. The negative contribution margin, before adjusting for fair value changes, was \$0.1 million in the second quarter of 2020 (2019 – positive contribution margin of \$2.3 million).

<i>For the three months ended June 30,</i>				2020
	Beef	Fish	Chicken	Total

<b>Contribution margin</b>	<b>\$ (22)</b>	<b>\$ (1,266)</b>	<b>\$ (5)</b>	<b>(1,293)</b>

Sales revenue in the beef division decreased by \$1.3 million in the current quarter compared with the same period of the prior year. This is mainly attributable to the 75% decrease in sale of live cattle as a result of COVID-19. Period cost for the current quarter increased by \$1.0 million to \$2.3 million. This was due to the lower hay production in the current quarter which resulted in lower production cost recovery of \$0.3 million compared with \$2.2 million for the second quarter of 2019.

### AGRIMARINE HOLDINGS INC.

During the three months ended June 30, 2020, AgriMarine incurred pre-tax net losses attributable to owners of Dundee Corporation of \$0.8 million, compared with pre-tax net losses attributable to owners of Dundee Corporation of \$1.0 million in the same period in the prior year.

Net loss before taxes, Dundee 360 Real Estate Corporation	\$ (164)	\$ (2,427)	\$ (271)	\$ (2,698)

Compared with the same quarter of the prior year, Dundee 360 generated revenues of \$84,000 (2019 – \$0.1 million) from its continuing operations, most of the revenues in the current quarter is attributable to financial reporting services. In addition, development fee revenue that was recognized in the prior year was not earned in the current year.

Consistent with the year-to-date results, the closure of the Montreal office and associated one-time expenses incurred in 2019, general and administrative expense reduced from \$2.2 million for the prior year to \$0.2 million for the current quarter of 2020.

During the second quarter of 2020, Dundee 360 recognized a \$3,000 loss from its share of loss from its real estate joint ventures, compared with \$0.2 income for the same quarter of the prior year. The 2019 income was mainly due to sales and deliveries of residential units in Edenarc, France.

- During the first quarter of 2020, UHIC recognized a \$117.3 million loss on remeasurement of the financial instrument after decreasing the long-term forecasted oil prices and success probabilities in combination with increasing the discount rates and one-year delay to first oil production applied in its valuation model in determining the fair value of the royalty interest and its associated contingent consideration.
- During the third quarter of 2019, Blue Goose incurred an impairment charge of \$10.0 million against certain properties and equipment, reducing their carrying value to their estimated realizable amount.
- Included in net earnings or loss are amounts reflecting changes in the fair value of the Corporation's direct investments in public and private securities. These changes are determined by equity and credit markets and are expected to result in significant fluctuations in net earnings or loss. The Corporation believes that equity and credit markets do not necessarily correctly reflect the underlying value of certain assets. As a consequence, management of the Corporation believes that the amount of unrealized gains or losses that will be included in net earnings or loss in any given period typically provides little analytical or predictive value to the readers of the Corporation's financial information.
- The Corporation's share of earnings or losses from equity accounted investments is included in the Corporation's net earnings or loss for each quarter. As with changes in the fair value of the Corporation's investment portfolio, earnings or losses from each equity accounted investee, and dilution gains and losses from these investments, will fluctuate from period to period and may depend on market forces or other operating conditions that are not necessarily under the Corporation's direct control.

## OFF-BALANCE SHEET ARRANGEMENTS, COMMITMENTS AND CONTINGENCIES

Other than as disclosed elsewhere in this MD&A or in note 25 to the June 2020 Interim Consolidated Financial Statements, there have been no significant changes in the nature of commitments, contingencies and off-balance sheet arrangements from those described in note 27 to the 2019 Audited Consolidated Financial Statements and under "Off-Balance Sheet Arrangements" and "Commitments and Contingencies" on pages 45 through 47 in the Corporation's MD&A as at and for the year ended December 31, 2019.

## **RELATED PARTY TRANSACTIONS**

Other than as described in note 26 to the June 2020 Interim Consolidated Financial Statements, there have been no significant changes in the nature and scope of related party transactions to those described in note 28 to the 2019 Audited Consolidated Financial Statements and the accompanying MD&A.

## **ACCOUNTING POLICIES AND CRITICAL ACCOUNTING ESTIMATES**

The preparation of the Corporation's consolidated financial statements, in conformity with IFRS, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and other items in net earnings or loss and the related disclosure of contingent assets and liabilities. Critical accounting estimates represent estimates made by management that are, by their very nature, uncertain. The Corporation evaluates its estimates on an ongoing basis. Such estimates are based on historical experience and on various other assumptions that the Corporation believes are reasonable under the circumstances, and these estimates form the basis for making judgments about the carrying value of assets and liabilities and the reported amount of revenues and other items in net earnings or loss that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. A summary of the more significant judgments and estimates made by management in the preparation of its financial information is provided in note 4 to the 2019 Audited Consolidated Financial Statements. Other than as described in note 2 to the June 2020 Interim Consolidated Financial Statements, there have been no changes in the accounting policies adopted by the Corporation from those detailed in note 3 to the Corporation's 2019 Audited Consolidated Financial Statements.

## **CONTROLS AND PROCEDURES**

In accordance with the Canadian Securities Administrators' National Instrument 52-109, the Corporation has filed certificates signed by its Chief Executive Officer and Chief Financial Officer certifying that, among other things, the design of disclosure controls and procedures and the design of internal control over financial reporting are adequate as at June 30, 2020.

Disclosure controls and procedures are designed to ensure that information required to be disclosed by the Corporation in the reports it files or submits under securities legislation is recorded, processed, summarized and reported on in a timely basis and that such information is accumulated and reported to management, including the Corporation's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow required disclosures to be made in a timely fashion. Based on their evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as at June 30, 2020, the Corporation's disclosure controls and procedures were effective.

The Chief Executive Officer and the Chief Financial Officer of the Corporation have also assessed whether there were any changes to the Corporation's internal control over financial reporting during the six months ended June 30, 2020 that have materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting. There were no changes identified during their assessment.

## **MANAGING RISK**

Except as otherwise disclosed in this MD&A, including as follows with respect to the impact of the COVID-19 pandemic, there have been no significant changes to the nature and scope of the risks faced by the Corporation as described in the Corporation's 2019 Annual Information Form under "Risk Factors" which is available on SEDAR at [www.sedar.com](http://www.sedar.com). These business risks should be considered by interested parties when evaluating the Corporation's performance and its outlook.

### *Impact of the COVID-19 Pandemic*

On March 11, 2020, the World Health Organization declared the outbreak of a strain of novel coronavirus disease, COVID-19, a global pandemic. Governments in affected areas have imposed a number of measures designed to contain the outbreak, including business closures, travel restrictions, quarantines and cancellations of gatherings and events. The spread of the COVID-19 virus has resulted in a sharp decline in global economic growth as well as causing increased volatility and declines in financial markets. If the COVID-19 pandemic is prolonged, or further diseases emerge that give rise to similar effects, the adverse impact

on the global economy could deepen and result in further declines in global economic growth and financial markets. Accordingly, the full impact of the COVID-19 pandemic on the global economy and financial markets is uncertain and may have an adverse effect on the Corporation.

## **CAUTIONARY NOTE REGARDING FORWARD LOOKING STATEMENTS**

Dundee Corporation's public communications may include written or oral forward looking statements. Statements of this type are included in this MD&A, and may be included in other filings with the Canadian regulators, stock exchanges or in other communications. All such statements constitute forward looking information within the meaning of securities law and are made pursuant to the "safe harbour" provisions of applicable securities laws. Forward looking statements may include, but are not limited to, statements about anticipated future events or results including comments with respect to the Corporation's objectives and priorities for 2020 and beyond, and strategies or further actions with respect to the Corporation, its products and services, business operations, financial performance and condition. Forward looking statements are statements that are predictive in nature, depend upon or refer to future events or conditions or include words such as "expects", "anticipates", "intends", "plans", "believes", "estimates" or similar expressions concerning matters that are not historical facts. Such statements are based on current expectations of the Corporation's management and inherently involve numerous risks and uncertainties, known and unknown, including economic factors and those affecting the financial services, energy, resources, agriculture and real estate industries generally. The forward looking information contained in this MD&A is presented for the purpose of assisting shareholders in understanding business and strategic priorities and objectives as at the periods indicated and may not be appropriate for other purposes.

A number of risks, uncertainties and other factors may cause actual results to differ materially from the forward looking statements contained in this MD&A, including, among other factors, those referenced in the section entitled "Risk Factors" in the Corporation's Annual Information Form, which include, but are not limited to, capital requirements and dilution risk of the Corporation, its subsidiaries and companies in which they invest ("Investees"); the Corporation's ability and the ability of its subsidiaries and Investees to raise additional capital through equity or debt financing and/or refinancing on acceptable terms; the illiquidity of certain of the Corporation's investments, which limits the Corporation's ability to vary its portfolio promptly in response to changing economic or investment conditions or may require the Corporation to dispose of investments at lower prices in order to generate sufficient cash for operations; the volatility of commodity prices which directly affect the Corporation's expected revenues, net income and valuation; tax contingencies which may subject the Corporation to the payment of additional tax, interest and/or penalties; concentration in the Corporation's portfolio of proprietary investments; risk of litigation against the Corporation, its subsidiaries and Investees; the ability of the Corporation's subsidiaries and Investees to comply with debt covenants; managing risks affecting Investees; credit risks from counter parties; reputational risk caused by adverse publicity; regulatory risk affecting asset managers; foreign country risks inherent in investing and doing business internationally; exposure to fluctuations in value of equity interests; risks inherent in operating in the resource industry; regulatory and environmental risks affecting Investees; the requirement of significant capital to advance or sustain operations of resource companies; uncertainties associated with resource exploration and development; infrastructure risks affecting resource companies; uncertainty of mineral resource estimates and oil and gas reserve estimates; agricultural investees' risks relating to natural causes and extraordinary events; product contamination risk for agricultural Investees; operational risks; technology risks affecting Investees; competition; controlling shareholder risk; adequacy of insurance coverage; political and regulatory and environmental, health and safety risks affecting Investees; the reliance on skilled labour, key personnel and operators; regulatory capital requirements affecting Corporation subsidiaries; other risks. The preceding list is not exhaustive of all possible risk factors that may influence actual results, and is compiled based upon information available as at August 13, 2020 and should be read in conjunction with the section entitled "Risk Factors" in the Corporation's Annual Information Form.

Forward looking statements contained in this MD&A are based upon assumptions about the future performance of the Canadian, European and United States economies, which were material factors considered by management when setting Dundee Corporation's strategic priorities and objectives. In determining expectations for economic growth in the financial services, energy, resource, agriculture and real estate sectors, the Corporation considered historical economic data provided by the Canadian government and its agencies, and market and general economic conditions, which factors are unpredictable and may impact the Corporation's performance.

Forward looking statements contained in this MD&A are not guarantees of future performance and, while forward looking statements are based on certain assumptions that the Corporation considers reasonable, actual events and results could differ materially from those expressed or implied by forward looking statements made by the Corporation. Prospective investors are cautioned to consider these and other factors carefully when making decisions with respect to the Corporation and not place undue reliance on forward looking statements. Circumstances affecting the Corporation may change rapidly. Except as may be required by applicable law, the Corporation does not undertake any obligation to update publicly or revise any such forward looking statements, whether as a result of new information, future events or otherwise.

## **INFORMATION CONCERNING DUNDEE CORPORATION**
